Chapter 673: Divine Tower! (5)

The Evil Dragon Wizard cultivated the innate spells of the Ocean School of Thought.

He relied on his dragon descendant's talent to convert the enemies he killed into servants and hide in the black floodwater, waiting for an opportunity to strike a fatal blow to the enemy.

Lady Whitewater waved her hand, and an incomparably holy waterfall made of pure white water soared into the sky. It tore through the air and attacked the Evil Dragon Wizard.

As for the Extreme Fire Ancestral Wizard, he took out an ancient oil lamp. In the oil lamp, there was a lamp that was like a bean and emitted a weak flame.

As the Extreme Fire Ancestral Wizard chanted, the flames became bigger and bigger. They burned fiercely and turned into a skeleton giant made of flames. The giant waved its flame whip and fought the bald wizard's Diamond Body.

In addition, the battle of the second-circle was about to begin. Coulomb was also fighting with all his might. His enemy was a Second-Circle Wizard from Whale Song Island, and his strength could not be underestimated.

In an instant, the entire Tower of Ocean Currents fell into chaos.

The sounds of battle and the booming of spells joined together.

The light of an array soared into the sky, and the shockwave of the alchemy cannon swept in all directions.

Some transcendent creatures cultivated by wizards also joined the battle.

The largest Third-Circle Wizard war in Area 9 was currently happening.

On the edge of the war, Morpheus watched coldly from the sidelines. He was looking for a suitable opportunity to deal a fatal blow to Lady Whitewater or the Extreme Fire Ancestral Wizard.

In the distant Deep Sea, a mighty army was advancing in the direction of Ocean Flowing Island.

These troops were of all shapes and sizes. They were all from the Sea Clan, and there were many powerful sea beasts among them.

In front of the army, a burly giant sitting in a luxurious carriage had a cold expression.

His body was covered in dark blue scales. He opened his mouth full of sharp teeth and revealed a sinister smile.

"This time, Morpheus, let's see who can save you."

This Sea Clan giant was none other than the Sea Clan expert who had attacked Whale Song Island during the last sea beast tide and almost wiped out this organization.

Baron Deep Sea, Baghdad!

After such a long period of hibernation, he had returned to take revenge!

This time, Morpheus was doomed!

At the end of the Sea Clan team, a huge Dragon King Whale mixed in and swam forward with the army.

Levi, who was hiding his aura in the Dragon King Whale's mouth, looked puzzled.

"Why did the Sea Clan appear again?"

Levi could sense that at the center of the Sea Clan army, there was an expert who could give him a sense of danger and make the spiders constantly warn him.

According to his knowledge of the Sea Clan, it should be the Sea Clan Baron. It was very likely that he was the lord of all the Sea Clan in Area 9.

"Interesting. It's getting confusing," Levi muttered to herself.

The more chaotic it was, the better. This way, Levi would be able to take advantage of the situation and get rid of Morpheus. The mantis stalks the cicada, unaware of the oriole behind.

Levi had a plan in mind.

This time, not only did he want to kill Morpheus, but he also wanted to use his

Scarlet Contract to contract that Sea Clan Baron.

Once he subdued this Sea Clan Baron, Levi would be able to subdue an entire Sea Beast Army and Sea Clan!

In this way, Levi would have a hidden trump card in the Endless Sea.

No one knew the situation of the Endless Sea better than these Sea Clan. These guys would become Levi's eyes and ears. It was extremely convenient to collect resources and information.

As for Lindt, Levi did not intend to keep him.

He knew very little about the Hundred Poison Wizard and was useless to Levi.

For safety reasons, he could just kill him directly.

With that thought in mind, Levi quietly followed him.

On the battlefield.

Morpheus had found the right moment and was ready to attack.

With a thought, streams of seawater surrounded the sky and converged, forming a Giant Whale that was about 100 feet long!

The Giant Whale emitted a terrifying energy and charged towards the Extreme Fire Ancestral Wizard who was fighting the bald wizard.

The Extreme Fire Ancestral Wizard cursed. Morpheus, this old thing, did not have any wizard ethics.

It was naturally more and more difficult for him to deal with two third-circle powerhouses alone.

Although that Miracle Wizard was not a Third-Circle Wizard, his Diamond Body could actually resist a Third-Circle spell for a moment!

With this unparalleled defense and powerful strength, the Extreme Fire Ancestral Wizard could not take down the other party for a while.

He looked at Lady Whitewater anxiously. She was a member of a high-level wizard organization, so she must have some trump cards.

The key to this battle still lay with Lady Whitewater.

In the battle between Lady Whitewater and the Evil Dragon Wizard, she barely had the upper hand.

Her powerful third-circle Wizard Tool surrounded her and protected her.

Streaks of white light formed by innate spells tore through the wind and waves, shattering the defensive field of the Evil Dragon Wizard. His dragon scales cracked and blood flowed.

However, this fellow was laughing more and more arrogantly. He groaned and looked like he was enjoying himself.

"Continue whipping me, don't stop, Lady Whitewater..."

This made Lady Whitewater's face turn red and cold. She wished she could immediately kill this lecherous evil dragon descendant!

Just as Morpheus was casting an innate spell in the distance, the sea suddenly exploded, and a dark blue figure hidden in the seawater shot towards Morpheus like a cannonball.

He punched in the air, and the wind from his fist tore a passage on the surface of the sea, directly bombarding Morpheus' defensive field.

With a crack, the force field shattered.

Morpheus was scared out of his wits.. He suddenly remembered the fear of being dominated by the Sea Clan Baron!
