

Wizard 679

Chapter 679: Fusion! (5)

A figure quickly flew over and knelt in front of the Black-Eyed Crow. It was the bald wizard who had escaped.

"Are the dark wizards in Area 8 ready?" The Black-Eyed Crow asked coldly.

"Yes, Lord. They are ready," said the bald wizard.

"I'll take action personally this time. I want to see how difficult Area 9 is." After saying that, the Black-Eyed Crow transformed into a black crow and rushed into the sky, leaving.

Sensing that the expert had left, the bald wizard heaved a sigh of relief.

"If it weren't for the Sea Clan and that human wizard who suddenly appeared, this operation would have been successful. It's all Morpheus' fault. He's useless. He abandoned us and escaped alone. He deserved to die!

"However, with Lord Black-Eyed Crow personally taking action this time, Area 9 should be stable."

Holy Brilliance Calendar Year 1071, Month of Germinal.

It was the 35th year of the Great Expedition.

On the Black Fire Island, Levi woke up from his seclusion.

Just now, the Sea Clan came to report.

There was a fourth-circle expert who killed his way to Ocean Current Island. Ocean Current City was breached, and the wizard tower was destroyed.

Lady Whitewater and the Extreme Fire Ancestral Wizard fled with heavy injuries and were nowhere to be found.

The other wizards suffered heavy casualties and fled for their lives.

The entire Area 9 had fallen.

This fourth -circle expert was the Black-Eyed Crow, Modi, who had come out of seclusion.

"There's nothing left of Area 9? I thought there was a fourth -circle righteous wizard behind Area 9... Looks like I was overthinking."

Levi suddenly felt a sense of urgency.

Now, the dark wizards had completely taken control of Area 9.

This meant that his Black Fire Island would no longer be as safe as before. Dark wizards could find the Black Fire Island based on the clues left behind by the sea map.

If they discovered him on the Black Fire Island, a fierce battle would be unavoidable.

In Area 9, Levi was not afraid of the others. He was just worried about the Black-Eyed Crow Modi.

He was definitely not a match for a Fourth-Circle Wizard. Levi could not even break through his fourth-circle defensive field.

Not to mention, even the weakest Fourth-Circle Wizard who had just stepped into this realm had mastered two innate spells.

"It's time to leave Area 9."

Levi sighed inwardly.

A few days later, Coulomb also ran back to the Black Fire Island. When he saw Levi, he said dejectedly, "Senior, Area 9 is gone..."

"I see. What are you going to do?" Levi asked.

"I... I want to follow you, Senior. The Extreme Fire Ancestral Wizard's whereabouts are currently unknown, and the Nomadic Wizard Alliance in Area 9 has completely collapsed. The other Second-Circle Wizards are either dead or running. I, Coulomb, am willing to do your bidding, Senior. I only hope that you can take me in."

Coulomb said with a sincere expression.

"Alright, sign this contract. I only need loyal subordinates," Levi said calmly as he threw out a contract slate.

Coulomb was very nimble, so it was not a bad idea to take him in. After all, his subordinates from the fur clan were often not as convenient as human wizards. Coulomb looked at the contents of the contract. The content was very harsh.

For a moment, he hesitated.

In the end, he thought about it and signed it.

No matter what, judging from the time he had spent with Senior Levi, this senior was still worth following.

To Levi, the contract slate was definitely not as secure as his Scarlet Contract.

However, Coulomb's strength was average, so Levi was not afraid that he would cause any trouble.

Just like that, Levi began to quickly pack up the things on the Black Fire Island and prepare to move.

The first was the medicinal herbs. He had transplanted the medicinal herbs into Alice's ring, and Levi had specially cultivated dozens of acres of medicinal fields inside.

Then, he removed all the arrays. There was a high chance that he would not return here in the future. He could not waste these arrays and let others

The puppets, the living dead, and Levi's transcendent creatures all entered Alice's ring.

Coulomb looked at everything in front of him and was shocked.

How big was Levi's storage space...

He could even put away those behemoths. It was indeed unfathomable!

In the end, Levi cleaned up all traces of his life on the Black Fire Island. He also destroyed the cave abode and integrated it into the magma underground fire.

"Get ready to go," Levi said.

"Alright, Senior." Coulomb was about to enter Alice's ring when he heard a voice.

"Senior, wait for me!"

A First-Circle Wizard rushed over, panting. His figure appeared in the light. It was Ruin Hunter Joann.

"Joann? Aren't you with the Extreme Fire Ancestral Wizard?" Coulomb asked.

"That's right, but the Extreme Fire Ancestral Wizard said that he wanted to temporarily leave Area 9 to avoid danger... He asked me to find a place to hide and wait for him to return.

"I'm a First-Circle Wizard. Other than the Black Fire Island, there's no safe place on the sea, so I came to seek refuge with you.

"Senior, I'm a Ruin Hunter. I can help you search for relics. Please bring me along!" Joann said with a bitter smile.

Levi was amused, but he still took out the contract slate.

"Sign it and I'll take you with me."

Joann was also a talent. There was no harm in bringing him along. Anyway, with Alice's ring, it was not a problem to bring more servants.

Of course, for these people, this meant they were betting their lives on Levi.

Once Levi was in danger, they, who were in Alice's ring, would not be spared.

In the sky, Levi took one last look at the sea in Area 9..
