

## Wizard 738

### Chapter 738: Dream Dragon! (2)

"Your knight talent is not bad, but to advance to legendary, your temperament and perseverance are indispensable. If you're interested, you can train with me for a while. It won't be difficult for you to advance to legendary in the future," Levi said casually.

"Senior, I'm willing!" Kelvin said.

He could tell that this Ancient Saint Lord did not seem to have much malice towards humans. He was like an outsider, watching the changes in the world.

This was the real powerhouse. Regardless of whether the other party was a knight, as long as he could train with him, it would not be difficult for him to become a legendary knight in the future.

Levi did this out of nostalgia for the Earl of Silver Mountain.

He had made his fortune in the Black Water Valley. Icewind City had been of great help to him. There, he had completed his first transformation and gradually escaped the threat of the Duke of Montenegro's demonic claws.

Levi led Kelvin to Flower City. They rode on horses and advanced leisurely.

The city in his memory appeared in front of him. Levi felt excited to return to his hometown.

The big horse slowly stopped in front of the city gate of Flower Castle.

Two grand knights were guarding the door.

"Not bad. They can spare a grand knight to guard the door. But this is a little high-profile... Andrew still hasn't learned my essence of hiding. I have to teach him a lesson." Levi felt helpless.

"Who are you?" The grand knight guard asked coldly.

"I'm here to visit the master of the castle. Go and inform him that Geralt has come to pay a visit." Levi could sneak in, but he felt that it was a little strange that he could not go back to his house openly.

Geralt was the identity he used when he returned to the human world. It was also the secret code between him and Andrew. "Senior, do you know Baron Reed?" Kevin asked.

Levi nodded and said, "Old friends."

Kelvin didn't expect that Baron Reed, who looked ordinary, would know such a terrifying existence like the Ancient Saint.

Back then, Baron Reed invited him to join an organization with limitless light and future. He rejected it without thinking.

From the looks of it, his decision was still too rash.

Although the grand knight guard did not know who Geralt was, he was addressed as senior by a young grand knight, so he must not be an ordinary

Person.

He had a discerning eye and immediately went to report.

Not long after, Baron Reed, played by Andrew, appeared at the door.

"My dear Geralt, welcome." Andrew beamed with joy. He had been looking forward to the stars and the moon. His master had finally returned.

"Baron Reed, how have you been?" Levi smiled.

The master and servant entered the castle, and the iron gate slowly closed.

In a secret room, Levi set up a silent array and said, "Well done. I didn't expect this territory to be here still."

"The current king is the younger brother of a member of the Twilight Knights. It's easy for him to protect our territory," Andrew said with a smile.

On the other side, Kelvin was confused. He felt that he seemed to have come into contact with an extremely powerful secret organization, and the Ancient Saint Lord was the leader of this secret organization.

"The Twilight Knights. Is this the organization that Baron Reed invited me to join? I actually rejected it." Calvin's heart was in a mess. Ever since his family was destroyed, his state of mind had been in a mess.

No wonder Ancient Saint Lord was so proficient in the path of knights. He was the leader of a knight regiment.

Levi learned more about the current situation of the human world from Andrew.

The Church of the Moon God, the Death Society, the Werewolf Brotherhood, the Ghoul Hut, the Wilderness Brotherhood, the Silent Monastery, the God of War Temple, and other major factions and sects were all restless in the Seven Kingdoms Continent and began to plan for the revival of the Dark Wave.

Originally, there was a new Holy Snake Guild. However, before this organization could rise, it collapsed and was directly controlled by Levi.

"Next, the world will usher in a true struggle. Isn't this also my chance?"

"My strength might be average in the Wizard World and I can't be ranked among the big shots, but in the human world, I'm a hidden big shot. Even the saints of the Church might not be stronger than me now. I really should take the initiative to provoke the Church. This human world is very promising!" Andrew took out a storage bag and handed it to Levi respectfully. "These are the things I've collected over the years. They're all of interest to you."

Levi nodded.

He took the storage bags and took a cursory look.

After 50 years of collection, there were more than 300 breathing technique inheritance diagrams inside. They were all replicated with special recording slates, and their functions were similar to cameras in his previous life.

This was the item that Levi gave Andrew when he left the human world last time. It was convenient for Andrew to make deals with Imights or nobles who had breathing techniques.

After all, the breathing technique was a legacy item of the family. It would be too difficult to collect it directly. However, the difficulty would be greatly reduced if he only collected copies.

Among them, ten were perfect or legendary, forty were excellent, and the rest were shallow.

The reason why Andrew could collect so many breathing techniques was also because of the Dusk Holy Temple. The Dusk Holy Temple attracted many Imights from many clans, and Andrew was able to collect so many breathing techniques because of the Dusk Holy Temple.

Of course, some of them were found by Andrew himself..
