

Wizard 658

Chapter 658: Five Years, Perfection! (2)

Endless Sea.

There was news of victory in the war between the dark and righteous wizards.

Black Sun Adam failed to perform the ninth-circle level-up ritual and become a Ninth-Circle Wizard.

If he advanced to the ninth-circle, it would break the balance of power in the Endless Sea, making the Star Tower, which was already exhausted, even more helpless.

Upon learning of this, the Star Tower intensified its attacks on the Black Sun Steeple.

Failure to advance to the ninth-circle meant that one's spiritual force and even soul would be damaged. The current Black Sun Adam might be at his weakest.

The opportunity to eliminate the leader of the dark wizards of the Endless Sea was right in front of him.

In Riptide City.

Blue Dragon Lady, on the other hand, stabilized her position as the city lord. Her methods were unyielding, and she displayed an attitude of a woman not inferior to a man.

For some of the higher-ups who were close to Thunder Spear, they would rope them in if they could. Otherwise, they would be replaced.

Thunder Spear, who had lost this battle, returned to the Thunder Dragon Family and secretly accumulated new strength.

The other small Abyss Well was finally destroyed by the Legendary Wizard.

However, during this period of time, countless powerful demons had invaded the Wizard World and hidden around people.

Moreover, it was unknown if there were any new Abyss Wells in the undiscovered corners.

The situation in the outside world changed day by day.

Looking at the world, the scenery of Mirror Lake was the best.

There was a light breeze, and the water was sparkling. At the bottom of the lake, there were many fishes.

Levi held his wine glass and clinked it with Melina's. Melina took a sip and swallowed with difficulty.

"What? It doesn't taste good?" Levi asked.

"No, I haven't had any before..." Melina said shyly.

"Sigh, I'm so envious of a member of a wizard family like you." Levi suddenly sighed.

"What's there to be envious of? I'm even envious of you for having such rich experiences," Melina said indignantly.

"It's not the same. You were born at my finish line..." Levi smiled.

During this period of time, in order to obtain more knowledge about the School of Spiritualism, Levi had increased his efforts to get close to Melina.

Melina looked like a second-generation witch from the Ivory Tower, although she had basic caution and vigilance.

However, compared to Levi, who had been through thick and thin in the human world until now, he was still a little naive.

Levi and Melina's relationship had also improved greatly compared to before.

Every wizard from the School of Spiritualism was an expert in transcendent creatures. Levi had also learned a lot about transcendent creatures from Melina.

Levi felt the breeze on his face. His spiritual force had reached 94 points. He could feel that his spiritual force had undergone a slight transformation

At the same time, there was a sudden reaction in Levi's Alice ring.

He quickly scanned it with his spiritual force and found that on the lake inside, a slender Giant Whale more than 20 meters long was jumping out of the sea and clicking happily. The Whale Song was melodious and echoed in Alice's space.

"Leviathan's second-circle! That's great!" Levi was thrilled.

He immediately said goodbye to Melina, left the boat, and returned home.

Melina stared after Levi, sitting alone in the boat, lost in thought.

When he got home, Levi checked Leviathan's condition.

"He's in good health and there are no negative statuses. Leviathan's attributes are much stronger than before, and it even has a second-circle spell ability."

Levi recorded Leviathan's data.

Then, he took Leviathan's blood sample and tested it.

[Ancient Dragon Whale Bloodline 20%, Dragon King Whale Bloodline 87%...]

"Success. The bloodline contained in the blood fungus is actually the bloodline of a peak transcendent creature like the Ancient Dragon Whale."

The Ancient Dragon Whale had the strength of a fourth-circle transcendent creature when it was in its prime. If it lived long enough, some old Ancient Dragon Whale could reach the fifth-circle level at their peak.

Leviathan, on the other hand, had twenty percent of the Ancient Dragon Whale's bloodline.

According to Levi's previous research on the bloodline density and growth limit of this mixed-blood Dragon Clan, Leviathan might even advance to the third-circle in the future, although the chances were slim.

"Good job, Leviathan."

Levi encouraged Leviathan as he drew a large bucket of blood.

"It should be enough for me to cultivate for a period of time. I'll strive to cultivate the Black Whale Breathing Technique as soon as possible."

"In that case, the secret medicines of the Dragon Demon, Death Ember, and Maya Breathing Technique need to be dealt with." Levi muttered to himself.

He was not in a hurry. He would take his time.

In any case, it was a victory to fuse all the breathing techniques of the six dimensions at the Third-Circle Wizard stage.

The breathing techniques now were too complicated. There were eagles and cows... It was too troublesome to collect them.

When Levi transformed all the breathing techniques into Dragon Clan-type breathing techniques, he could also try to change the formula for the secret medicine to the Dragon Clan in the future.

This way, he could collect secret medicines more specifically and reduce the difficulty of collecting them.

Moreover, it was not a good thing to have too many bloodlines.

The most ideal state was still to change to the path of the dragon race.

In the future, there would be two bloodlines in his body, the Dragon Clan bloodline that he had created himself and his human bloodline.

Otherwise, Levi estimated that his outcome might not be any better than the Hundred Beast Berserk Witch's. He would become a complete monster, and it would be far-fetched to call him a wizard..
