Chapter 745: Mortal Barrier! (4)

As for being plagiarized by the Church, he did not care. The sockpuppet of the Miracle Doctor Watson would end here.

If the influence of the miracle doctor continued to increase and seriously threatened the foundation of the Church's faith, the Church would do everything to find the Miracle Doctor Watson. To Levi, it was not worth it.

Although he was powerful now, he would not clash with these unreasonable fellows from the Church as much as possible.

"In that case, the plague problem is resolved. Next, I'll focus on cultivating the Golden Snake Breathing Technique. I'll cultivate the Golden Snake to level 14 as soon as possible and advance to the Second Transformation of the Blood Source. Then, I'll go to an alternate plane to investigate the situation."

Levi's plan was proceeding in an orderly manner.

Holy Brilliance Calendar Year 1090, Month of Vitality.

The 59th year of the Great Expedition.

The Realm of Frost was also known as the Realm of Ice.

Compared to the Realm of Azure Cloud, which occupied the entire Endless Sea, the area of the Realm of Ice might not even be 1% of the Endless Sea.

The entire Realm of Ice was white as far as the eye could see.

Snow Mountain, Snowfield, Frigid Earth, Glacier, Ice River... These formed this world that only had winter. Ultimately, it was because the frost elements here were too dense.

Although the flames of war in the Realm of Ice were not as intense as in the Endless Sea, they could not be underestimated.

Silver Dragon Snow Mountain was a group of snow mountains located in the northern part of the Realm of Ice.

In the snow, a team of wizards was fighting.

The two groups were the White Bear Tower and the Polar Cave.

The White Bear Tower was a Second-Circle Wizard Organization in the Silver Dragon Snow Mountain Region. It belonged to the righteous wizard faction.

The Polar Cave was a dark wizard organization. It was also a Second-Circle Wizard Organization. The wizards of this organization lived underground all year round, and their members were mostly wanted criminals or murderers.

These two wizard organizations were already the strongest in the Silver Dragon Snow Mountain area.

A witch wearing a bear fur coat was carrying a spear on her back and holding a staff in her hand. She was fighting the enemy.

Her enemy was a bald man with a bare upper body. The burly man was not afraid of the cold of the Silver Dragon Snow Mountain at all. He was a rare first-circle body-refining wizard.

"Madam Elsa, I heard that you're a queen in the human world. Why don't you come to our Polar Cave and let you experience the joy of being a queen in the crypt..."

The bald wizard grinned. His fists were covered in frost, and his arms were like ice sculptures as he threw them at the Elsa witch.

The ferocious fist shattered the ice arrow that Elsa shot over, and the arrow turned into ashes.

"My body-tempering technique has already reached the Small Accomplishment realm. Ordinary first-circle ice spells are almost useless against me. With your strength, you should obediently surrender. This way, after you're captured alive by me, you can avoid some physical pain. Hehe!" The bald wizard shot out explosively, and his ice palm grabbed towards Elsa's chest.

"Don't even think about it!" Elsa threw away the magic wand and pulled out the spear on her back in anger.

This was the weapon she had forged for herself, the Evernight Spear.

It was made of mithril and mixed with a lot of Luminant gold.

There was a click.

The spear repelled the ice hand.

Elsa used the momentum to retreat.

Then, her spear shot out like a dragon, and the silver spear light charged towards the enemy.

"Interesting. I've long heard that you're a legendary knight in the human world. It's true. Tsk, tsk, tsk, such a woman is even more exciting... A legendary female knight, the queen of a country, and a female wizard. I'm drooling." The bald wizard did not retreat but advanced.

His body tempering technique was called the Ice Body Tempering Technique.

It was a body-tempering technique that he had unintentionally obtained from an ancient wizard relic.

This technique used the Ice Meditation Art as the foundation. It combined the Ice Crystal Body, Ice Skin, Ice Muscle Jade Bone Technique, and many other spells of the School of Ice to form this set of wizard's ice body tempering techniques.

After mastering it, he could give birth to the Ice True Form. With a raise of his hand, he could transform his body into eternal ice and obtain an increase in defense and strength.

If it was refined successfully, it was said to be comparable to the legendary Frost Giant race.

The Frost Giant was one of the most powerful races among the giants. The average strength of its members was comparable to Intermediate Wizards!

He had only attained Small Accomplishment in the Ice Body Tempering Technique, but it was already comparable to a First-Circle Wizard. The power of this body tempering technique was obvious.

Elsa was furious at being humiliated, but she quickly regained her rationality.

Her talent as a wizard was not bad. It was a relatively rare talent for water and wind elements. This kind of double affinity was extremely suitable for practicing the spells of the School of Ice.

Water and wind gave birth to ice. If it were a double affinity like fire, wind, or earth, they would not be able to cultivate ice spells.

Other than those extremely rare possessors of special talents, Water and Wind Affinity was the first-grade talent of the School of Ice.

However, it was too late for Elsa to embark on the path of a wizard. She had already missed the best time to cultivate. Although she relied on her talent to catch up, she had only cultivated to the realm of an ordinary first-circle wizard and was still a little short of a senior first-circle.

Fortunately, she was also a legendary knight in the human world and practiced the Aurora Breathing Technique of the Evernight Royal Family.

Aurora Bird.

Legend had it that it was a divine bird that was pure white. It was said that this kind of bird lived in the Land of Darkness all year round.

Every time it woke up, the lustrous white light would spread throughout the Evernight Kingdom. Wherever it passed, the night would dissipate and the light would remain forever. Hence, it was called the Aurora Bird..
