Chapter 724: Return Home!

In mid-air.

Levi released the Strength in his body until a cold liquid suddenly flowed through his blood and spread to his limbs.

Levi's anger slowly dissipated. He panted heavily, and the true form of the Giant Dragon Warrior and the Furious Dragon Lord gradually faded.

"Phew, the [Tranquil Water] that was reserved in the blood sac has taken effect. I should try to use the Special Effect of the Furious Dragon Lord less in the future..."

That would prevent him from entering the Furious Dragon Lord state for too long. If he is not able to come back from that state, he will become a complete lunatic.

Levi had previously refined a third-circle potion called Calming Water, which was stored in the blood sacs.

This potion was an essential potion used by some wizards to prevent themselves from going berserk during cultivation. It could also have a very strong calming effect.

Looking at it now, the effect was excellent.

Once Levi's body reached a certain critical point, the potion would be automatically released to suppress the madness and anger.

"I'll refine more of it in the future as a backup."

He looked at Old John's storage item in his hand and glanced at it. There were not many things.

"What a loss..." Levi was a little annoyed. He did not want to reveal his strength, but in the previous situation, he might have been in danger if he did not reveal it.

By the time Levi was almost fully recovered, in the distance, two Fourth-Circle Wizards finally arrived in front of Levi.

This was also a way to show respect to Levi, telling him that they had no ill intentions and would not take advantage of the situation.

"Sir Levi, you're really hiding your strength." Sparrow smiled and said, "Oh right, I forgot to introduce myself. I'm Sparrow, the captain of the Black Pearl

Wizard Market's law enforcement team. This is Varil. If you often attend Black Pearl wizard gatherings, you should have known him long ago."

Varil nodded and said, "I have some potions that can help you recover faster. Do you need them?"

Levi's strength had already won the respect of these two, so they did not look down on him like a Fourth-Circle Wizard facing a Third-Circle Wizard. Instead, they treated Levi as an equal.

"There is no need. Thank you. Regarding this matter..."

"We understand. We're rogue cultivators. We don't have any backers in this world. Everyone has their secrets that they don't want others to know. We brothers naturally understand this." Sparrow answered with a smile.

Levi said gratefully, "Thank you, both of you. If it weren't for the both of you, I wouldn't have dared to fight a Level 4 demon. However, it doesn't seem like a

Level 4 demon. It's just an incarnation..."

"That's right. It's just an incarnation, but it's already so difficult to deal with. This guy's main body should be a fifth-circle superior demon that's comparable to a primordial soul wizard. In the Abyss, this is an absolute powerhouse. Such an existence appeared in our Black Pearl Wizard Market. When Lord Garcia returns, we must report this matter." Sparrow said with a solemn expression.

"However, if you don't like to be exposed, and if you don't mind, Sparrow and I

can just say that we killed him together. But this way we would be taking your credit, and we're afraid that you'll feel uncomfortable," said Varil.

"That's even better. I just want to find a quiet place to cultivate. I don't want to cause trouble, and I don't have any ill intentions. I just don't want to be disturbed. I hope the two of you can understand." Levi said with a smile.

"Understood, Sir Levi. May I ask if you are a member of the dragon descendant priory?" asked Sparrow.

Levi shook his head and smiled bitterly. He replied, "I'm not. Maybe I will be in the future. I'm just a nameless dragon descendant wizard right now."

He now realized that he could create the persona of a dragon descendant wizard and a body-refining sorcerer in the future. The cultivation of a knight to this point was too shocking. No one would believe it even if he told them. An existence like Levi had never appeared in history before.

Moreover, at his current level, Levi, who possessed five breathing techniques of the Dragon Clan, was essentially no different from a dragon descendant. It was not a problem to call him a dragon descendant.

"Oh, I see. I know a senior from the dragon descendant priory. If you want to join the dragon descendant priory, I can recommend you to that senior," said Sparrow.

Levi shook his head and said, "No need for now. Thank you for your kindness, Sir Sparrow. By the way, who is this senior? Is it convenient for you to reveal their identity?"

"Blue Dragon Lady. She is currently the castellan of the Riptide City. She is a high-ranking member of the dragon descendants priory. She will definitely become a primordial soul wizard in the future," said Sparrow.

Levi was glad that he had refused. If he went to Riptide City now, wouldn't he be walking right into a trap?

Although the Blue Dragon Lady was not as evil as Sorrett, she was definitely not someone to be trifled with.

It could be said that if Huffman really died, Levi felt that both Blue Dragon Lady and Sorrett were responsible.

"I still have some things to do, so I'll leave first. If you need to refine potions in the future, you can come and find me."

He had already exposed his strength in front of the two of them. Levi had no choice. He could not kill the two of them. Moreover, he did not have the strength to kill them, so he could not force them to sign a confidentiality agreement.

He might as well go with the flow and take this opportunity to befriend them. This way, he could also be considered to have a good relationship with the higher-ups of the Black Pearl Market, which would facilitate his future actions..
