Chapter 668: Third-circle! (6)

His Underground Fire God Tempering Technique had also cultivated to level 2 in the past six months.

Levi estimated that when he reached level R, his spiritual force would be completely gasified.

"Looks like my gasification speed is relatively slow. It doesn't matter. Good things take time."

Levi had a good mentality. After half a year, his gasification seemed to be just the beginning.

In his mind, a wisp of spiritual force aura that was as thin as a cow's hair and as white as jade circulated. Billions of materialized spiritual force particles formed this magical phenomenon.

"It might take three years to completely gasify all the spiritual force." Levi estimated the current progress.

"I hope no one will disturb me for the next three years and let me advance to the third-circle in one go."

Immortal cultivation had no time. Time passed like a white horse passing through a crack.

In the blink of an eye, three years had passed.

Holy Brilliance Calendar Year 1070, Month of Flowers.

The 34th year of the Great Expedition.

The flames of war in the Endless Sea were endless, and there was no hope.

Previously, after the news of Black Sun Adam's failed advancement appeared, the Star Tower sent people to attack the Black Sun Steeple. However, they discovered that Black Sun Adam was still full of vigor.

He had not advanced to the ninth-circle at all. There was no failure, nor was he recuperating in seclusion!

The previous news was just a smokescreen. The high-level wizards who went to attack the Black Sun Steeple were severely injured, one dead and one injured.

The Hundred Beast Berserk Witch collected another portion of the Miracle Fruit, and its strength increased steadily, almost reaching the limit below the ninth-circle.

Of course, such an increase in strength also came with a price, which was that the Hundred Beast Berserk Witch lost control more than once and directly attacked her allies.

It allowed the dark wizards who had finally obtained an advantage to return to the pre-liberation period.

From then on, the Hundred Beast Berserk Witch gave up on the idea of continuing to fuse and began to nurture her team of a hundred wizards and beasts.

The outside world was in an uproar that never stopped.

Levi, on the other hand, cultivated his Underground Fire God Tempering Technique bit by bit.

Now, the Stone Heart in his hand had completely turned into a pile of ashes and dissipated without a trace.

On his proficiency panel, the Underground Fire God Tempering Technique had also reached the maximum of level 3.

Levi—

Underground Fire God Tempering Technique: Level 3 (Maximum).

At the same time, Levi's mind was also undergoing a tremendous change.

A dense white fog floated in Levi's mind. It was gentle and quiet.

These were Levi's gasification spiritual force. What formed this white fog were the billions of spiritual particles.

"It hasn't succeeded yet. I have to let my spiritual force form the Unending Ring-shaped Vortex. Only then can I truly succeed in gasification."

Levi quickly swallowed the Lake Fairy Potion. The small black figure that kept spinning was crushed by Levi's teeth and swallowed into his stomach.

Then, like Zhu Bajie eating the Ginseng Fruit, the medicine melted in his mouth and turned into a warm current that surged into Levi's limbs and bones,

Then, the white fog formed by the spiritual force in Levi's mind surged and began to form an eye like a typhoon. Then, it slowly spun faster and faster, finally forming a stable ring cloud.

"It's already the third-circle. Eh, it's not over yet?"

Levi realized that something seemed to be brewing in the center of the ring.

Then, an illusory building that looked like a mirage began to appear.

This building was in the shape of a White Tower and had a total of three floors.

Seeing this, Levi's expression changed from surprise to ecstasy.

"This... This is the true prototype of a wizard tower!"

"Divine Ring Tower!"
