

Wizard 666

Chapter 666: Third-circle! (4)

Before the monster could say “big brother”, he quickly left.

Unlike the people in this world, Levi was traumatized by Big Brother in an anime in his previous life.

Levi met the beautiful green elf in the study of the Lush Forest Witch.

"I heard that you brought a wizard with double affinity."

"Yes, I did."

"If you find such a seedling during your travels in the future, you can leave them to us if you don't want to take them in as a disciple," said the Lush Forest Witch.

She was naturally more than happy to see such a thing happen.

"I will, Lord. I'm here to ask for your guidance. Of course, I will pay the corresponding price," Levi said.

"If it's not something troublesome, just ask away," said the Lush Forest Witch.

"I want to know how a Second-Circle Pharmacist can refine a third-circle potion?" Levi asked.

"There are only two possibilities. The first is to break through to become a Third-Circle Wizard before refining it. There's no need to say more about this.

"The other is relatively rare. It requires a potion that can temporarily increase the upper limit of one's spiritual force. It is generally called the Epiphyllum Potion.

"After taking the potion, your mental strength will break through the limit of the second-circle in a short period of time. During this period of breaking through the maximum, you just have to successfully refine the potion. "However, the ingredients for the Epiphyllum Potion are relatively difficult to find, and one cannot consume too much. Generally, it is not recommended to consume it more than three times. Otherwise, it might affect the subsequent advancement of one's realm.

"Generally speaking, only ancient wizards would take the Epiphyllum Potion to forcefully refine third-circle potions. In the modern era, under the management of the Pan-Plane Wizard Council, as long as it's a potion certified by the Pharmacist Association, they can basically take it without worry."

The Lush Forest Witch immediately guessed why Levi asked this. It was most likely because he wanted to refine a potion that could break through to the third-circle.

Levi smiled and said, "I understand. Lord, do you have the formula for the Epiphyllum Potion? I can buy it with Aether Stones."

He still wanted to give it a try first. Firstly, he would be more at ease this way. Secondly, it could also increase his Pharmacy level.

"I do have it here... but are you sure you want to buy it?" the Lush Forest Witch asked. "Yes, I'm sure."

"Fine..."

The Lush Forest Witch didn't expect Levi to be so obsessed with concocting potions himself.

In the end, Levi spent 30,000 Aether Stones to buy the formula for the Epiphyllum Potion from the Lush Forest Witch.

Similar to the Ascension Potion, the Epiphyllum Potion was also a special potion. There was no realm difference. The quality of the potion depended on the different ingredients.

Levi took a look. The ingredients for the Epiphyllum Potion that could be used by Second -Circle Wizards were all in his herb warehouse, except for a few missing ingredients.

He had Rex's inheritance. The materials inside were so abundant that even the Lush Forest Witch could not compare to them.

After achieving his goal, he rested in the Giant Tree Secret Realm for a few days.

Levi bade farewell to Marlene and the others. Before leaving, Leah was a little reluctant to part with Grandpa Keg.

Levi told her to cultivate well. If she could advance to the first-circle before the age of 30, he would reward her.

After leaving the secret realm, Levi looked in the direction of Black Fire Island.

"I'm back!"

Three days later.

Levi arrived at the Black Fire Island.

The current Black Fire Island was not much different from before Levi left.

In the cave abode, Levi met Second-Circle Wizard Coulomb, who was cultivating inside.

"Senior!" Coulomb immediately ran out eagerly with an excited expression. During the period of cultivation on the Black Fire Island, his cultivation had also improved.

"Did anything happen to the Black Fire Island while I was away?" Levi asked.

"No, with me guarding it, there's naturally no problem," Coulomb said.

"Where's Joann?"

"He was called by the Extreme Fire Ancestral Wizard to search for relics." Levi asked Coulomb about the situation in Area 9.

Currently, among the three forces in Area 9, Whale Song Island was getting stronger and stronger. It had defeated the Tower of Ocean Currents led by Lady Whitewater. Now, they could only retreat to the Tower of Ocean Currents and make their final resistance.

Not only that, but Morpheus had also attacked the alliance of rogue cultivators under the Extreme Fire Ancestral Wizard and forced them to surrender control and submit to Whale Song Island.

However, as a Third-Circle Wizard, the Extreme Fire Ancestral Wizard was naturally unconvinced. Both sides fought several times and each had their own victories.

Now, the Extreme Fire Ancestral Wizard had already formed a loose alliance with the Tower of Ocean Currents to deal with the pressure on Whale Song Island.

The reason why Morpheus was so fearless was naturally because of the mastermind behind the scenes in Area 9, the Black-Eyed Crow Modi.

"Since the battle hasn't reached the Black Fire Island, I won't get involved for the time being. With my current strength, I'm probably still far from being able to deal with the Black-Eyed Crow.

"After the third-circle, the gap between each ring is like a natural chasm. Unless I advance to the third transformation of the bloodline, I can't be a match for a Fourth -Circle Wizard.

"While they're busy fighting, I can seize the time to advance to the third-circle so that my strength can reach a higher level. In this chaotic world, I can better protect myself."

Levi asked Coulomb to run errands for him.

This wizard was very trustworthy. Levi asked him to guard the Black Fire Island, and he had really been guarding it until now.

Coulomb, a servant with two surnames, also knew that there was no future in following the Extreme Fire Ancestral Wizard. After all, the Extreme Fire Ancestral Wizard had many Second-Circle Wizards under him and did not care about him..
