Chapter 744: Mortal Barrier! (3)

"Then I'll get the priest to analyze the ingredients of this potion and replicate it to develop our holy water. Because we didn't deal with the plague in time, some believers of the people started to lose their faith. Some people even secretly set up a lewd temple for Miracle Doctor Watson to worship him. It's simply disrespectful to the Heavenly Father! We've already destroyed it," the saint said.

"This plague started in the Tuva Empire and spread to the Peacock Kingdom. Someone is deliberately targeting us. As for who it is, I think I already know, but I still need to verify it," the saint said.

"Lord, it seems that our Church has been silent for too long, and some forces are starting to stir. Next, we need to do something to establish our prestige and consolidate the faith of a benevolent father," the saint said with a gloomy expression.

"That's right. We have to deal with the plague. It doesn't matter if a few people die. It's a big deal if it affects the faith of a benevolent father.

"Recently, the astral world has also welcomed some turmoil. The person in the chaotic wilderness has started to cause trouble again. The kind father and the Holy Mother have to deal with it carefully.

"Among the Seven Gods, other than the Holy Mother who is trustworthy, the other five all have ulterior motives and are difficult to trust.

"The next Dark Wave is destined to be a chaotic era. Due to the convergence of the Heavenly Spheres around the Mortal Barrier of the Seven Kingdoms

Continent, the strength brought about by the collision of planes also is starting to tremble.

"After the battle of the gods, some of them stayed on the other side of the Mortal Barrier. They might not have died yet. These might be our enemies. We need to be prepared in advance."

The saint's expression changed slightly when he heard the Mortal Barrier. "Lord, will the Mortal Barrier be broken?"

The saint looked at the saint calmly and said softly, "The Mortal Barrier will definitely be broken. It's just a matter of time. Nothing is eternal. Divine power is not lasting. Gods can also fall.

"If you were in the astral world now, you could see that in the boundless Land of Darkness, there are already many planes around Nora that were attracted over and are about to converge with Nora's plane.

"This is the power of the plane. Even the Gods cannot stop it. Moreover, this plane convergence is the largest and longest-lasting convergence in history. After this convergence, some small planes might be integrated into Nora's plane forever. Nora's plane will expand again, and its plane level will undergo a transition.

"Those sub-dimensional portals that are folded on the surface of Nora's plane will also return to Nora's plane. What does this mean? Do you know?"

The saint's expression was solemn as he muttered, "The wizards will return..."

"That's right. Not only will wizards return, but because of the plane transition in Nora, the upper limit of Legendary Wizards will increase again. In that case, the gap between Legendary Wizards and the Seven Gods will be infinitely narrowed. The gap between some powerful Legendary Wizards and gods will be close to none... The wizard civilization will be even stronger," the saint said.

"In that case, the deterrence of the gods to the wizards will be even smaller... Those blasphemers will be even more unscrupulous," the saint said.

"In theory, that's the case. However, the convergence of the Heavenly Spheres is a very long process. For a long time, the wizard civilization and the gods will still be peaceful.

"However, we have to be prepared. Faith is the foundation of the gods. If the entire Nora plane, including the Forsaken Land of the God, can become the place of faith of a benevolent father, then the strength of the benevolent father will rise to a higher level. Wizards can become stronger, and so can God.

"Therefore, our goal is to sow the faith of a benevolent father in the entire Nora plane and spread the glory of a benevolent father."

"I know what to do." After the saint finished speaking, he took the Hundred Flowers Potion and left quickly.

The saint's gaze was deep as he muttered to himself, "Hundred Flowers

Potion... Could it be that Flower Knight who entered the Wizard World?"

The saint naturally knew a little about the famous legendary knights in history.

As far as he knew, the Flower Knight stepped into the Wizard World after reaching the legendary realm and became a wizard. This potion was developed by a wizard, also known as the Hundred Flowers Potion. That “Miracle Doctor Watson” was most likely the “Flower Knight”!

About a month later.

The Church announced that they had successfully developed “Holy Water No. 99” that could resist the plague.

After the holy water was released, it was quickly bought out by the major nobles and members of the royal family. In addition, the Church of Holy Light also gave the holy water to high -quality believers or fanatics first. This way, they could consolidate their faith.

Then, the spread of the plague in the cities in the south of the Peacock Kingdom was gradually stopped.

Dusk Island.

Holy temple.

Levi held a Holy Water No. 99 in his hand.

"Plagiarism! Infringing on my intellectual property rights. This Church is really shameless." Levi was indignant.

"Forget it. In that case, I've achieved my goal. After all, my original intention was to save these miserable mortals. It's fine as long as the outcome is good."

Levi calmed himself down.

Miracle Doctor Watson was naturally himself.

The reason why he spread the potion in so many southern cities was partly to save more people, and partly to prevent Flower City and Storm City from being too outstanding and being suspected by the Church or the mastermind behind the plague.

After all, Flower City and Storm City were both fiefs of the Black Snake family. If Levi only saved these two cities, some people would make the connection and might dig Levi out..
