

Wizard 709

Chapter 709: Crimson Emperor Dragon! (3)

Levi's intuition told him that Jacob was not an ordinary Third-Circle Wizard.

He nodded, but in his heart, he was thinking that he would try not to interact with the other party in the future.

To be able to survive in front of the primordial soul of a primordial soul wizard, he must have extraordinary backing and trump cards.

Of course, it was also possible that primordial soul wizards were too moral. Even if their souls dissipated, they did not want to possess Jacob before the end of their lives. However, this was unlikely. Wizards were not saints.

After the deal was made, Jacob left the gathering. Levi watched him disappear, feeling calm.

Levi continued to stroll around the gathering. He still had 600,000 Aether Stones on him and wanted to buy some useful things.

The Soul Artifact fragment was a pleasant surprise. It was obvious that Jacob did not want to publicize this matter.

Otherwise, he could have hyped up the Soul Artifact fragment and sold it for a higher price.

Of course, among the wizards present, there might not be many who had the money to buy Soul Artifact fragments other than those Fourth-Circle Wizards.

Levi was taking a gamble. If this Soul Artifact fragment was useless to him, it would be equivalent to 100,000 Aether Stones going down the drain.

He did not like to gamble, but this time, he wanted to give it a try.

Finally, when the event was over, Xavier came to Levi with a smile.

"It seems that you have gained a lot, " Levi said with a smile.

"It's alright. By the way, Sir Levi, I saw you were chatting with that Jacob just now. "

"I don't know if I should say this or not. This person is more eccentric. You should interact less with him in the future." Xavier sent a voice transmission to

Levi.

"Thanks for the warning."

Levi's heart skipped a beat. In fact, from the deal he had with Jacob just now, this person looked very normal. He was not as strange as Xavier had said. Perhaps Levi had not interacted with him enough.

He left the wizard market.

He returned to the wizard tower.

After Levi confirmed that there was no problem with the array, he took out the Soul Artifact fragment.

"What Soul Artifact fragment is this? It looks like a small part of a broken mirror." Levi fumbled with the black fragment.

Although this thing had a reaction to the Divine Ring Tower in Levi's mind, Levi didn't dare to try it recklessly.

It was even more impossible for the blood to recognize him as its master.

Before he understood the situation, these actions might bring him danger in this transcendent world.

"Forget it, I'll put it away first and study it slowly in the future."

Levi planned to read more information about Soul Artifacts during this period of time and collect information about the dead primordial soul wizard to see if he could gain anything.

A month later, Levi traveled to the area where the green-furred manatee used to roam, as mentioned by Old John.

After searching there for three months, Levi finally found a first-circle green-furred manatee.

Levi was overjoyed that this green-furred manatee really had the Musk Bull bloodline after using the Rowling Crystal to test it.

Although it was only a first-circle creature, it could still practice the Dragon Demon Breathing Technique.

He immediately used Nature's Secret Language to contract this fellow and put it into Alice's ring to raise.

As for the remaining Ostrich Mountain Bird bloodline, half a year later, Levi found a suitable transcendent creature after asking around.

It was the second-circle avian creature, the Earth Dragon Bird.

This transcendent creature did not appear in the Endless Sea. It usually only appeared in the Earth School of Thought's Realm of the Unbelievers.

Levi bought this one from a Third-Circle Wizard at a high price.

The Third-Circle Wizard used it as a mount and didn't want to sell it at first.

However, Levi had given him too much. In the end, he reluctantly gave up.

In this chaotic era, non-essential things like mounts were better exchanged for Aether Stones to increase one's strength.

Everyone had no guarantees for tomorrow. If their strength could increase a little, their chances of survival would be higher.

Levi's cultivation of the Dragon Demon Breathing Technique finally improved.

At the same time, Levi asked around and learned that the high-level wizard who only had his primordial soul left was confirmed dead.

As for that high-level wizard's Soul Artifact, it was called the Mirror of the Night. It was also shattered in the battle and turned into many fragments that scattered in all directions.

With that, Levi's information matched what Jacob had told him.

Jacob was most likely not lying to him.

This way, Levi could hold on to the Soul Artifact Fragment without worry.

Moreover, after Levi had gone through a lot of information, he finally knew why that Soul Artifact fragment could attract the Divine Ring Tower.

This was because fragments of Soul Artifacts needed to be nurtured by the primordial soul of wizards all year round. Over time, they would contain a trace of the primordial soul power.

This primordial soul power was the main strength that promoted the growth of the Divine Ring Tower.

Therefore, generally speaking, only high-level wizards would begin to condense the Divine Ring Tower. It was basically impossible to condense the Divine Tower with the mental strength of Intermediate Wizards alone.

Therefore, the trace of primordial soul power in the Soul Artifact fragment was extremely attractive to Levi's Divine Ring Tower.

Levi went through a lot of unpopular literature and information and finally came to the following conclusion:

If handled properly, he could use this Soul Artifact fragment to quickly promote the growth of his Divine Ring Tower.

However, there was a problem that needed to be resolved. The primordial soul power contained in it might have the mark of the original owner of the Soul Artifact, or rather, traces of personality..
