

Wizard 796

Chapter 796: Blood Forged Divine Weapon, Knight's Life! (1)

The Extreme Fire Ancestral Wizard was also a legendary figure in Area 9. He disappeared because he was exploring ancient wizard relics. When he returned, he was already a Third-Circle Wizard.

Coulomb and Joann, who were working for Levi, were both members of the Extreme Fire Ancestral Wizard organization. However, after the Extreme Fire Ancestral Wizard was defeated by the Black-Eyed Crow and disappeared, these two people followed Levi.

To be honest, Levi was a little surprised to see the Extreme Fire Ancestral Wizard.

However, after being fooled so many times, Levi was no longer sure if this was real or fake.

Regardless of whether he was real or not, he just had to kill it.

A group of Death Falls fell under Levi's World Destruction Sword. A rain of gray crystals fell from the sky.

Levi planned to collect them after he was done. He would study some of them himself and send some to Owens in the Windmill Village when he went to the Ashen World next time. That guy's strength needed to be improved.

The Extreme Fire Ancestral Wizard did not speak and looked like a puppet.

He did not even use any spells. He only kept attacking Levi with Death Falls.

Levi relied on his powerful endurance and Death Ember Power to destroy all these Death Falls.

These Death Falls were especially weak. They were more like groups of creatures like the Toxic Swarm.

However, it might be a headache for other wizards. Even Fourth-Circle Wizards might be exhausted to death if they fell into it.

As another golden flame appeared, the Sun Flame Explosion erupted again.

Terrifying shockwaves swept out.

The Extreme Fire Ancestral Wizard's entire body seemed to melt.

His face was melted wax, as was his body. He turned into a pool of pus and evaporated under the flames.

The fog that enveloped this plain seemed to have faded a lot.

"He died just like that?"

Levi felt surreal. He stayed where he was for a long time.

Then, he came to the wizard tower that had been destroyed by his sword.

The array on the wizard tower seemed to have been destroyed long ago. It was covered in all kinds of vines and flowers.

Levi's Intuition swept across. After confirming that there was no danger in the wizard tower, he stepped in.

The damp walls of the tower were covered with slimy fungus, and there was the sound of dripping water in the darkness.

Everything inside was infected by the black Nameless fungus, be it living or dead.

"A virus? It's just that ordinary viruses infect living beings, but this virus... infects everything..."

Levi muttered to himself. He used the Heavy Water Barrier to protect himself. The surroundings were also emitting flames, so these fungi could not approach him.

Suddenly, Levi saw a book on an already fungus-covered bookcase.

"Dream Analysis by Freud".

"This should also be the relic of the Dreamland Steeple..."

When Levi saw this, he realized that an identical book had appeared in his hand.

The wizard leader of Dreamland Steeple, Daydream Wizard, was named Freud.

"Could this place have been invaded by the Nightmare World?"

Levi thought of a terrible thing.

The Dreamland Steeple was an organization dedicated to researching the Nightmare World. All the members of the organization had once taken hallucinatory potions and entered the Nightmare World.

In the end, he was lost in the Nightmare World and never returned.

Everyone had vanished into thin air in the Wizard World!

The Nightmare World was a very high-end world. According to the research of the Dreamland Steeple, it might be a high-dimensional spiritual plane like the Underworld and the astral world. It was not an ordinary material plane similar to Nora.

After an unknown period of time, Levi, who had gained nothing, saw a mirror on the third floor of the wizard tower.

This mirror looked ordinary, as if it was an antique artwork.

The frame of the mirror was also covered in mold, but the mirror itself was still clean.

Levi looked at the mirror and was stunned.

On the surface of the mirror, Levi was not the only one reflected...

And behind Levi, the spider-bodied monster with the face of a woman.

This woman's face looked exactly the same as the Beauty Snake and Beauty Chameleon!

It had eight compound eyes, each of which was made up of a human face.

Levi's expression changed.

The surging power of the Death Ember behind him surged towards the human-headed spider behind him.

The wall of the wizard tower was blown away.

There was nothing behind Levi...

However, the moment he looked at the mirror, he realized that the human-headed spider was clearly behind him.

"No... it's not behind me. It's inside the mirror!"

Levi was enlightened. He slapped out with his palm, and endless flames turned the fungus in front of him into nothingness. The wall was cleared.

After such a terrifying attack, the mirror on the wall was as good as new.

The spider's eight female faces revealed a teasing smile. It was the feeling of a hunter teasing his prey.

At this moment, Levi understood that the Extreme Fire Ancestral Wizard was only its puppet.

This strange human-headed spider was the main culprit.

He took out a breathing technique inheritance diagram.

Man-Faced Spider Breathing Technique.

This was the first Perception-type breathing technique that Levi had obtained. Along with Levi's progress, Spider Sensing and powerful Vibration Perception had become Levi's most important and commonly used skills.

"Man-Faced Spider, right?"

Levi asked with a smile, somewhat relieved.

The spider in the mirror ignored Levi. Its eight female faces stared at Levi.
