Chapter 662: Five Years, Perfection! (6)

When she opened her eyes again, there were all kinds of ferocious and terrifying monsters above her head. They were all sizing up the mother and daughter with curious gazes.

Then, the lady boss fainted from fright...

The moment Levi attacked, the Hermit Rune had already lost its effect.

Lindt, who was in front, was very experienced in combat. The moment the enemy attacked, the third-circle protective force field and third-circle innate defensive spells around him lit up one after another. Ripples flowed, layering on top of each other, impenetrable.

It was obvious that he was also a Stacked Armor Style enthusiast.

At the same time, Lindt quickly pulled away from Levi and looked at Levi from afar. A third-circle attack spell was already brewing and attacking Levi.

"Raja, Bo Gang!"

Behind Levi, two behemoths appeared. As soon as Raja appeared, he let out an excited dragon roar and rushed into the sky. With the power of wind and lightning, he charged towards Lindt.

The Mountain Giant Bo Gang blocked the enemy's attack for Levi.

"Two third-circle pets... Who are you?" Lindt's expression changed.

The person who had suddenly appeared in front of him was too powerful. He had extremely powerful invisibility skills and a third-circle transcendent creature as his guardian. However, judging from his mental strength, he was clearly only at the second -circle!

"Trafficking women and children. You're really a big baddie," Levi said with a dark smile.

After not fighting for so long, his strength increased every day, but he did not feel anything.

Levi flexed his muscles. After hiding for so long, he felt like he was about to become a robot.

Facing this Third-Circle Wizard with good combat awareness, his long-lost blood was boiling.

He would have a good fight!

"Return those two people to me and I can let you off. Otherwise, you should know the consequences of angering the Black Water Tower!"

Lindt seemed to be a little afraid of Levi and did not want to fight. He began to show the organization behind Levi to intimidate him.

"Black Water Tower... I'm relieved. I was worried about wronging a good person."

Various defensive fields appeared around Levi. He chanted and pointed at the sky.

Metal power appeared behind him and condensed into blades that emitted a cold golden light!

Second-circle spell, Sword Blade Storm!

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

Hundreds of metal flying swords tore through the air and charged at Lindt.

"Piece of cake! You forced me to do this!" Seeing that this battle was inevitable, Lindt no longer hesitated.

Third-circle spell, Deep Water Cannonball!

A cylindrical Wizard Tool suddenly appeared in his hand.

Then, the Wizard Tool emitted a dark blue light.

A terrifying third-circle spell rushed toward Levi and arrived in the blink of an eye.

The water cannon dispersed Levi's Sword Blade Storm.

The aftershock drowned Levi.

Levi's protective force field shattered layer by layer, but that was all.

"What?"

Lindt could not imagine that this Second-Circle Wizard could withstand his

Third-circle spell.

At the same time, he felt a sense of danger.

Amidst the lightning and thunder, an ice-blue sword suddenly collided with Lindt's third-circle protective force field and shattered it. The remaining force even pierced through his chest, causing flesh and blood to fly everywhere.

Lindt drank the potion and endured the pain. He didn't know what spell Levi was using, but it didn't make sense for a Second-Circle Wizard to break through his third-circle defensive field.

Levi looked at the enemy who had been injured by his spell and was pleasantly surprised.

"Glacial Sword Finger, not bad."

Levi had lived in seclusion in Mirror Lake for five years. From Glacial Finger, he had created another third-circle spell, Glacial Sword Finger.

He used this spell as his advancement to the third-circle.

The casting speed of this spell was relatively fast, and its power was also very concentrated. Its penetrative power was strong, and its attack strength was among the third-circle. It should be at the level of Grade A.

It might not be useful against large transcendent creatures.

However, this third-circle spell was still very useful in a battle with wizards.

His third-circle defensive field was easily penetrated.

Mountain Giant Bo Gang and Tyrant II acted as meat shields, while Raja attacked from afar.

Before Levi could use his full strength, Lindt was gradually overwhelmed.

"If you're the friend of those two mortals, you can just take them away. Why do you have to kill me? If you kill me, the Black Water Tower won't let you off!" Lindt was too tired to respond, so he pleaded.

He realized that he couldn't even defeat this Second-Circle Wizard's pet...

The other party must be a disciple of the Grand Wizard family who had gone out to train.

He had kicked an iron plate this time. He was very unlucky.

Levi completely ignored him and continued to use his Glacial Sword to attack from a distance. He was having a great time.

Ever since he debuted, he had always used the path of a knight to crush his enemies in close combat. This time, he wanted to use spells to personally defeat a Third-Circle Wizard.

It was for no other reason than to prove that he, Levi, was a wizard!

In the end, Lindt's defensive force field could no longer stand up.

He had tried all kinds of methods, but this enemy was too powerful. Perhaps only the Tower Master could fight him.

The Great Black Sky Curtain appeared and suppressed Lindt.

Levi came up to Lindt. He had wanted to kill him.

However, considering that he was a member of the Black Water Tower, he might have some understanding of the Hundred Poison Wizard.

With a thought, a scarlet mist emerged from his body and rushed into Lindt's body.

"What... What are you doing?" Lindt was terrified.

The next moment, the Scarlet Power occupied Lindt's body and mind. The world in his eyes was blood-red.

A scarlet dragon wrapped in a bloody storm and red fog was overturning the clouds in this world, high and mighty.

Then, Lindt's eyes became dull. On his forehead, the mark of a scarlet dragon was faintly discernible.

"It's a good choice to contract a Third-Circle Wizard as a helper for the time being."

Levi muttered to himself.

He was still thinking about Clay's poison technique. If he could subdue Lindt, he could start with him. Knowing his enemy and himself, he would never be defeated in a hundred battles.

Levi also found some undetectable tracking marks on Lindt's body. It must be Clay's doing.

However, Levi had killed many people and robbed them. He already had many anti-tracking methods for these conventional tracking marks.

He turned into a blood fog and entered Lindt's body, easily removing these marks.

There were two types of tracking marks.

One was for the physical body, and the other was for the soul, such as Rex's Soul Imprint.

Levi could infiltrate his body through the blood fog and remove the former.

As for the latter, he had no way of erasing it. He could only wait for the Soul Imprint to automatically appear after killing the enemy and be devoured by the Saint Scorpions.

After doing this, Levi looked at the griffin on the other side and could not help but smile.

"The secret medicine of the Maya Breathing Technique has been resolved."

Without guns or cannons, the enemy provided for him..
