

Wizard 693

Chapter 693: The Dao of Humanity! (1)

Lion King City.

In Levi's wizard tower laboratory.

Emperor Mu's eyes were filled with confusion as he looked at the white wolf girl in front of him.

"Algerta? Why am I here... I remember being controlled by the Golden Spine Bone... Wait, where's my Golden Spine Bone?"

Emperor Mu suddenly stood up. The pain in his body made him moan uncontrollably.

Algerta hurriedly said, "Your injuries have just healed. Master stitched you up a lot. You can't move, or it will collapse."

"What... what happened to me?" Emperor Mu calmed down and asked.

"You'll know when Master comes," Algerta said.

Levi had already walked in.

"Commander!" Emperor Mu got off the bed and came to Levi.

"You haven't recovered from your injuries yet. Don't be too agitated. Tell me if you have any questions," Levi said.

"Commander... did I lose control?" Emperor Mu asked.

"That's right. You killed someone in the Golden Lion Castle and Sir Lyon chased after you, so you disappeared. It seems that you really don't remember anything." Levi's eyes were calm as he explained what had happened in the past.

"Sigh... There's indeed a problem with the Golden Spine Bone. I previously felt that there might be a problem with it, but I was hoping for a fluke. From the looks of it, relying on external objects is ultimately an unorthodox method." Emperor Mu sighed.

"I've already taken away the Golden Spine Bone and placed it in a special container. It's best if you don't touch it in the future.

"This thing is very strange. I see that you're not far from breaking through the shackles of legendary. Next, you only need to complete a complete transformation of the Life Seed and you can begin your new journey as a

Imight. Cultivate in peace in the future. If you lack resources, you can tell me."

Levi said. After all, he had taken Emperor Mil's things. It would be unreasonable not to compensate him.

"Thank you for saving my life, Commander. I was blinded by the Golden Spine Bone and made a huge mistake. I wonder if the Wizard Council will punish me next." Emperor Mu was worried about the innocent people he had killed.

Although he was ruthless, he was not someone who killed indiscriminately.

"That's alright. The Golden Lion Jostar Family can help you settle it. Moreover, you've killed many dark wizards. You've made up for your mistakes," Levi said after thinking for a while. "Thank you, Commander." "Continue to recuperate."

Levi left the lab.

Three months later, Emperor Mu's injuries were completely healed.

His strength had also returned to its peak.

On a sunny afternoon, after Emperor Mu finished cultivating the breathing technique, he felt as if a layer of shackles had been broken in his body. A feeling of enlightenment surged through him.

Thick golden fur grew crazily on the surface of his body before returning to his body.

The Saint Ape Seed in his heart had undergone a transformation and become a Bloodline Seed.

This meant that he had finally broken through these bloodline shackles and stepped into a brand new rearm.

After learning of this news, Levi immediately met Emperor Mu, who had broken through.

"Commander, give it a try!"

Emperor Mu's face was filled with excitement as he unleashed a torrent of energy from his palms, causing the wind and clouds to change color.

"Good timing."

Levi caught Emperor Mu's palm lightly and exerted force.

Emperor Mu was sent flying hundreds of meters away, hitting the wall of the training ground and leaving a huge mark.

Emperor Mu was dumbfounded. He could not figure it out.

"Commander... I want to confirm. Are we in the same realm now?" Emperor Mu looked like he was doubting his life and couldn't help but ask.

"No, my realm is above yours." Levi smiled mysteriously and turned to leave.

He came here mainly to see the changes after Emperor Mu's breakthrough.

Just as he had expected, the Life Seed had transformed into the Bloodline Seed, and the Bloodthirst had been formed.

Emperor Mu looked at Levi's back and fell into deep thought. Then, he stood

Up.

"Why should I compete with the leader? I'm a member. I should compete with Dinos, who is also a member. I'm going to fight with Dinos now."

Emperor Mu had figured it out.

This teacher came to Dinos.

Dinos was also training hard at this moment. When he saw the high-spirited

Emperor Mu, his expression changed. "Teacher, you broke through?"

Emperor Mu smiled confidently and said, "Come try out for yourself."

Dinos' golden mane appeared and transformed into a majestic lion. Assembled attacks swept towards Emperor Mu.

Emperor Mu shouted and suddenly exerted his strength. Then, he struck out with his palm.

Dinos flew away like a kite with a broken string.

"Did you see that? This is the power of breaking into the legendary realm, the Bloodthirst Knight." Emperor Mu was excited, but he pretended to be calm.

In the eyes of others, it was impossible to break through to legendary.

Now, Emperor Mu had become the second knight to break through to legendary.

Dinos refused to believe it and attacked Emperor Mu again. Dense fist shadows covered the sky.

After Emperor Mu broke through to legendary, his physical fitness in all aspects improved again, especially his main strength attribute.

He easily deflected Dinos's attacks and sent Dinos flying.

Dinos finally knew that Emperor Mu had indeed broken through.

He was extremely excited, which meant that he could also break through the legendary barrier in the future.

"Of course, it's fine as long as our Twilight Knights and your father know about this. As for the others, there's no need to publicize it. We're still a start-up team. We'll attract the wind when we're tall. You know what I mean, right?"

Emperor Mu said..
