

Wizard 747

Chapter 747: Level 14! (1)

Holy Brilliance Calendar Year 1080, Month of Grass.

Dusk Island.

Extreme Path Palace.

In the secret room, a burly middle-aged man gently tore off a layer of scales on his body.

Slash!

Like a painting, the scales were taken off unscathed.

"It's the second transformation. Speaking of which, I wonder if this old snake skin can be used for Weapon Refinement... Using what I have on me feels strange for Weapon Refinement."

Levi neatly folded the snake skin he had shed and placed it in a box.

In this box, Levi's previous snake skin was also placed.

"It's the same as when I changed my teeth and hid them when I was young in my previous life. This is all a testament to my growth," Levi muttered.

"100 years old, Second Transformation of the Blood Source Realm, another breakthrough in the path of knights." 100-year-old Levi opened the proficiency panel.

Levi—

Golden Snake Breathing Technique: Level 14 (1/600,000). Special Effects: Transformation Scales (level 2), Dragon's Intimidation, Golden Snake Playing with Water.

In short, the change from level 13 to level 14 was not very big. It was just a simple increase in quantity and defense.

This was also what Levi expected.

After Levi's test, the defense of the level 2 Golden Snake Scales should be at the level of a Grade S third-circle defensive spell, similar to Levi's Aether Dominance's Heavy Water Barrier.

However, the durability of the Golden Snake Scales was higher than the Heavy Water Barrier.

Moreover, as its Proficiency increased, its defense would also increase slightly. It was just that it could not undergo a huge change like leveling up. When the Golden Snake reached level 14 Perfection, Levi estimated that its defense should be at the level of a fourth-circle spell.

Compared to the Knight Breathing Technique which had improved greatly over the years, the Dath of wizardry was relatively weak.

The cultivation speed of the human world was definitely inferior to that of the Wizard World. Even if Levi set up an elemental conversion array, it could only alleviate this problem and could not cure it.

Of course, the slowness was relative.

Levi's spiritual force had reached 120 points, and his spell power was more than 4,700 points.

This speed was still better than most wizards of the same realm in the Wizard World.

In addition, in terms of spells, there were the level 8 Maximum Glacial Sword Finger, the level 8 but not Maximum Sun Flame Explosion, the Heavy Water Barrier, and so on.

"With my current strength, it would be safer for me to face Ancient Saint experts from Ancient Saint Empire. It's time for me to set off for Ancient Saint

Empire."

Levi left the Extreme Path Palace.

Levi had only mentioned this trip to the Blood Knight, but he did not say where he was going.

Three days later.

Levi followed the previously recorded coordinates and arrived at the island with the altar.

On the island, Bo Gang had been in a semi-sleep state for several years.

The Lizardmen had settled down on the island and fished for a living. They had even built a temple, and there was a statue in the temple.

It was Levi's Fire Dragon True Form.

The person in the statue had a dignified expression. He was muscular and his muscles were bulging. His entire body was burning with flames and his scales were clearly defined. His snake tongue was flung far away. "Ancient Saint Volcano Statue."

Levi did not know whether to laugh or cry when he saw this.

He did not expect that one day, he would be worshipped by a group of Lizardmen and become their idol.

However, the level of the sculpture was very ordinary. It was rough and did not have one-tenth of Levi's charm and handsomeness. Levi almost could not recognize him.

"Forget it, so be it." Levi didn't want to dampen the enthusiasm of these Lizardmen to worship him.

He also needed the Lizardmen to cooperate to explore the other world.

"Bo Gang, continue to guard this place. Without my orders, no one is allowed to enter or leave this place," Levi said.

A huge head poked out from the pile of rocks before him and nodded.

"Kaku, follow me. The rest of you, stay here." Levi called out to Chief Kaku. There was no need to bring the others.

"Yes, Lord." Chief Kaku looked excited. He could be alone with the Ancient Saint Lord. This was how highly Ancient Saint Lord thought of him.

I, Kaku, am indeed the Lizard of Destiny.

Levi and Kaku stepped into the center of the altar and disappeared.

Seven Kingdoms Continent.

In the far north, in the Evernight Kingdom.

Snow Capital City.

The church of the Church of Snow stood tall on the top floor of the church.

From here, he could overlook the entire Snow Capital City and see the statue of the Snow Goddess in the square outside the city.

A young noble lady in a blue palace dress had a cold expression as cold as ice. In her eyes, snowflakes were revolving like a hexagram.

Her silver hair draped over her shoulders and fell to her waist.

She was Elsa's daughter, the saint of the Church of Snow, Caroline.

"Lord saint, the emissary of the Church of Holy Light is here to see you." The old granny's voice came from outside the door.

"Let him in," the silver-haired saint said.

A tall knight in silver armor walked in with a helmet.

"Tell me, why is Ye Lin looking for me?" Caroline asked.

"Saint Ye Lin wants to work with you, Saint Caroline."

"Oh? He wants to work with me? It seems that our two families are not that close. Besides, if Ye Lin cooperates with me, what will that woman from the Church of Earth think?" Caroline said expressionlessly.

"Of course, I've already informed the one from the Church of Earth," the saint said with a smile.

"Tell me, what's the collaboration?" Caroline asked.

"In the next great era, we will stick together for warmth," the saint said.

"Stick together for warmth? Do we saints need to stick together for warmth? This is something only the weak would do." Caroline sneered..
