

Wizard 677

Chapter 677: Fusion! (3)

However, under the effect of the Death Ember Power, Levi's body quickly began to recover.

"We don't seem to have any grudges," Baron Deep Sea said while panting.

It was obvious that he did not want to fight anymore. This was the first time he met a wizard below the fourth-circle who could defeat him head-on.

"Submit to me or die." Levi did not waste any more words. He had relied on his powerful endurance and physique to gain the upper hand. Naturally, he would not stop here.

"You?"

"That's right!"

"Arrogant!"

Baron Deep Sea suddenly opened his mouth and took a deep breath. With him as the center, endless seawater rolled over and surged into his deep abyss mouth.

His body began to swell like a balloon.

In the end, a ten-story-tall seawater giant stood on the sea and roared at the sky.

The giant looked like a shark. Its mouth was full of saw-like teeth, and there were fins on its back!

This was his trump card.

"Forcing me to expend my royal bloodline, your death is already a foregone conclusion!"

The Sea Clan had four emperors. One of them was the Emperor of the Shark Clan, the Giant Tooth Emperor.

Baron Deep Sea, on the other hand, was from the shark clan, and he had a faint trace of royal bloodline. His father was the illegitimate son of the current Giant Tooth Emperor!

The royal bloodline in his body was very weak. Every time he activated it, it would decrease and his strength would decrease. Therefore, he rarely used it.

This time, they had to use it because of a human Third-Circle Wizard. This was undoubtedly a humiliation!

The Sea Giant carried the power of ten thousand catties of seawater. The wind from his fist swept over, bringing with it a huge wave.

Levi took a deep breath.

"Giant Whale!"

His Sea-Swallowing Whale body began to expand again.

He wanted to test the limits of the Giant Whale Form!

A huge amount of energy flowed into the Giant Whale, and Levi expanded crazily to 50 feet tall before stopping.

As for Levi's Giant Whale Form, the increase in strength had already surpassed twice, nearly three times!

At the same time, Red Lotus Blood was burning fiercely, the flames on Levi's body were even more threatening than before.

The Strength Rune flashed. His strength had already reached an unprecedented peak.

He shot out and collided with the Sea Giant.

The Water and Fire Song played on the sea.

White smoke rose into the air.

In the end, after an unknown period of time...

Levi stopped, gasping for breath, and poured a huge amount of food into his mouth.

Below him, the Sea Giant had been completely torn apart, and a broken body floated on the sea.

"Dead? He's not dead. There's still a trace of life left."

He called Bo Gang and Raja over and killed Lindt instantly after he canceled his Scarlet Contract.

Then, the Scarlet Contract was used on the Sea Clan expert again.

Not long after, the mark of the Scarlet Dragon appeared between that expert's eyebrows and gradually disappeared.

"As expected, he's not dead. The Scarlet Contract can't contract dead things." Levi heaved a sigh of relief.

Levi temporarily sent the severely injured and unconscious Sea Clan expert into Alice's ring and instructed Raja and Bo Gang to watch him closely. If the other party had any ulterior motives, he would kill him directly.

Levi looked at the current situation. The remaining Sea Clan and sea beasts had long fled this sea area and were nowhere to be found.

"It doesn't matter. After that Sea Clan expert recovers his strength, these Sea Clans can still gather again."

Levi cleaned up the battlefield and left.

Now that Morpheus was dead and his revenge had been avenged, his thoughts

Were clear.

"I believe Morpheus' death will alarm the Black-Eyed Crow behind him. I have to be careful next."

Levi headed towards the Black Fire Island. The battle with the Sea Clan's experts had exhausted too much of his stamina. He had even used the Red Lotus Blood, causing him to be a little weak.

"There's always someone better than you. There's no shortage of experts in this world."

This battle made Levi realize something.

Even though he had the cultivation base of a Third-Circle Wizard and the realm of a First-Order Blood Knight, he was not invincible under the fourth-circle.

Previously, he could easily kill third-circles because of the sneak attack effect of the Hermit Rune.

If it was a head-on battle, it would be much more tiring.

Of course, what Levi didn't know was...

Baron Deep Sea was already a peak-level Sea Clan Baron. He was not far from becoming a fourth-circle duke.

Therefore, Morpheus, who had just mastered two innate spells, was still no match for Baron Deep Sea.

After Levi left the battlefield, Lady Whitewater and the Extreme Fire Ancestral Wizard arrived at the battlefield with lingering fear.

"That person just now actually defeated that Sea Clan. His strength should be close to the fourth-circle..." Lady Whitewater said.

"The younger generation will surpass us." The Extreme Fire Ancestral Wizard sighed.

Be it Lady Whitewater or the Extreme Fire Ancestral Wizard, they both knew that either of them might not be a match for that Sea Clan expert.

"However, from the looks of it, that person shouldn't be a dark wizard. It's very likely that he's also a hidden nomadic wizard.

"If there's a chance, we can invite him to our alliance. That way, we'll be more confident in dealing with the Black-Eyed Crow's crazy revenge in the future," Lady Whitewater said.

Extreme Fire Ancestral Wizard shook his head. "According to my observation, this person should not join our alliance. After sensing our existence, he did not take the initiative to come and greet us. Instead, he quickly left the battlefield. Clearly, he is very wary of us.."
