

## Wizard 739

### Chapter 739: Dream Dragon! (3)

"In that case, I don't have to worry about my breathing techniques breaking through for the time being."

Levi was in a good mood.

After obtaining the breathing technique inheritance diagram, Levi bid farewell to Andrew and Kelvin before continuing to travel to the Peacock Kingdom.

On one hand, it was nostalgia. On the other hand, he could personally witness some changes in the human world through his travels and analyze the situation in the human world so that it would be convenient for his subsequent actions.

During the Month of Winter, Levi ended his trip with Kelvin.

Levi had passed all kinds of tests. He took Kelvin across the ocean to Devil's Sea and saw the island hidden in the fog.

"I wonder how the knights are developing."

As soon as he landed on Dusk Island, Kelvin looked at the magnificent holy temple hidden in the mountains.

After spending some time with Levi, Kevin learned that the Ancient Saint was the Commander of the Twilight Knights.

Only legendary knights were qualified to be an official member of the Twilight Knights!

This was completely beyond Kelvin's imagination. What kind of organization had a legendary knight as the minimum requirement? Could they recruit people in the human world?

However, when he arrived at the Dusk Holy Temple and saw the few powerful knights guiding the reserve members of the knights on the training ground, he knew that he had entered a new world.

The Blood Knight, Black Knight, and Divine Light Knight were guarding Dusk Island.

Dusk Island had always been in seclusion. Unless Levi's territory was in danger, they rarely took action.

Therefore, most of the time, these three experts were cultivating and training the Knights on Dusk Island.

Among them, the Divine Light Knight was the last to join, so Levi did not know this person at all.

Seeing Levi's arrival, the Blood Knight and the Black Knight were excited.

"Divine Light Knight, let us introduce you to a big shot, hehe!" the Black Knight said happily.

The Divine Light Knight's expression changed as she followed behind the Black Knight and the Blood Knight. She felt uneasy. Could it be that the supreme knight who had stepped into the supreme realm of knights had arrived?

With an uneasy feeling, the Divine Light Knight saw this important person.

The big shot was wearing ordinary knight armor and looked ordinary. His silver hair was scattered, and his angular face revealed the vicissitudes of life.

It was obvious that he had experienced many things. His eyes were deep and distant.

"Commander! You're finally back. You've been gone for 50 years!" The Black Knight laughed loudly.

"That's right. In the blink of an eye, 50 years have passed." Levi sighed. Staying in the Wizard World for a long time made it easy for people to forget the passage of time.

"It seems that the two of you have broken through the legendary shackles and stepped into the second step of the path of knights." Levi sensed the powerful vitality of the two of them, which was similar to Emperor Mu's.

"Without you to guide us, even if we die of old age, we won't be able to step into a new realm." The Black Knight sighed.

"By the way, Commander, this is the Divine Light Knight, our new member.

She's from the current royal family of the Peacock Kingdom." The Blood Knight said.

As the vice commander, he was also qualified to recruit new members. Levi also trusted the Blood Knight's judgment.

"Welcome, Divine Light Knight. I am the commander of the Twilight Knights, a supreme knight."

"Divine Light Knight Denise greets Commander! " Denise stabbed her sword into the ground in front of her and knelt on one knee, bowing to Levi.

This was a great bow from a knight to her lord in human culture.

"Please rise." Levi raised his hand gently, and Denise's kneeling body stood up uncontrollably.

This was a very ordinary second -ring spell. Levi did not show off this move to show off.

He hadn't been back for a long time, so he needed to establish his prestige among the knights.

And where the prestige of a knight came from was strength.

"Thank you, Commander." Denise stood straight at the side, looking valiant.

Kelvin's expression was extremely colorful.

"The Blood Knight and Black Knight are the legendary figures mentioned by the bards. They are still alive. Not only are they still alive, but they have also long broken through the legendary realm and stepped into a realm that no other legendary knight in history has ever reached.

"Then how powerful is the Ancient Saint Lord who founded the knights, or the supreme knight? If the path of knights, legendary, is only the first step... Then I'm not a grand knight yet, am I?"

At this moment, Kelvin finally realized that knights were not antiques from the old era. He was just ignorant.

In this uninhabited outer sea region, this group of secluded knights had already opened up a new path of knights.

"There's also a chance for me to take revenge." Kelvin thought of the strange Blue Frost Undead who had easily destroyed his territory.

If he had the strength of the Blood Knight, perhaps he would be able to fight that strange person.

Baron Reed didn't lie to him. This was indeed an organization with limitless light and future!

"Now, our Twilight Knights are filled with talents. Next, the human world will welcome the convergence of the Heavenly Spheres and the drastic change of the Dark Wave Revival. I've returned this time to lead everyone to welcome the ongoing changes of the era! Let our Twilight Knights rely on this new wave to soar 90,000 miles!"

Levi said confidently.

He had been hiding for nearly a hundred years. Along the way, he had silently accumulated and cultivated his experience. He had never made it known..
