

## **Wizard 708**

Chapter 708: Crimson Emperor Dragon! (2)

[Third-circle spell model, Fire Dragon Guide, worth 30,000 Aether Stones...]

“50,000 Aether Stones for the Sun Flame Explosion and Fire Dragon Guide. Are you selling them? If you are, I’ll take them all.” Levi asked.

Sun Flame Explosion was an advanced spell of his Five Fireballs Technique. Levi was determined to get it.

As for the Fire Dragon Guide, Levi wanted to use it to fill up his spell library. Of course, if Levi had time, he could also cultivate it.

The power of the Fire Dragon Guide was extraordinary. It could condense a fire dragon to attack the enemy.

“This...” For a moment, this Third-Circle Wizard was in a dilemma.

He had obtained these two third-circle spells by killing a third-circle dark wizard. He was from the Ocean School of Thought and couldn’t cultivate them, so he could only sell them.

However, he could not sell it for a long time.

In comparison, the Burning Faction's spells were relatively small in the Endless Sea. Occasionally, there would be some buyers who could not give him the price he wanted.

"By the way, are you planning to sell this too?" Levi inadvertently looked at a black mirror fragment beside the spell crystal ball. Levi's face was reflected on it.

He was expressionless on the surface, but he was excited on the inside.

Actually, he had already discovered this mirror when he first arrived at this stall.

This was because when the Divine Ring Tower in his mind approached this mirror fragment, it started to spin on its own, giving off a feeling of jubilation.

This was the first time such a reaction had occurred since the Divine Ring Tower appeared, so Levi wanted to buy it and study it.

"You're quite knowledgeable. There are so many people here, but you're the only one who's interested in this. This is a fragment of a Soul Artifact. 100,000 Aether Stones. No bargaining."

This Third-Circle Wizard was obviously quite clear about the origin of this thing and knew its value. Levi's idea of picking up a bargain instantly fell through.

"Do you want it? If you want to buy this Soul Artifact fragment, I can sell those two third-circle spells to you for 50,000 Aether Stones." The Third-Circle Wizard transmitted his voice expressionlessly.

It was obvious that this so-called Soul Artifact fragment was not that easy to sell. Otherwise, he would not have wanted to pack it up and sell it.

"How did you get this Soul Artifact fragment?" Levi asked.

"You might not believe me, but I picked it up. To be honest, I've gotten someone to appraise this Soul Artifact fragment. It doesn't have the possibility of being repaired, and it doesn't have any value. That's why I'm selling it for 100,000 Aether Stones. After all, this is a material for making Soul Artifacts. Just the price of this material alone is worth 100,000 Aether Stones.

"If you want it, take it away and keep it as a memento. If it's really useful, let alone 100,000 Aether Stones, people will even pay a million Aether Stones for

it."

The Third-Circle Wizard said.

Levi was indecisive.

Judging from the performance of the Divine Ring Tower, this thing should be very useful to him.

However, the origin of this thing was unknown. If it was left behind by a primordial soul wizard and this primordial soul wizard was still alive, he would be a hot potato if he held this thing. It was very likely that he would get into trouble.

"By the way, the owner of this Soul Artifact fragment is already dead."

The Third-Circle Wizard seemed to have seen through Levi's concerns and said.

"How do you know?"

"Because I saw this Soul Artifact fragment owner's primordial soul dissipate in front of me with my own eyes."

"You must be joking. You're a Third-Circle Wizard. How can you stand here and talk to me when you see the primordial soul of a wizard with a primordial soul?"

"If that primordial soul wizard wants to forcefully occupy your body, it shouldn't be difficult, right? Could it be that you've already been possessed? I'm talking to a primordial soul wizard."

Levi naturally did not believe him. He said that half-jokingly. He was also on guard in his heart.

At this point, he remembered that he had heard from Lyon that in this war between dark and righteous wizards, a primordial soul wizard had almost died, leaving only his primordial soul to escape.

Could it be the owner of this Soul Artifact fragment?

Damn it, did he really hit the nail on the head?

Levi was a little scared and didn't want to continue trading.

"Hehe, if he possessed someone else, he might have succeeded. Unfortunately, he chose me. It's up to you to believe it or not. Anyway, the owner of this Soul Artifact fragment is dead. If the primordial soul dissipates, his soul will be completely destroyed. I can sign an agreement and swear on this."

This Third-Circle Wizard was obviously annoyed by Levi's overcautiousness. He felt that Levi was here to deliberately find trouble.

After making a decision in his heart, Levi carefully considered the pros and cons.

He felt that since the other party could sign a contract, there was a high chance that he was not lying.

Everyone had their own secrets. It did not matter if the other party was unwilling to say it. As long as he confirmed that the owner of this Soul Artifact fragment was dead, Levi could buy it without worry.

"Alright, I'll buy bought them all. You can lower the price by another 10,000 Aether Stones. 140,000 Aether Stones, one Soul Artifact fragment, and two spells. I'm buying them sincerely. Other than me, there shouldn't be many buyers for your things, right? If you miss this opportunity, you won't have another chance," Levi said.

The Third-Circle Wizard thought for a moment, then nodded and signed a contract with Levi.

Levi was even more careful with the terms of this contract in case the other party played any tricks.

After finding a private room and signing a contract with his spiritual force imprint, the two of them completed the deal. The Third-Circle Wizard was not in a hurry to leave. Instead, he looked at Levi and said, "You look unfamiliar.

You must be new."

"That's right. Why?" Levi asked.

"It's nothing. My name is Jacob. I often sell good stuff here. If you need anything in the future, you can look for me at 71 Moon Lane," Jacob said..
