Chapter 655: Mortal Divine Refinement (5)

The Realm of All Things was a very small Realm of the Unbelievers. The dominant place was the Spiritualism Steeple.

This was the highest school of the School of Spiritualism. It was filled with wizards from the School of Spiritualism.

However, the Realm of All Things was too small. Transcendent creatures that could be contracted inside were very difficult to find, and there were even fewer that were suitable to be Spiritual Beasts.

Melina was the Third -Circle Wizard of the Spiritualism Steeple. She was a double affinity of water and wind. The Spiritual Beast she contracted after advancing to the first-circle was a vounclinc of a Six-Winged Sea Dragon.

It was a gift from her father, a Fifth-Circle Wizard.

Now, her Spiritual Beast had reached a bottleneck, which was a third-circle transcendent creature.

This directly caused her strength to be stuck at the third-circle, unable to advance an inch.

It couldn't be helped. This was the drawback of the School of Spiritualism.

Of course, if it was anyone else who could advance to become a Third-Circle Wizard, as long as they did not take the initiative to cause trouble, they would be the average of any school. It was enough to be proud.

However, Melina was naturally dissatisfied. Her father was a Fifth-Circle

Wizard and a teacher in the Tower of Spiritualism. Moreover, the Spiritual Beast he contracted was a fifth-circle creature called the Flame Dragon Centipede.

She wanted to follow in her father's footsteps. When her father had chosen the Six-Winged Sea Dragon for Melina as a Spiritual Beast, he had naturally considered it carefully.

As a mixed-blood dragon, the Six-Winged Sea Dragon's potential for growth was actually not limited to the third-circle.

When her father was traveling in the Realm of Azure Cloud, he had seen its advanced body, the fifth-circle transcendent creature, the Ten-Winged Sky Sea Dragon King.

That was an existence that stood at the peak of mixed-blood Dragons. Back then, her father was only a Fourth-Circle Wizard and did not dare to approach it at all. He had only taken a glimpse and left a deep impression on him.

In order to let her Spiritual Beast advance, Melina came to the Endless Sea.

Then, not long after they arrived, the war between the dark and righteous wizards broke out.

She was forced to stay in the Endless Sea.

However, with her strength, she was not worried.

She then set her mind at ease and searched for clues about the Dragon King in the Endless Sea.

As long as she found the Dragon King, she would think of a way to obtain a drop of the Dragon King's origin blood.

She could refine the Ascension Potion and let her Spiritual Beast break through the bloodline shackles and have the potential to evolve.

However, before she could succeed, she was targeted by the dark wizards who were causing trouble in the Endless Sea.

The other party was a third-circle senior wizard from the Ocean School of Thought. He was the leader of the third-circle dark wizard organization, Black Water Tower.

He cultivated a special poison spell and mastered the so-called Venom Body.

Her Spiritual Beast had been poisoned during the battle with the other party. Its strength had fallen drastically and it urgently needed to recuperate. Her strength was also on the Spiritual Beast level, so she was chased everywhere.

Now, after a series of struggles, he had finally shaken off the other party.

She planned to hide in a mortal town and live in seclusion for a period of time. At the same time, she would heal her Spiritual Beast.

The small city in front of her was not bad.

She disguised herself as an ordinary peasant woman and blended into the crowd.

Two wizards were hiding in the quiet little city.

Levi worked day after day in the blacksmith shop, experiencing a different state of mind in the mortal world.

Melina also stayed in a mansion at the end of Levi's street.

That night, Levi was cultivating.

His ears suddenly twitched, and he vaguely heard the sound of water splashing on Mirror Lake.

The sound of water was very far from Mist City. If Levi did not have Intuition, he would not have noticed it at all.

"Could it be that there are some changes to the wizard relic?" Levi suddenly thought of the wizard relic under the Mirror Lake.

He was determined to take a look. If anything happened to Mirror Lake, he would leave Mist City.

Before leaving, he wanted to ask the lady boss if she was willing to let Leah become a wizard. If possible, he wanted to send her and the lady boss to the Giant Tree Secret Realm.

Leah was talented and had a good personality. Levi felt that Marlene would like this little girl very much.

Marlene was still an ordinary second-circle now, and it was very difficult for her to advance to a Third-Circle Wizard. Her lifespan was less than a hundred years.

A hundred years was neither long nor short for wizards.

If there were no other opportunities, it was time to find an apprentice for his teacher to accompany her.

Levi quickly came to the surface of the lake. He saw that the source of the sound was not the relic.

Instead, it was a huge sea snake with three pairs of wings, playing with the water in the lake.

Levi was also an expert in transcendent creatures now. He could tell at a glance that this was a Six-Winged Sea Dragon, a third-circle mixed-blood Dragon

Clan.

At this moment, the Six-Winged Sea Dragon was covered in all kinds of scars and abscesses.

"It's poisoned... Speaking of which, how can there be a third-circle transcendent creature in Mirror Lake? Could it be that it has been hiding in the bottomless abyss?" Levi was puzzled.

He checked his surroundings with Intuition. There was no one else.

"Since I've discovered you, consider yourself lucky. As long as you submit to me, I can heal you," Levi said to the Six-Winged Sea Dragon in front of him.

This was the third-circle Dragon Clan. It could enrich his extraordinary bloodline library again.

The Six-Winged Sea Dragon on the opposite side looked at Levi warily.

When it heard that Levi wanted to subdue it, it spat out a violent water pillar and attacked Levi.

Suddenly, around Levi, layers of defensive spells were activated, eliminating the attack of the third-circle transcendent creature without even using Levi's

Golden Snake Scales..
