

Wizard 800

Chapter 800: Blood Forged Divine Weapon, Knight's Life! (5)

"I understand." Lady Whitewater nodded with a heavy heart.

"Thank you, Sir Levi, for saving me. I owe you a favor. I will work hard to repay you in the future," Rose said gratefully.

"I did it in passing. On the path of wizards, it's only right for us to help each other," Levi said.

If not for the fact that he had already appointed a future core member of the Twilight Knights, the Flower Knight, he might not have saved the two of them.

With the help of these two witches, it would be easier for Levi to deal with the Flower Knight in the future.

Rose nodded her head. Her evaluation of Levi went up another level.

Hence, Lady Whitewater and Levi bid farewell on the island. Levi returned to Nether Capital with Rose.

After returning to Nether Capital, Levi quickly went to the Witch's Family to submit the quest. The little witch, Kelly, was busy.

"Kelly, how many days ago was the last time I submitted a mission? I can't remember clearly," Levi asked.

"Sir Levi, it was seven days ago," Kelly said obediently.

Levi nodded and left the Witch's Family, deep in thought.

Returning to the wizard tower that he had rented, Levi closed the array.

He carefully checked if there were any special marks on his body to prevent himself from being schemed against by the Man-Faced Spider.

In addition, Levi also checked the Crimson Netherworld Sparrow in Alice's ring and even the other transcendent creatures.

In short, he was a little worried about everything brought out from the secret realm this time.

In the end, everything was normal, and Levi was relieved.

Before long, Levi used the bloodline essence of the Nightmare Crown Lizard to make a Dream Dragon Potion.

He took a little and experimented. He saw that his proficiency in the Dream Dragon Breathing Technique had increased significantly compared to his normal cultivation.

"As expected, this is the Nightmare Lizard. It should be a superior substitute."

Levi breathed a sigh of relief.

This way, in this secret realm.

He had actually solved the two most difficult secret medicines, the Undying Bird and the Dream Dragon, in one go.

"Algerta, take care of the house. I plan on going into seclusion for some time. Remember to send the potions I made to the Witch's Family regularly," Levi said.

"Alright, Master." Among Levi's fur tribe, Algerta had entered the legendary knight realm a long time ago. Under the condition of transforming into a Frost Wolf, her strength was no weaker than a senior first-circle wizard.

As for the other three fur clans, so far, only Tiga had become a legendary knight. The other two should have failed.

Although the lifespan of fur clans was slightly shorter than that of human clan leaders, it was also limited.

If they couldn't become legendary before the end of their lifespan, Levi would be helpless. He had already created excellent training conditions for them.

Levi had no intention of including the legendary knights of the fur clan in the Twilight Knights system for the time being. He would still use them as his servants.

In the blink of an eye, half a year had passed.

Levi's pharmacy, cultivation, and spiritual force gradually increased in the Nether Capital. At the same time, his proficiency in the Death Ember Breathing Technique and the Dream Dragon Breathing Technique also began to advance by leaps and bounds.

At the same time, Levi's Maximum Level 7 Thunderbird advanced to level 8 through the proficiency panel after he had constructed the spell model structure of the Thunder Snake Technique.

Levi—

Thunder Snake Technique: Level 8 (1/100,000)

The attack power of the level 8 Thunder Snake was 24 Cas, which was not yet Perfection. Levi was probably at the maximum of level 9, which should be around 30 Cas.

As he chanted, lightning appeared on his fingertips. Like a long snake, it burrowed into the void and crackled.

"The Lightning Faction is so cool." Levi couldn't help but praise.

After collecting spells during this period of time, he had basically decided on the direction of his future innate spells.

Of the three third-circle innate spells, he planned to use one for attack, one for defense, and one for control.

In terms of attack, it should be either the Burning Faction or the Lightning Faction. There were too few spells in the Bronze School, so it was not convenient to combine them.

Then, he could synthesize a defense and control.

Levi's idea was that apart from some functional spells, the main combat spells were quality rather than quantity.

At the third-circle stage, he could create three top-grade innate spells and cultivate all of them to the maximum level. This was completely enough. It was enough to fight against ordinary Fourth-Circle Wizards.

After reaching the third-circle, even though the wizards had mastered many spells, when it came to real battles, they usually focused on instantaneous, energy-saving, and powerful innate spells.

Levi came out of seclusion this time to continue refining a batch of potions needed by the Witch's Family.

On the other hand, he wanted to forge a suitable weapon with the Heavenly Fire Meteorite Metal.

But before that, he had to meet the Rose Witch first.

There was a tavern.

In the private room, the Rose Witch had already ordered a drink. Levi bent over and sat opposite her.

"What's wrong, Your Excellency Rose?" Levi asked.

"Lehger Leo is dead. The soul lamp he left in the family has been extinguished..." Rose said.

"Sigh." Levi sighed. Lehger Leo was really unlucky.

"Any news from Lady Whitewater?" Levi asked.

"No, I don't know where she went either. She should be feeling guilty towards Lehger Leo," Rose said.

"Lady Rose, you must have other matters to discuss with me, right?" Levi asked.

"Yes, Sir Levi. In the past six months, I've had nightmares every time I sleep. It's very difficult for me to wake up on my own when I have nightmares. Every time I dream, it's about the strange world with the crack in the sky and the giant spider with eight faces.
