

Wizard 787

Chapter 787: Evil Spirit! (5)

Levi was still smiling. "You're right. If there's a choice, who wouldn't want to be a disciple of a high and mighty family?"

He did not refute anything. That would be meaningless. A genius like Lehger Leo was not from the same world as him.

"Alright, let's go. Let's not waste any more time." Rose felt that the atmosphere was a little awkward. There were friends on both sides, so she could only come out and smooth things over.

"Alright, I know that you are a disciple of a large family clan. Rose and I are also nomadic wizards, right? If you look down on nomadic wizards, why are you with me?" Lady Whitewater said with a slightly plaintive tone.

Lehger Leo smiled. "You're different. Besides, I don't mean to look down on Sir Levi. Don't misunderstand. I'm just stating some objective facts. I agree with Sir Levi."

Levi only smiled and did not say anything. He silently followed behind the group of people.

After leaving the no-fly zone of Nether Capital, Levi took out the Flying Shark and prepared to enter.

Leo took out a small model of a wizard airship from his storage bag.

Then, he chanted an incantation. The model grew with the wind and kept growing larger. Finally, an exquisite and luxurious wizard airship appeared.

There was also a fierce golden lightning pattern engraved on the side of the airship. It was the emblem of the Letney Family. It was obviously custom-made.

"Sir Levi, your Flying Shark is a little slow. Why don't you take my Lightning Model? On the way, we can communicate with each other and discuss how to deal with the ferocious creatures in the ancient ruins. As far as I know, there is more than just the Crimson Netherworld Sparrow." Lehger Leo let the two ladies go up first. The Rose Witch frowned slightly. On the other side, the Whitewater Witch did not look too good either. She regretted saying that she knew Levi.

Levi revealed his white teeth and smiled warmly. "In that case, I won't stand on ceremony. Thank you."

Nothing happened along the way. Three days passed in the blink of an eye.

Somewhere in the Star Sea.

On the surface of the sea, a golden wizard airship descended with a bang. The huge waves cleared the sky, and the runes on the surface of the airship flickered. It directly broke through the seawater and drilled into the sea, turning into a submarine.

At the bottom of the deep sea, Levi suddenly saw a green light in front of him.

He was always on guard. Danger Perception had some warning. He did not know if it was because of the danger in the secret realm.

There was nothing wrong with Lehger Leo. Although his attitude was very arrogant, he shouldn't have any hostility. He just liked to show off.

"The entrance to the secret realm is up ahead. I'll put away the wizard airship later. Everyone, get ready to enter," Lehger Leo said.

At the bottom of the deep sea, there was a cave that was emitting green light.

Four wizards appeared at the edge of the cave, and a hideous strange fish rushed out. It was about the level of a first-circle transcendent creature, but it was easily annihilated by the golden lightning chain on Lehger Leo's fingertip.

"There are always some ants who overestimate themselves," Lehger Leo said with a smile. He snapped his fingers.

On his palm, golden electric arcs that were like spider webs danced, illuminating the deep seabed, including everything in the cave.

"The spells of the Letney Family are really something." Lady Rose could not help but sigh. The Whitewater Witch nodded in agreement.

"He can clearly use Lumos or Spiritual Perception... To be able to cultivate to this level, he's at least a hundred years old. Why is he acting like a little kid?" Levi complained.

He really could not understand the thoughts of the disciples of large families.

What was the point of being in the limelight? Other than that moment of vanity and satisfaction, it was meaningless.

There were three thousand Great Daos, and the hidden Dao existed forever.

Levi silently followed behind and stepped into the glowing door.

When he reappeared, Levi was already in a place filled with birds and flowers.

"Sir Levi, don't run around and try not to fly. The Crimson Netherworld Sparrow won't leave the botanical garden. Instead, it's the least dangerous here. From the last time we explored, there might be some other dangers in this secret realm. It's elusive and unpredictable. It's impossible to guard against it," the Rose Witch reminded.

Levi nodded and followed the group.

Everything around him was within the range of his Intuition Perception.

This secret realm was much larger than the Giant Tree Secret Realm and Levi's Hurricane Secret Realm.

The Giant Tree Secret Realm was a miniature secret realm, while the Hurricane Secret Realm was a small secret realm. This was a medium secret realm.

It was unknown how far they had traveled.

"Master... I'm hungry."

In the Greenfield Immortal House, Leon was lying on the ground. The strange insects were pacing back and forth, as if they were very anxious.

Levi was helpless. He sent some transcendent creature meat into it.

He realized that he seemed to have been left far behind by the Rose Witch and the others.

He quickly chased after them and followed behind silently.

As he walked, Levi realized that the Rose Witch and the others in front of him seemed to have stopped talking... He felt a little strange.

"Your Excellency Rose, how far is the botanical garden?"

Levi asked without batting an eyelid as he looked at the slightly standing hair.

The Rose Witch in front just kept walking without looking back or paying attention to Levi. The Whitewater Witch and Lehger Leo did the same.

The dense forest covered the sky and the sun. The light became dimmer and dimmer, and the sound of birds seemed to have gradually faded away. The air was a little wet and cold, and the faint sound of water dripping could be heard. There was a cold wind that seemed to be able to penetrate one's body and brush one's soul.
