

Wizard 654

Chapter 654: Mortal Divine Refinement (4)

"Fuse."

Levi's heart skipped a beat.

He saw that the Forging and alchemy skills on the proficiency panel had all disappeared.

In its place was a brand new skill.

Levi—

Weapon Refinement: Level 5 (13,124/30,000), Weapon Heart.

[Weapon Heart: You have a unique talent in alchemy, forging, weapon-making, and other Weapon Refinement Paths.]

Weapon Refinement?"

Levi was a little surprised.

He had indeed obtained the Book of Starforge Runes before. It was the Book of Weapon-making.

However, he only learned the Rune Language. He didn't learn the orthodox way of weapon – making.

Unexpectedly, in this mortal city, he fused the forging and alchemy skills he had obtained in the human world into a Weapon Refinement skill.

Weapon Refinement encompassed everything, including alchemy, forging, and weapon-making.

"But that's true. To put it bluntly, alchemy is a variant of weapon-making. Forging is also a prerequisite for alchemy and weapon-making. I now have such a rich knowledge of forging, alchemy, and even more difficult refinement arrays. It's normal for me to learn weapon-making by analogy." The combination of alchemy and forging was a pleasant surprise for Levi.

"There are many functions on the interface. I still need to develop them." Levi sighed.

He finished another round of meditation. Levi felt a slight increase in his spiritual power.

[Spiritual force: 92]

[Spell power: 2730]

"I'm getting closer and closer. I'm still 8 points away. I should be able to reach 100 points before I turn 75."

"In the future, I might need to find a safe place and enter a relatively long seclusion. I'll strive to successfully gasify my spiritual force in one go."

After this period of mortalization, Levi realized that the mental strength in his mind was much calmer than before.

He had a feeling that with the Earth and Fire Gasification Technique and the Lake Fairy Potion, he should be able to step into the third-circle steadily.

"But there's a problem. The Lake Fairy Potion is a third -circle potion. I'm only a Second-Circle Pharmacist now. My spiritual force can't refine a third-circle potion... There's no f*cking solution."

Levi suddenly thought of a problem.

"Most pharmacists should first buy potions to let their wizard cultivation break through to the Third-Circle Pharmacist Realm before refining the Third-Circle Pharmacist Realm. Someone like me who wants to refine the Third-Circle Pharmacist Realm with a second-circle cultivation is probably dreaming."

"If it really doesn't work, I'll have to look for the Lush Forest Witch or Huffman. I know a Third -Circle Pharmacist who's relatively trustworthy and has a good relationship with him. It's just the two of them."

Levi calmed down and continued to cultivate.

Time flew by like a white steed.

Holy Brilliance Calendar Year 1062, Month of Vitality.

The 26th year of the Great Expedition.

Levi had completely integrated into the life of Mist City.

There was always a little girl by his side, Leah, the lady boss's daughter.

Gradually, Old Keg's Forging skills became well-known in Mist City.

Levi continued to live a simple and boring life. With little Leah by his side, it added some interest to his boring life.

On this day, another wizard passed by in the sky.

The residents of Mist City looked at the wizards flying away with envy and longing, just like the children in the countryside when they saw a plane passing by.

"Grandpa Keg, why can wizards fly? They don't have wings either."

Levi looked calmly at the wizards who were passing by.

Not long after, another wizard flew over. It seemed like he was chasing after another wizard.

Not long after, Levi heard the sound of battle in the distance.

"When will it stop?"

Levi thought of Riptide City.

It had been a long time since he had contacted Huffman. He did not dare to go to Riptide City to check on the situation there, nor did he know how Huffman and Grimm were doing.

He wondered how Ms. Marlene and the others were doing in the Giant Tree Secret Realm.

Had the Dusk Holy Temple in the human world developed?

How were the Tower Master Herman and his lover far away?

After mortalization, Levi sometimes thought of these fleeting travelers in his life.

Levi would not forget these people who had helped him before.

“93 points of spiritual force. Keep up the good work.”

Levi put away the crystal ball and muttered to himself.

"Leah, come back for dinner. Old Keg is taking a nap," The tavern's lady boss called out to Leah, who was pestering Levi for a legendary story.

"I'm leaving, Grandpa Keg. I'll look for you when you wake up." Leah waved and turned to leave.

"Once upon a time, I couldn't get used to other children calling me uncle. Now, I'm a grandfather! Alas, the journey of a wizard is really numbing." Levi returned to his home in the small city.

A figure landed on Mirror Lake outside Mist City.

It was a witch in a green robe. Her face was pale, as if she had just experienced a fierce battle.

As she moved forward, her face kept changing until she finally turned into a witch who looked like a peasant woman.

"I've finally shaken off that damned dark wizard. I'll find a place to live in seclusion for a while. I'll leave after I recover from my injuries."

"The elemental power in this place is thin, and wizards rarely come. It's the most suitable place. Coupled with my secret technique, it should be very difficult for my enemies to discover me after I change my appearance."

The witch's name was Melina. She came to the Realm of Azure Cloud from the distant Realm of All Things..
