

Wizard 704

Chapter 704: Legendary Wizard Tool (3)

"Attack!"

The female leader ordered.

Her third-circle spell attacks and her team members' second-ring spell attacks were all shining brightly as they headed towards Levi, who was surrounded by

Arrays.

Rumble!

The sound of an explosion resounded in the sky.

Shockwaves from spells swept out.

"He should be dead, right?"

"Go on, don't stop!"

"We can't be careless! The other party should be a Third-Circle Wizard!"

Just as the three wizards were about to continue attacking, a mocking laugh came from behind them.

Then, a sharp ice sword instantly arrived and broke through the protective force field. It pierced through the head of a male wizard and exploded like a watermelon.

The male wizard's body fell straight down. He was clearly dead.

"The enemy is outside! Don't attack the ones inside!" The female leader realized that something was wrong.

The spell she had prepared blasted toward Levi.

At this moment, Levi's Glacial Sword Finger had already pierced through the body of another Second-Circle Wizard.

Around him, the Great Black Sky Curtain revolved, blocking most of the attacks. Layers of spell defensive fields flickered, blocking the aftershocks of the attacks.

Although he did not have a Third-Circle protective force field, Levi easily blocked the Third-Circle Wizard's attack with the number of spells and the power of the Special Effect.

Swoosh!

Another Glacial Sword Finger tore through the air.

"Damn it, this person's spell cultivation has already reached such a level of perfection. Ordinary second-circle defensive spells have all been played out by him." Seeing that something was amiss, the female leader prepared to retreat.

But it was too late. The Great Black Sky Curtain swept over her and her

Ueuellslve new.

She still wanted to rely on the protection of the force field to continue chanting spells to attack Levi.

In the next moment, Levi sneered and stabbed his golden-scaled hand into the defensive field.

Golden Revolving Divine Palm!

The third-circle defensive field that the female leader thought was full of security began to distort under Levi's terrifying strength.

Crack!

The force field shattered.

Levi's large hand grabbed her neck, and the Great Black Sky Curtain completely wrapped around her. Her limbs were also tied up and shattered.

Even if she was a peerless beauty, Levi had no intention of showing mercy to her, let alone this burly female wizard in front of him.

However, to be honest, such aesthetics were unique among the witches in the Wizard World.

"Tell me, who sent you to harm me?" Levi sneered.

"I just want to rob you. No one sent me." The witch was very unyielding. Even though she was about to die, she did not beg for mercy.

When she entered this line of work, she was already mentally prepared.

"Then die."

After Levi finished speaking, he inserted his big hand into the witch's chest and crushed her heart.

The female leader's aura gradually withered before she died.

The Sacred Armor Scorpions swarmed forward and devoured the delicious soul of a Third-Circle Wizard.

The vitality of the female wizard would not be wasted. Under Levi's Ashen Eye, it turned into a silver coin.

"I can let Owens come out for some air again." Levi put away the silver coin.

From the looks of it, this witch was indeed just robbing him.

"The world has become so chaotic." Levi picked up the witch's storage bags and put away the spoils of war from the two male wizards.

After a round of counting, Levi realized that the three wizards were poor. The total cash they had was only 40,000 Aether Stones.

However, after thinking about it, it was normal. As outlaws, they might not be able to see the sun tomorrow at any time. If they had money, they would immediately use it to increase their strength. They could not save it at all.

Of course, these three fellows still had some good stuff.

"The third-circle array, the Heavenly Net Array, is very useful for trapping enemies. Unfortunately, they only trapped a group of poisonous creatures that have transformed into my appearance."

The real Levi had long been hidden with the Hermit Rune.

After they unleashed their ultimate moves, Levi methodically used spells to reap the lives of his opponents.

The difference in strength between the two sides was too great. With their team and the array, they might be able to deal with ordinary Third -Circle Wizards. They were thinking too much about dealing with Levi.

"This array should be worth 100,000 Aether Stones. This is a third-circle array." Levi smiled happily.

"Eh, there's also a small wizard airship. It looks pretty good." Levi took out an airship from a male wizard's storage bag. After this airship came out, it automatically expanded to about 30 feet long.

"Looks like my griffin isn't low-key enough. I might as well use this airship to travel in the future."

Levi thought for a moment and asked the griffin to return to Alice's ring.

He studied this airship for a while and quickly got used to it. It was a standard item and was not difficult to master.

In addition, there were two third-circle spells. One was High Water Wall and the other was Water Tiger's Shot. They were both relatively ordinary spells.

"Collect them and fill up my spell library. I'll use them to synthesize original spells in the future." Levi boarded the wizard airship and turned into a stream of light, rushing towards the Moulin Rouge Wizard Market.

The Flying Shark was as fast as a griffin, but it looked a little shabby.

Most of the time, the airship could autopilot. It only needed some Aether Stones. However, if it required complicated operations, it still had to be manual.

Seven days later, Levi finally saw Red Devil Island.

However, what appeared in front of him were broken walls and collapsed wizard towers everywhere..
