

## Wizard 779

### Chapter 779: Flower Knight (2)

"Alright." Naturally, Levi was happy to do so.

Outside, they chatted as they walked.

"When you see Madam Triss later, don't call her 'Senior'," said Celia. "It will make her unhappy, even though she is one of the few high-level pharmacists in the Witch's Family and one of the vice presidents of the Pharmacist Association of the Endless Sea."

'I'm just here to be a temporary worker. Is there a need to be so grand...' Levi complained inwardly. He suddenly remembered some small, run-down units in his previous life. There were many rounds of interviews, and in the end, the boss had to interview them.

However, considering the current situation in the Endless Sea, it was understandable.

Following that, Celia told Levi about some of the taboos, including the fact that he could not extract dragon blood without permission or steal the roots of the Magic Tree...

It could be seen that these things had definitely happened in the past.

When they were almost done chatting, Celia received a notification from Madam Triss.

They returned to the cabin. A blonde, curly-haired witch in a nightgown, who looked a little casual and had disheveled hair, was leaning lazily on the chair.

"I've read your information. You're from the human world, and you joined a wizard organization in Area 9 of the outer sea region. You're now a nomadic wizard. At your age, it's not bad for you to become a third-circle pharmacist. That's why I chose to meet you alone," said Madam Triss.

"To be able to get Madam Triss' attention, I am in awe and trepidation." Levi quickly said.

The information collected by the Witch's Family was all about him in the early days. Later on, because of the damage to the Heart of Skynet, the information was not updated, and Levi had to make it up himself.

Other than hiding some key secrets and events, Levi basically provided the Witch's Family with all his actual information, including his talent as a pharmacist. Exposing some of his talent appropriately would make things easier for him.

Now, it seemed that the reason why Celia treated him so well was probably because she knew about his talent as a pharmacist.

"Unfortunately, you're a male wizard. If you were a witch, I could let you join the Witch's Family... Why don't you learn a sex change spell? Although the Witch's Family is strictly prohibited from recruiting transgender witches, considering your talent, we can make an exception for you." Triss smiled playfully.

For a moment, Levi could not tell if she was joking or serious.

"I still want to be a male wizard..." replied Levi.

To be honest, he did not want to join a high-level wizard organization. That would be too restrictive. It was already good enough to be able to work part-time and maintain a cooperative relationship.

"I'm not joking. This is a temporary badge. With the badge and spell, you can travel between our organization and Nether Capital as you wish. In the Witch's Family, male wizards are not allowed to stay overnight, so you can return to the Nether Capital after you accept the pharmaceutical missions here. Celia is your contact person. Your pharmaceutical missions will be assigned by her. Unless it's some special potions, the success rate of ordinary third-circle potions cannot be lower than 80%. Otherwise, we will terminate the temporary employment agreement. You will also have to compensate for the breach of contract and the corresponding cost of the materials lost..."

Triss handed a green leaf-shaped badge to Levi. This was the symbol of the Witch's Family.

"There's nothing else on my end. If you have any questions, just look for Celia." Triss yawned and patted her lips with her slender and beautiful fingers.

"Thank you, Madam. We'll take our leave." Levi and Celia left.

After receiving the potion-making mission and materials, Levi was about to leave with Celia when a witch dressed in gorgeous clothes walked up to him.

"Sir Levi, why are you here?" The witch looked at Levi in shock.

Levi took a look and saw that it was a familiar face. It was Rose Witch, Newt's partner, one of the 24 Flowers.

"I'm here to interview for a temporary job... Long time no see. How is Wizard Newt now?" Levi remembered that serious man.

"Newt found a job as an appraiser professor in a wizard organization. He's doing his old job," replied Rose Witch.

"Which organization?"

"Starfire Wizard Academy. It is a recently rising Fifth-Circle Wizard Organization."

Levi's memories suddenly returned to the Black Pearl Wizard Market.

'It's the wizard organization that Garcia, Sparrow, and the others built... I didn't expect it to be doing so well now. This is quite unexpected.' Levi pondered.

"I still have some matters to attend to. Where are you currently staying, Sir Levi? The Nether Capital? When I'm done, I'll look for you to catch up." Rose Witch asked.

"Yes, I'm temporarily staying in the Nether Capital. You can contact me at the Witch's Family," said Levi.

After bidding farewell to Rose Witch, Levi returned to the Witch's Family pharmacy in the Nether Capital with a spell and a badge.

It seemed that this was the teleportation point to the Witch's Family's headquarters.

"Sir Levi, you know the Flower Witch?" asked Celia.

"No... I don't know her. I just know Rose Witch. Is she also a temporary pharmacist here?"

"No, the Rose Witch is also an official member of the Witch's Family," said Celia.

"Isn't the Rose Witch a member of the Flower Witch? I remember that Flower Witch is the leader of the Sword Flower Tower. Why is she here?"
