

## **Wizard 657**

### Chapter 657: Five Years, Perfection! (1)

Melina looked at Levi and reluctantly took out a memory slate.

Levi examined it. It was indeed a potion that could advance the Spiritual Beast.

Ascension Potion.

It was a special potion refined from the origin blood essence of high-level transcendent creatures of the same sect and other precious potion materials.

This potion was a special potion. There was no distinction between numbers. The quality of the potion depended on the level of the transcendent creature's origin blood essence used.

"Thank you very much. This was really a misunderstanding," Levi said apologetically.

Sensing Levi's sincere apology, Melina's emotions eased a little. She chanted an incantation and sent the Spiritual Beast into the Spiritual Space.

"Forget it. If it weren't for you, I don't know when Hydra's poison would have healed..." Melina sighed.

"You're the first wizard from the School of Spiritualism that I met in the Endless Sea. We can be considered to have gotten to know each other after a fight," Levi said with a smile. He tried his best to show a kind and sunny smile, his white teeth shining.

Levi thought about it. Although he was from the Ocean School of Thought, he knew all kinds of people.

Tower Master, the Ocean School of Thought switched to alchemy; Lush Forest Witch, the Life School of Thought, Golden Lion Jostar Family, the Earth School of Thought, Huffman, the School of Ice...

If he included Melina again, Levi's connections would become wider.

"The Spiritual Beast is the foundation of our school. If you hurt it, you're hurting me..." Melina said.

Levi smiled sheepishly.

Levi, who was not good at communicating with witches, left after chatting awkwardly with Melina for a while.

Melina was worried about her Spiritual Beast and had no time to talk nonsense with Levi.

Levi happily returned home with the formula for the Ascension Potion.

He began to prepare the materials for refining the potion. Other than the main origin blood essence, the other materials were also expensive.

Three days later.

Levi decided it would be a waste of time to collect them, so he shamelessly knocked on Melina's door again.

"Beautiful lady, do you have the ingredients for the Ascension Potion other than the origin blood essence? I can buy it at the market price." Levi looked at Melina.

"I've only prepared three sets. At most, I can only sell you one set." After three days, Melina was not angry anymore, although she was still very wary of Levi.

"One set will do," Levi said. With his current Pharmacy skills, it was unlikely that he would fail to refine a second-circle potion for Leviathan.

"15,000 Aether Stones per set."

"Deal. Nice working with you, Ms. Melina."

After Levi obtained the potion ingredients, he began to refine them.

The next day.

A fresh Ascension Potion was successfully produced.

He came to Mirror Lake and released Leviathan from Alice's ring.

"Young man, you're lucky to be with me. Otherwise, how could you have advanced to the second-circle in your life?" Levi sighed and patted Leviathan's head.

Leviathan nodded and spat out a mouthful of mist, which turned into a rainbow under the sunlight.

That's right. If he hadn't followed his master, he might still be wandering around in the sea.

It was important to follow the right master.

"Come on," Levi said. "I'll inject you with the drug. It's up to you to make it work."

Any Ascension Potion had a possibility of failure, so the advancement this time was not a hundred percent successful.

Leviathan obediently let Levi inject the medicine. After the injection, it returned to Alice's ring and swayed in the water as if it was drunk.

Levi's spiritual power was constantly paying attention to the changes in Leviathan. It kept the other transcendent creatures away from Leviathan, afraid that they would disturb its advancement.

The advancement of transcendent creatures could not be completed in a day. There needed to be a transition period during this period.

Levi planned to record the changes in Leviathan every day from today onwards and collect all the experimental data. Then, he would use it as a reference for other transcendent creatures to advance in the future.

"You must succeed! I can't live without you, Leviathan!" Levi cheered Leviathan on in his heart!

This was a senior transcendent creature. To Levi, no matter what powerful transcendent creature he obtained in the future, it would not be as important as Leviathan.

Time passed as they waited for Leviathan to advance.

Levi's state of mind was like the water of a Mirror Lake, peaceful and peaceful.

Other than the occasional wizards flying in the sky, this kind of life could be considered peaceful.

Holy Brilliance Calendar Year 1063, Month of Flowers.

The 27th year of the Great Expedition.

The battles on the frontlines were mixed. There were victories and defeats.

The claws of the Four Evil Gods of Chaos and the Dark Wizard Emperor were infiltrating the five worlds further, while the Lord of Chaos of the astral world watched everything silently.

The legendary wizards had all shown their abilities and were comparable to evil gods in their human bodies.

"It's shameful for the dark wizards, led by the Dark Wizard Emperor, Asta, to betray the wizard camp. They've forgotten all the efforts Sauron has made for the wizard civilization. It's extremely stupid to drive the reverse of civilization.

"After the war is over, the parliament will completely settle all the dark wizards during this war. They will not let any of them off!"

The Grand Council Chairman, the Blazing Sun God Wizard Edmund, said, hoping that the stubborn dark wizards would surrender as soon as possible..
