

Wizard 742

Chapter 742: Mortal Barrier! (1)

Dusk Holy Temple.

Extreme Path Palace.

"The level 3 Intuition Special Effect covers a wider range. The accuracy of Intuition has also increased. At the same time, the resistance of Perception has greatly increased.

"In addition, the previous Favored By The Night transformed into a brand new

Special Effect Nightmare Walker after fusing with other breathing techniques."

[Nightmare Walker: When the sun sets and everything is silent, the child will crawl into bed and fall asleep. The night monster that represents fear will descend to the mortal world. According to the old legends, its name is "Nightmare".]

[In the dark state, your various attributes will increase significantly.]

[Without night, you can create night. Close your eyes and consume all the Heavenly Nightmare Power in your body. With you as the center, the area within a hundred meters will fall into night. The duration of the night is related to your endurance attribute.]

"Nightmare Walker is equivalent to a strengthened version of the Favored By The Night form. Without conditions, forcefully create conditions that are no longer restricted by the environment and fully utilize the subjective mobility of the breathing technique." Levi was excited.

"In this way, after the fusion, other than the Giant Dragon Warrior and the Furious Dragon Lord, there is another form, the Nightmare Form."

Of the remaining two Special Effects, Danger Perception was actually Spider Sensing, but the effect was slightly stronger than Spider Sensing.

The Heavenly Wind Heart did not change.

"In short, the greatest gain is Nightmare Walker.

"It's time to come out of seclusion. It seems that there's a troublesome matter in the territory that needs my help."

Levi walked out of the Extreme Path Palace.

The Extreme Path Palace was the name he gave to his great hall.

Every official member of the Twilight Knights had their own special hall.

The Divine Light Knight's Five-Colored Palace, the Blood Knight's Blood

Palace, the Black Knight's Night Palace, and Knight Hogg's Ashen Palace.

"Commander, Andrew has something urgent to discuss with you," the Blood Knight said when he saw Levi come out of seclusion.

"I understand. I came out of seclusion to resolve this matter. I'm leaving Dusk Island for a period of time. I'll leave this place to you guys," Levi said.

"Understood, Commander."

"How are the results of Kelvin's training?" Levi asked.

"Kelvin is very talented. According to his current progress, he will definitely reach legendary in the future," the Blood Knight said.

"Pay more attention to him in the future. He's the descendant of an old friend of mine." With that, Levi left.

Flower City.

It was the Month of Flowers. On the plain outside the city, flowers bloomed and wild bees danced. It was full of vitality.

On the other hand, there were some haggard people with abscesses everywhere in the city.

Levi watched everything calmly.

"Although technology in this era is backward, with transcendent power like the Church, logically speaking, there shouldn't be such a large-scale plague. The plague came too suddenly. There should be a faction secretly causing trouble." Levi met Andrew in the castle. He was arranging for people to burn the corpses.

"How many people have died?" Levi asked.

"Ever since the plague appeared in the city, hundreds of people have died in a month. We tried all kinds of medicines and methods, but we couldn't cure the plague," Andrew said.

"What's the Church of Holy Light doing? These residents are their believers," Levi said calmly as he looked at the church in the distance.

To be honest, the current territory was not of much use to Levi.

He had already found the alternate plane. When the time came, he wanted to use the alternate plane as his Twilight Knights' base and his future base.

However, he had relied on his territory to gradually develop. Now that he had the ability, he could not bear to see so many citizens in the city die from the plague.

"The Church no longer cares about Flower City. Many cities in the south have suffered from the plague. Compared to Flower City, Flower City's disaster is the

Smallest because of the protective equipment you made," Andrew said.

"I understand. Go and find me a patient infected with the plague."

"Will do."

Not long after, Andrew brought a girl over.

This girl looked to be about 20 years old. She was an ordinary farm girl. Her hands were covered in calluses because she worked in agriculture. On the back of her hand, there was a foul-smelling abscess.

Her expression was numb because not long ago, the plague had already taken away the lives of all her relatives. They did not even have the chance to be buried and could only be taken away and cremated.

Levi brought the girl named Cui Li to a secret room.

Then, he gently tapped Cui Li's forehead and she fainted. This was a very simple cantrip that could hypnotize people.

"Let me see what's causing this."

After saying that, Levi's right arm suddenly turned into a blood fog and surged into Cui Li's chest.

Not long after.

When the blood fog returned, Levi's expression was cold.

"Zombie plague..."

Levi was a Third-Circle Pharmacist and had some knowledge and research on plagues.

His initial guess was that the plague was caused by a zombie plague. If Levi did not guess wrongly, it should be a ghoul.

According to Franken's monster manual, ghouls lived in dirty and rotten ancient tombs all year round and liked to be accompanied by corpses. These guys liked to sneak into the tombs and secretly eat the corpses of the rotten tomb owners, and they always carried all kinds of germs with them.

There were many potions to treat the plague in the Wizard World. Although there was no one specialized in treating the zombie plague, Levi felt that it was only a matter of time before he concocted a suitable potion with his potion knowledge..
