

Wizard 785

Chapter 785: Evil Spirit! (3)

Actually, with his strength, he shouldn't be in such a sorry state. He was too confident and did not expect the enemy to be able to break his protective force field.

At this moment, Elsa immediately followed and beat him up.

She relied on her advantage in speed to cooperate with the strange legendary knight.

She also realized that although this legendary knight's attack power was unparalleled, his speed was a little insufficient. Compared to her extreme speed, he was still a little weaker.

Even Mina used the few cantrips she knew to attack the silver-haired wizard.

Under the encirclement, the silver-haired wizard fled in panic.

"Ape King Qigong, Moonshot!"

The burly wizard was fully focused. The Saint Ape Seed in his body roared, and endless Saint Ape power surged into his palm.

Boom!

The ice shook with an earth-shattering strike.

Then, the silver-haired wizard lay on the ground with his last breath, unable to believe it.

"What on earth defeated me..." He closed his eyes, unable to die in peace.

A huge foot completely crushed him, and his body shattered into pieces.

The wizard skillfully picked up the storage bags and the Wizard Tool that had fallen to the ground. He looked at the female knight who was panting and drenched in sweat.

"You must be Goddess Knight Elsa..."

"How... how do you know? Have you seen me before?"

"My name is Emperor Mu. I've never seen you before, but I know you."

"Emperor Mu... I think I've heard of this name before. Are you Emperor Mu of the Tuva Empire? The Fist of the Empire?"

"That's right. We can't stay here for long. Let's find a safe place to talk."

Soon, Elsa and Emperor Mu fled this place and found a safe place.

On the other side, the other Second-Circle Wizard temporarily retreated because he was missing the silver-haired wizard.

In a hidden ice cave.

"I didn't expect you to step into the Wizard World too." Elsa had yet to recover from the battle.

"I'm also very surprised to meet you here. I came with the Ocean School of Thought to support the Cold School's army. However, there was an accident during the teleportation and I was separated from my teammates. It's fate that I met you. I wonder if I can take up some of your time and introduce you to an organization with infinite light and future?"

After Emperor Mu left the Yellow Earth Continent, he discovered a special characteristic of his ancestral breathing technique during his training.

It was more suitable to cultivate in battle. The stronger one was, the braver one would become. Only in this way would one's cultivation be faster.

Legend had it that the Saint Ape was a combative existence. He must have inherited this attribute from the Saint Ape.

His commander, Levi, always told him not to fight and kill during cultivation. It was best to cultivate quietly. Safety was always the priority.

Unfortunately, this path wasn't suitable for Emperor Mu. He couldn't cultivate at home every day like his commander.

He had to fight and kill in the vast world to become stronger!

He felt that it was more appropriate to change the name of the Saint Ape to "Battle Saint Ape".

However, he seemed to have accidentally killed a disciple of a Fifth-Circle Wizard family in the process of tempering himself in battle.

Heaven took pity on him. He was forced. It was that kid who provoked him first.

That kid relied on the fact that his father was a Third-Circle Wizard of a wizard family to bully him fearlessly.

Emperor Mu couldn't take it anymore and punched his head.

Although he was a First-Circle Wizard, he was still a blood descendant of a wizard family. Emperor Mu was worried that the wizard family would take revenge, so he simply followed the army that supported the School of Ice to the Realm of Ice. He planned to hide here for a while and return after the matter calmed down.

There was still a tracking mark on his body now. However, it was obvious that they were not in the same Realm of the Unbelievers even though they were so far away. That wizard family would not be able to track him.

"Emperor Mu, what organization are you talking about?" Elsa asked curiously.

"Lady Elsa, do you think the legendary realm is the end of knighthood?" Emperor Mu was not in a hurry to answer. Instead, he asked a question.

"Right... It's been like this since ancient times," Elsa said.

"If I told you that there's still a way after legendary, would you believe me?" Emperor Mu exuded a confident aura. Elsa looked at this man in a daze. At that moment, he was so tall!

"I didn't believe it before, but after seeing you, I think I believe it," Elsa said with a bitter smile.

Emperor Mu nodded. "That's right. The path of a knight has no end. A legendary knight is actually only the first step to becoming a transcendent knight. There are still the second and third steps..."

Elsa listened carefully and couldn't help but sigh. "You're really a god. You can break through the shackles of legendary and start a new path of knighthood."

Emperor Mu shook his head and looked into the distance. He said calmly, "Lady, you're wrong. My path as a knight is only the second step. There's already someone ahead. He's our guide."

"What?" Elsa was shocked. Emperor Mu's words had overturned her understanding.

"There's no need to be too surprised. There are always some talented people in this world. It's just that they're too low-key and don't reveal themselves. Our organization is like this. If you're interested, we can sign a simple confidentiality agreement first. I can continue to introduce you," Emperor Mu said mysteriously.

"Let me think..." Elsa calmed down and began to wonder if Emperor Mu was fooling her.
