

Wizard 727

Chapter 727: Everyone Heading To Star Sea

"Star Sea?"

"Yes, in the beginning, the Star Sea was also called the [Sea of Six Towers]. The six steeples were the rulers of the Star Sea. Later, in order to facilitate the management of the Endless Sea, under the leadership of the Wizard Council, the six steeples formed the [Star Tower]. However, the establishment of the six steeples still exists today, and they became the masters behind the scenes of the Star Tower."

"That's pretty good. There are more opportunities in Star Sea," said Levi.

Levi had also heard of the six steeples that formed the Star Tower, and the famous Seven Waters Steeple was one of them.

It was said that the Black Sun Steeple was once one of the six towers, but Black Sun Adam led the Black Sun Steeple to rebel and was removed from the Star Tower.

It was said that each of the six towers had an eight-circle primordial soul wizard overseeing them. In history, there had even been a nine-circle Grand Wizard.

"Aren't you going?" Old Xavier asked.

"I won't be going for the time being." Levi shook his head. He was not ready to head to Star Sea yet.

If he couldn't stay here anymore, he would go to the Hundred-Eyed Demon Territory and see if he could return to the human world through the spatial node.

If possible, he might as well hide in the human world for a while. Moving back and forth in the Wizard World was not a solution.

If he couldn't go to the human world, he would make other plans.

"Alright, then if you go to Star Sea in the future, we'll find a way to contact each other, Levi, my friend."

Old Xavier gave Levi a hug. Levi patted Old Xavier's shoulder with a strange expression.

It had been a long time since Levi had encountered such a way to express his emotions.

Wizaesa were always on guard against each other. Even if they were friends, they were all reserved friends.

"Goodbye, Old Xavier. I wish you a safe journey. I wish you a bright future in Star Sea." Levi sincerely sent his blessings.

Old Xavier nodded and left.

The next day, after Old Xavier packed his luggage, he left the Black Pearl Wizard Market.

Levi's only friend who he could speak to had also left.

As they bid farewell, Levi looked at Old Xavier's departing back and felt a little emotional.

"This is the norm of life."

After sending Old Xavier off, Levi returned home.

He saw a wizard in a blue robe standing on the path in front of the wizard tower. It was Wizard Sparrow.

"Sir Levi, you're finally back," said Sparrow.

"Sir Sparrow, what's the matter? Come in and have a seat." Levi said.

The white wolf maid brewed the herbal tea that Levi had planted himself.

"Sir Sparrow, have a taste. Although this tea is bitter, it is good for cultivation." Levi smiled.

Sparrow nodded. He took a sip but obviously did not drink it.

"Good tea." He praised sincerely.

"Tell me what you want to say, Sir Sparrow." Levi looked at Sparrow.

"It's like this. I'm sure Sir Levi has heard that the Thunder Dragon Family intends to purchase the Black Pearl Wizard Market."

"Yes."

"Then I'll cut to the chase. On behalf of Wizard Garcia, I invite you to join the [Starfire Sorcerer Academy] as the dean of the pharmaceutical academy. As the dean, you can receive a reward of ten thousand Aether Stones every ten years." Sparrow said.

"Starfire Wizard Academy?"

"That's right. Master Garcia wants to establish an academy-type wizard organization. The four Black Pearl wizards have already joined it. However, we are still lacking manpower, so we are currently recruiting talents," said Sparrow.

"Where will the wizard academy be?" Levi asked after pondering for a moment.

"Star Sea. It is the most prosperous place of the Endless Sea's wizard civilization. There are currently more than 60 high-level sorcerer organizations in the Endless Sea, and nearly half of them are concentrated in the Star Sea. That is the stage where the middle-level and high-level sorcerers display their talents," said Sparrow.

Levi said with a smile, "Sir Sparrow, I have some matters to attend to, so I can't go to Star Sea for the time being. When I'm done, I'll go to Star Sea to look for you. If there's still a vacancy in your school, just arrange a pharmacy teacher position for me. I'm afraid I'm not qualified to be the dean with my talent."

Sparrow thought for a moment. Levi's answer was within his expectations. After all, he could tell that Levi did not like joining wizard organizations.

He was already very satisfied to be able to get a promise from Levi.

"But I have a friend called Xavier. He has already gone to the Star Sea. When the time comes, Sir Sparrow can look for him in the Star Sea. With his knowledge in weapon making, he should be able to take on the position of a wizard academy's weapon-making teacher."

"I know Xavier. I was going to ask him, but I didn't expect him to leave already." Sparrow was somewhat helpless.

"Then I won't disturb you any further. If we're fated, we'll meet again in the Star Sea." Sparrow left in satisfaction.

The door of the wizard tower slowly closed, and Levi drank his tea alone.

"They are all going to the Star Sea. No wonder people say that the Star Sea is a dreamland. Speaking of which, Salman, the founder of the Gray Tower, the Flower Knight, the Rose Witch, and Wizard Neut are all in the Star Sea."

"But now, the war is spreading in the Endless Sea. Even if we go to the Star Sea, we might face a disaster. I won't join in the fun for the time being.."
