

Wizard 786

Chapter 786: Evil Spirit! (4)

Emperor Mu did not rush her. Instead, he looked confident.

"Haha, commander, you definitely didn't expect that I actually met the Goddess Knight in the Realm of Ice. Our Twilight Knights will finally have a woman!" Emperor Mu was proud. He didn't know that the Divine Light Knight Denise had already joined them in the human world.

A moment later, Elsa said, "I'm willing to sign the agreement."

Emperor Mu nodded and handed the agreement to Elsa to sign.

"Lady Elsa, the organization I want to introduce to you will be the lighthouse for all the knights in the world. Its name is the Twilight Knights. The vice commander is the once famous legendary Blood Knight, and the commander is an unknown big shot who has already stepped into the supreme realm of knighthood..."

"Who is it?"

"The supreme knight, Levi!"

Endless Sea.

Nether Capital.

There was a tavern.

Levi sat alone in a private room, drinking his wine.

Nameless Wine.

"Speaking of which, the grass on the grave of the Nameless Knight should be taller than me. The Blood Knight and the Black Knight have already been conquered among the seven legends of the Shining Tavern.

The Nameless Knight, the Golden Knight, and the Lionheart Knight were confirmed dead.

"My level is too low to conquer the Flower Knight. The only one left is Snow Knight Flair who bravely charged into the world.

"He's already hundreds of years old. There's a high chance that he's dead unless he's born with the bloodline of a longevity species or became a wizard."

Levi shook his head.

At this moment, chatting and laughter came from outside the private room. It seemed that the Rose Witch had brought her friend here.

Levi put away the Nameless Wine.

"Sir Levi, you're already here." The Rose Witch smiled. She was obviously in a good mood.

There were two wizards behind her. One of them was a male wizard wearing a blue robe with a golden lightning pattern on it. Judging from his spiritual force fluctuation, he was similar to the Old Golden Lion who had mastered two innate spells. It was very likely that he was a third-circle senior wizard.

This wizard was extremely handsome and elegant. He had the demeanor of a big family.

The other was a female wizard in a white robe with a daffodil pattern. When Levi saw this female wizard, he remembered that she had seen her before.

"As expected, the Whitewater Witch is still alive."

Levi remembered that before Area 9 fell, she and the Extreme Fire Ancestral Wizard were chased by the Black-Eyed Crow and disappeared.

It seemed that she had run back to the Star Sea. Thinking about it, it made sense. After all, she was different from the Extreme Fire Ancestral Wizard. The Extreme Fire Ancestral Wizard was a nomadic wizard and did not have a backer, but she did.

Naturally, the Whitewater Witch had seen Levi before. However, she did not greet Levi. At that time, she wanted to invite Levi to join the Monsoon Tower. Unexpectedly, the Monsoon Tower was destroyed by the Black-Eyed Crow and she almost died there.

"Sir Levi, let me introduce you. This is the Whitewater Witch. Like me, she's also one of the 24 maids of the Flower Witch. This gentleman-like wizard is Lehger Leo Letney. He's the pride of the Letney Family and a third-circle array wizard. Of course, he's also the partner of the Whitewater Witch."

After that, the Whitewater Witch smiled and said, "Sir Levi, we're old acquaintances, although we didn't greet each other."

Levi smiled and said, "There was something urgent at that time. I hope Lady Whitewater can forgive me."

Leo's expression changed slightly, but he quickly returned to normal. He coughed and did not say anything.

"Your Excellency Lehger Leo, it's our first time meeting. I hope our cooperation will go smoothly this time," Levi said kindly.

Leo nodded and said with a smile, "With Sir Levi's participation, this exploration of the ancient ruins should not be a problem." He looked at the Whitewater Witch and said jokingly, "I didn't expect you to

know Sir Levi. Such a young and promising transcendent biologist and a Third-Circle Pharmacist, he must be a descendant of a big family, right? Why don't you introduce him to me?"

"We only met at that time and didn't even greet each other. How can I introduce you? Besides, Sir Levi is not a descendant of any family." The Whitewater Witch rolled her eyes at Lehger Leo and said.

"I'm just joking. Let's get down to business. About the things to take note of during this exploration. Sir Levi, you must have a basic understanding of that ancient wizard relic, right?" Lehger Leo said and looked at the Rose Witch.

"That's right. I've been introduced to His Excellency Levi."

"That's good. I wonder if Sir Levi has a way to resist the Crimson Netherworld Sparrow's undying ability?" Lehger Leo asked.

"I have a way to stop its regeneration. Don't worry about that," Levi said. He had the Death Ember Power that could suppress the Crimson Netherworld Sparrow's self-healing ability.

"Alright, because I was the first to discover this secret realm, and I'm also in charge of the most important array part of this secret realm. I'll take 40% of the gains from the secret realm botanical garden this time. Do you have any objections?" Lehger Leo said.

"No problem. This was previously discussed by everyone," said the Rose Witch.

"I'm fine with it too, but the Crimson Netherworld Sparrow's corpse belongs to me. I don't care about anything else," Levi said.

That was why he had come. He would always be able to find medicinal herbs.

An almost extinct transcendent creature like the Crimson Netherworld Sparrow was the most important to him.

Leo nodded in satisfaction and said, "Yes, I'm very impressed that a nomadic wizard like Sir Levi can have such a mentality. After all, most nomadic wizards are poor and like to fight for trivial benefits. I've never liked them."
