

Wizard 685

Chapter 685: Sky Dragon! (5)

“80%?” Both Old Golden Lion and Wham sounded incredulous.

To be honest, the combined strength of the three of them could barely match the Hundred Poison Wizard.

If not for the fact that the two clans had their own trump cards, the Black Water Tower would have taken them down long ago.

"Yes," Levi said.

He had only dragged the other two families along for the sake of stability.

In fact, he could kill the Hundred Poison Wizard alone.

However, it was a little risky. If something happened, it would not be worth it.

With more people, they were stronger. With the addition of two big families, he was confident.

"What do you think, Clan Leader Wham?" Old Golden Lion looked at him.

He had decided to fight to the death. After such a long battle, he was already numb to it. Instead of cowering, it was better to fight to the death.

After hesitating for a moment, Clan Leader Wham finally sighed and said,

"Let's fight. If this drags on, we'll also be worn down to death by the Black Water Tower. Now, the Star Tower has no time to care about us. There's still no response to our request for help. We have to save ourselves." "Wham Family, let's go to the Black Water Tower!"

The Clan Leader said loudly. "Listen to my gale!"

"Listen to my gale!"

The members of the Wham Family roared angrily, their auras rising continuously.

On the other side, the members of the Jostar family were not to be outdone.

Ever since the war between the dark and righteous wizards.

They had been at war for more than thirty years.

No matter what the outcome of this battle was, it was better to take the initiative to attack than to sit and wait for death.

"Then let's go." With that, Levi's griffin flapped its wings and flew into the sky.

The mighty teams of the two families also followed.

Inside the Black Water Tower.

Clay was still studying the totem insect. He planned to completely destroy the two families after refining the totem insect.

Suddenly, Yefa's voice was heard.

"Brother, the alliance army of the two clans is coming to the Black Water Tower."

"What?" Clay's expression changed slightly.

"These two families actually dare to take the initiative to attack me? They're going to make their final struggle," Clay said with a sneer.

"Originally, I wanted them to jump around for a while longer. Since they took the initiative to come up and die, don't blame me. Prepare to fight." Clay put away the ancient book and put on his robe.

In the shadows around the wizard tower, poisonous microorganisms that looked like asphalt quickly surged over and entered Clay's body.

Crackling sounds came from his body, and his bones exploded. His entire body emitted a black iron color, like a steel body.

"It's been a long time since I've exercised."

Clay flew out of the tower. Behind him, wizards from the Black Water Tower appeared in the air.

These black-robed wizards were well-trained and uniform. They looked extraordinary.

The third-circle array around the Black Water Tower also lit up.

Yefa stood beside his brother and calmly looked at the approaching army in the distance.

Clay said loudly, "Clan Leaders, what rare guests."

His expression was calm, as if victory was in his grasp.

Golden Lion and Clan Leader Wham's expressions were solemn.

"Let's see who's stronger. Today, either our two families will die or your Black Water Tower will perish."

Golden Lion said calmly, as if he had already accepted it and ignored life and death.

"Blind confidence is equivalent to death!" Clay sneered. He waved his hand, and the wizards under him began to cast spells in unison.

Then, water arrows cut through the sky and shot towards the enemy camp.

Clan Leader Wham took out his third-circle Wizard Tool. The war drum sounded, and the wind roared. The wind blew away these attacks, and some of them shot into the camp and were resolved.

"Attack the attack array with all your might first!" After Old Golden Lion finished speaking, he raised the third -circle Wizard Tool sledgehammer and smashed it down.

A terrifying shockwave swept out and spread to the grand array, causing the third-circle array to tremble.

"Kill!" Yefa's innate spell was activated. Waves swept through the air like an inverted sea.

The innate spell—Three Scroll Cloud Waves!

Behind Clay, poisonous water surged, and countless asphalt-like poisonous water mixtures were extracted from his body.

He turned into a poisonous ball dozens of meters in diameter and charged through the sky.

The defensive field of the wizards involved would soon collapse and be

Devoured by the poisonous water.

Clan Leader Wham fought Yefa, while the two third-circles of the Golden Lion Jostar Family fought Clay.

Black Water Tower.

Clay's laboratory.

In the void, a ball of blood fog appeared and condensed into Levi's figure.

It was Levi, who had used the Hermit Rune and Scarlet Poison Body to infiltrate this place before the battle started.

His main goal was to save Emperor Mu. With the two large families dragging Clay outside, he easily found Emperor Mu.

He looked at Emperor Mu in the transparent container. At this moment, Emperor Mu seemed to have completely transformed into a monster.

Levi did not open the container. He directly emptied the equipment in Clay's laboratory along with Emperor Mu and placed them in Alice's ring.

Clay immediately sensed Levi's movements.

He, who was fighting the Old Golden Lion, was shocked and furious. Clearly, he did not expect someone to infiltrate his laboratory under his nose.

"Damn thief!"

The equipment in the laboratory, including a lot of data in the equipment, was very important to Clay.

The next moment, something that made Clay even more desperate happened.

The Black Water Tower completely cracked and collapsed. Smoke filled the air, and flames soared into the sky.

When the dust dissipated, in the fire.

A golden giant wrapped in Hellfire held a greatsword and fused with the three-headed and six-armed phantom behind him. It stood proudly in the air..
