

Wizard 664

Chapter 664: Third-circle! (2)

"There's no need to be so reserved. I'm really an easy-going person." Levi smiled.

"Grandpa Keg?" Drowsily, Leah opened her eyes and stared at Levi, who was talking to her mother.

"Leah, call him Wizard Lord. You can't call him that in the future," the lady boss said.

"Grandpa Keg is fine. I'm used to hearing it too," Levi said.

"This..." The lady boss did not know what to say for a moment, so she remained silent.

After revealing his identity as a wizard, Levi clearly felt the estrangement between them.

Levi deeply understood how Wang Duoyu, the richest man in Xihong City, felt when he laid his cards on the table.

As Leah laughed, the griffin disappeared over the horizon.

And in the middle of the Yellow Earth Continent.

In the secret room of the Black Water Tower.

A pool of flowing black liquid rolled on the ground. From time to time, poisonous spiders, scorpions, poisonous snakes, and other poisonous creatures would turn into a pool of pus and be swallowed by the black liquid.

Then, the black liquid finally converged into an old man in black.

This black-clothed old man was none other than the Hundred Poison Wizard, Clay, who was like the sun in the midday sky and shook the Yellow Earth Continent.

He was known as the most poisonous creature in the outer sea region.

In order to cultivate his poisonous spells, Clay had gone through untold hardships to collect all the poisonous substances in the world. With these poisonous substances, he had used the black water spell to fuse them into his body and cultivated a unique Venom Body.

His Venom Body was not ordinary. It could change its shape at will like a pool of liquid. Even if half of it was cut off, the other half could be reborn.

In addition, the Venom Body was extremely powerful and invulnerable.

This was the strength of the Hundred Poison Wizard. Although he was a wizard of the Ocean School of Thought, he relied on this Venom Body to possess stronger strength, physique, and defense than ordinary body-refining wizards!

Relying on his Venom Body and his third -circle spells, he believed that he was the strongest person below the Fourth-Circle Wizard.

It was also because of this that he was able to make the Golden Lion Jostar Family and the Wham Family panic.

To him, destroying these two clans and unifying the Yellow Earth Continent was only a matter of time.

He would not die inexplicably on the Yellow Earth Continent like that trash Lehman.

"Previously, the Spiritual Beast of the School of Spiritualism's witch was invaded by my parasitic venom and must have died suddenly. It's a pity. I wanted to capture and make her my wife." Clay said regretfully.

"Also, the tracking mark I left on Lindt's body has been erased. It looks like this guy is doomed. Fortunately, I didn't count on him from the beginning. He knows almost nothing about my secrets."

Clay swallowed the poisonous bugs and squinted his eyes, emitting a dangerous aura.

To erase the mark on Lindt's body so easily, the other party's strength must be unfathomable. Clay had no intention of avenging Lindt.

If he went, there was a high chance that he would be doomed.

The entire Black Water Tower was just Clay's tool. As long as he was here, the Black Water Tower would be there.

"According to the information from the headquarters, there seems to be a Lost Pan's Labyrinth in the Yellow Earth Continent. I have to get my subordinates to search for it quickly."

"We have to gain an advantage before the Star Tower sets foot in the new dimension. If we lose one step, we'll lose every step."

What Clay didn't know was that someone had already set foot in the stronghold of the Dreamland Steeple branch in the Yellow Earth Continent and taken away all the research materials of the Nightmare World.

And this place was at the peaceful Mirror Lake.

Holy Brilliance Calendar Year 1067, Month of Vitality.

Levi arrived at the Giant Tree Secret Realm.

He used the communication method left by the Lush Forest Witch to send a message and put away the griffin.

Every time he came, he would change to a new mount. This was too high-profile.

Although the people in the Giant Tree Secret Realm were generally trustworthy, it was better to be careful.

Not long after, the spatial rift in the Giant Tree Secret Realm slowly opened.

"This kind of secret realm that can be actively opened and closed is really convenient. In such a chaotic era, it's most suitable to live in seclusion." Levi could not help but sigh.

He also had a secret realm key, but it could only be opened once every 200 years, so it had been collecting dust in his storage bag.

"Grandpa Keg, that's amazing." Leah's mouth was agape with excitement.

The lady boss also looked at the wizard's methods enviously.

A bloodline modification wizard appeared at the door. Levi showed his ID.

"Hello, Sir Levi. It's been a long time," the wizard said quickly.

"Long time no see. I have something to discuss with the Lush Forest Witch."

"Alright, please follow me."

Entering the lush secret realm with towering trees, Levi breathed happily.

In a herb garden in the secret realm, Levi saw Marlene tending to the flowers and plants.

"Teacher," Levi said with a smile.

Marlene looked at the old Levi and was stunned for a moment.

"Little... Old Levi, hahaha," Marlene said with a laugh.

"Haha, indeed. Unknowingly, I've become an old man too." Levi sighed.

"Let's go back to the treehouse and sit down." Marlene soared into the air and led the way. Levi followed closely behind Leah and the lady boss.

Hearing that the Second-Circle Wizard Levi of the Gray Tower was back, Winnie, Marko, Mr. Tim, and Manla also came.

Levi was relieved to see that everyone was well..
