

Wizard 790

Chapter 790: Strength Breaks All Techniques! (2)

"Let me see what the hell you are!"

Soon, Levi returned to the dense forest.

Rose and the others were no longer at the place where they had been resting previously.

Levi followed expressionlessly.

He did not know how much time had passed. As the voices of the conversation in front gradually appeared, he finally caught up with Rose and the rest.

They also seem to be looking anxiously for Levi.

The moment Rose saw Levi, she heaved a sigh of relief. She smiled and said, "Sir Levi, why did you fall behind? We were all waiting for you."

Levi's Intuition spread out and his heart skipped a beat. The "fake Levi" had disappeared...

The illusion was gone?

The Ashen Eye appeared.

The world in front of him turned gray again.

Rose and the rest were like clusters of bonfires with ashes flying everywhere.

"They're alive," Levi said to himself.

"Sir Levi, what's wrong? Are you feeling unwell? Did you encounter an evil spirit?" Lady Whitewater asked with concern.

When Lehger Leo saw this scene, his expression did not change. He only urged from the side, "Since we're here, let's hurry to the botanical garden. After dealing with the Crimson Netherworld Sparrow and dividing the medicinal herbs, let's leave. This place is indeed a little strange. It seems to be different from the last time we came. It makes me feel uncomfortable."

"I'm fine. Let's continue," Levi said with a smile. No one knew what he was thinking.

"Let's go."

The group set off again.

This time, Levi followed them closely.

At the same time, he opened the proficiency panel.

Levi—

Golden Snake Breathing Technique: Level 14...

"Phew..."

For some reason, Levi's nervous and anxious heart calmed down again when he saw the proficiency panel.

After an unknown period of time.

Levi and the others finally passed through the forest and arrived at the entrance of a deep valley. There was a layer of gray fog lingering in the valley, making it impossible to see the scenery inside. The outline of some plants could be seen inside, as if a silent person was standing there. Vaguely, they felt that something was peeping through the fog.

A simple road sign that was similar to the one in the mortal world stood there.

Botanical Garden.

Below the sign, there were also small blood-colored words.

[There are guardians inside. You are not allowed to trespass into the botanical garden to steal medicinal herbs. Otherwise, you will bear the consequences! —Botanical Garden Management Committee]

Levi stood in front of the sign and stopped.

Danger Perception. There was a sense of danger. The general direction was the botanical garden. It could be the Crimson Nether Sparrow or something else...

"Don't worry about that. This was established before this organization was destroyed," Lehger Leo said with a frown.

"Didn't you come here once? By the way, do you know why this organization was destroyed?" Levi suddenly asked.

Rose shook her head. Lady Whitewater thought about it and was also puzzled. She looked at her partner, Lehger Leo.

"Don't ask me. Although I was the first to discover this place, my understanding of this place isn't much better than yours.

"I guessed that he might have done some forbidden experiments, or he might have harmed a dark wizard.

"Sir Levi, if you're worried about the danger, just back off. Anyway, without you, I'm confident that I can take down the Crimson Netherworld Sparrow now. If it wasn't for Lady Rose, I'm afraid that she would go back on her word to you. Actually, I didn't want to bring you here," Lehger Leo said impatiently.

"Levi, don't worry. Didn't we sign an agreement not to hurt each other before we came in?" Rose revealed a helpless and pleading look. She did not want Levi to get into a conflict with Lehger Leo.

"Let's go. I'm just curious. I don't mean any harm."

Levi was not angry. He took the lead and stepped into the territory of the botanical garden.

As soon as he entered, he could feel the elemental power that seemed to be richer than the outside. Levi guessed that there should be a large-scale elemental convergence array to make it easier for plants to grow.

Levi could already hear some kind of bird chirping. It was deeper in the valley. The sound was a little hoarse, mournful, and intermittent...

"Be careful. There might be evil spirits hidden in the botanical garden. Lady, stay closer to me. This way, it'll be easier for me to protect you. Evil spirits are most afraid of flames and lightning. Lady Rose, you'd better not be too far away from me..." Lehger Leo suddenly reminded her. "Sir Levi, I heard that you're a body-refining wizard. You should be able to protect yourself, right?" He asked again.

"Yes, don't mind me."

The Heavy Water Barrier around Levi lit up, and the coldness gradually disappeared like the ebbing tide.

A force field vortex that was as bright as golden smoke also lit up around Lehger Leo. It revolved around him, forming a golden tornado. In the tornado, wisps of golden electric current interweaved into a net, forming a terrifying force field that could shatter all darkness.

The crackling sound of electricity was loud, and the fog in the botanical garden seemed to be dispersed.

It had to be said that this Lehger Leo was probably the strongest Third-Circle Wizard Levi had ever seen. He even suspected that the other party might have mastered three innate spells.

"If it's an illusion, everything that has happened so far is too realistic. Even I, a Third-Circle Wizard, can't see through the illusion..." Levi pondered.

Suddenly, the sound of insects grinding their wings could be heard in the fog.

Levi was about to attack when Lehger Leo stretched out his hand and pointed. A golden chain of lightning tore something out of the fog like a whip.
