Chapter 683: Sky Dragon! (3)

"Dinos, go back to your family first. Sir Lyon is also worried about your safety. I'll bring Emperor Mu back." Levi patted Dinos' shoulder.

The fact that Dinos was able to look for Emperor Mu after he lost control proved that this young man's character was not bad.

"Leader, let me go with you. I'm also a member of the Twilight Knights. I want to participate in such a mission," Dinos said with anticipation in his eyes.

"You're too weak. There are many experts in the Black Water Tower. If you go, you'll be courting death. If I don't save you, my leader will be heartless. If I save you, you'll drag me down," Levi said calmly.

He would not force his subordinates to send meaningless heads.

He was a person who liked to develop quietly. Before his group members grew up, he hoped that his group members could be like him and learn to lay low and silently become stronger.

Dinos was speechless. He didn't know what to say.

However, Levi was right. He was only at the first-circle realm now. He would be useless even if he went to the Black Water Tower.

"Go back to your family and cultivate well. Try to break through the legendary shackles or become a Second-Circle Wizard as soon as possible.

"In addition, I plan to attack the Black Water Tower. I hope to obtain the help of your Golden Lion Jostar Family and the Wham Family.

"After you return, convey my thoughts to your father. If they want to completely uproot the Black Water Tower, the three of us will gather in the center of the ancient forest," Levi said.

Dinos was shocked. "Captain, are you sure you can destroy the Black Water

Tower? The Tower Master of the Black Water Tower, the Hundred Poison Wizard, is very powerful. It's said that he's in the top 100 of the outer sea region's Dark List and is ranked 78th."

The so-called outer sea region Dark List was actually a list of the top 100 black wizards active in the outer sea region drawn up by the Star Tower according to the bounty.

Basically, the top 100 dark wizards in the outer sea region were all third-circle dark wizards.

Only a very small number of them were low-level wizards. These low-level wizards might have mastered some extremely heaven-defying weapon or tool. Otherwise, it was impossible for them to enter the top 100.

The entire outer sea region was divided into more than 240 regions.

Area 9, where Levi was located, was only a tiny part.

Levi had heard of this ranking before. A Third-Circle Wizard like Morpheus was not on it at all.

The Black-Eyed Crow Modi from Area 9 was on the rankings. He was temporarily ranked eighth with the cultivation of a Fourth-Circle Wizard. It could be seen how ferocious he was.

The outer sea region had the Dark List, while the inner sea region had the Savages List.

The dark wizards on the Savages List who were only Intermediate Wizards and above were basically the leaders of the evil forces active in the inner circle of the sea. Those on the List were all Fourth-Circle Wizards.

The first on the Savages List was Black Sun Adam, and the second was Hundred Beast Berserk Witch.

The wizards on the Dark List and the Savages List were criminals that everyone wanted to kill.

If a wizard killed one of them, he could use the token to exchange for a generous bounty in the Star Tower.

Clay was ranked 78th on the Dark List, which meant that he was indeed capable.

Of course, Levi dared to make a move after careful consideration.

Dinos left.

He wanted to return to Lion King City and inform his father of Levi's intentions.

Levi left Sand City and headed for the ancient forest.

Speaking of the Hundred Poison Wizard Clay, he suddenly remembered the witch Elena who had lived together in Mirror Lake for several years more than ten years ago.

He did not know where this friend was now.

"I'll take this as revenge for Elena," Levi muttered to himself.

With his strength and the two clans, it was not a problem for him to destroy the Black Water Tower.

The Black Water Tower had not destroyed the two families for more than ten years. From this, it could be seen that although Clay was powerful, he was not completely crushed.

As long as it was not a Fourth-Circle Wizard, Levi could fight it with his current strength.

Moreover, even if he could not defeat them, he could escape with the Scarlet Escape.

Whether it was for his personal gain or to save Emperor Mu, Levi felt that he had to take down the Black Water Tower.

Holy Brilliance Calendar Year 1073, Month of Flowing Fire.

Levi conserved his strength in the ancient forest and adjusted it to its peak.

In Alice's ring, Mountain Giant Bo Gang, Wind Thunder Winged Dragon Raja, Tyrant II, and the other powerful subordinates were already prepared.

In addition, Levi could use Gustav, Schinn, Coulomb, the Dragon Finch, the Saint Scorpions, the Red-Faced Sea Ghost Spider, and so on.

There was also Owens from the Windmill Village.

As for Baron Deep Sea, Levi did not plan to bring him along this time. Firstly, it would be easy for him to expose his Sea Clan's trump card. Secondly, the Sea Clan's strength would be greatly reduced once they were on land. Without the sea to rely on, Baghdad's strength would be directly cut in half.

"Unknowingly, I'm already an army by myself.

"With a divine weapon like Alice's ring, I can totally raise a mobile combat force. Anyway, Alice's ring is so big, and I have nothing to do. I might as well build a few battle groups that belong to me.

"The first battle group, the transcendent creatures battle group, can be called the Hundred Beast Battle Group... No, it has the same name as the Hundred

Beast Berserk Witch's battle group. It was better to call it the Thousand Beast Battle Group. The main force of the Thousand Beast Battle Group is transcendent creatures. Currently, it is led by the Wind Thunder Winged Dragon Raja and the Mountain Giant Bo Gang.

"The second battle group, the Knights' Battle Group, has yet to take shape. The four fur clans under my command are not even legendary knights. As for Emperor Mu or Dinos, they could not possibly live with me in the ring for the rest of their lives. After all, the members of the Twilight Knights are not my servants or slaves. In the future, the Knights' Battle Group that I carry with me should still be dominated by the slave knights of the fur clans.."
