

## Wizard 806

Chapter 806: Divine Weapon Family, Panel Interface Changes! (5)

Triss took it and observed it for a while. After opening it, she smelled it.

She smiled and nodded. "Although it's only a first-circle potion, it's ingenious. Very few wizards have paid attention to the side effects of the Transformation Spell before. I can tell that you're a very meticulous wizard.

"By the way, if you join the Witch's Family, you can hand over some original spells or potion formulas to the organization. The organization will give you a certain reward. After the war ends, we can also help you apply for a [Scholar] seat in the parliament. You can also obtain a certain percentage of the authorization fee."

"That's great. Thank you, Madam Triss!" Levi retreated excitedly.

"What a cute little wizard." Watching Levi disappear, Madam Triss licked her lips and muttered to herself.

Three days later.

Levi passed the assessment without any suspense.

In fact, with Madam Triss around, it was a confirmed fact that he had become an external pharmacist.

Just like that, Levi became a member of the Witch's Family.

He had obtained a permanent Witch Medal. With this medal, Levi could return to the Witch's Family base camp through incantations within the 12 Witch Cities. It was extremely convenient.

The first thing Levi did after becoming an external member was to go to the witch shop in the Witch's Family.

He had joined the Witch's Family for this thing.

Seeing that it was a male wizard who came in, the witch in the witch shop was slightly surprised.

"Who are you?" she asked.

"Hello, I'm Levi, an external wizard from the Witch's Family. This is my medal."

"It's been a long time since a new member joined us. It seems that you have some strong points in some aspects." The witch sighed.

Levi smiled and immediately started browsing the list of shops.

In the end, he found his target item.

[1 portion of Immortal Banyan Dragon Bloodline Essence: Price: 100,000 Aether Stones (No Stock)]

The Witch's Family was different from other wizard organizations. There were no points or merit points in it. The currency used was the Aether Stone.

"A portion of the Immortal Banyan Dragon's bloodline essence costs 100,000 Aether Stones? Sorry to disturb you. It's so expensive, but there's no stock..."

Levi originally wanted to use the Immortal Banyan Dragon's blood to refine the Golden Snake's secret medicine in the future to test its effect. However, he realized that he was overthinking.

The bloodline of a pure-blooded Dragon Clan was a top-grade material for refining many high-level potions. In the Wizard World, it was undoubtedly a treasure.

After consulting with the store manager, Levi learned that the Witch's Family had signed an agreement with the Immortal Banyan Dragon. The Immortal Banyan Dragon would take the initiative to provide the Witch's Family with 10 portions of bloodline essence every year. The Witch's Family also had to pay a considerable price, which was why the price was so high.

If this was in the outside world, the price would only be higher. After all, there were still some discounts for the members of the organization.

To the Immortal Banyan Dragon, although she was big, refining a portion of bloodline essence consumed a lot of energy. She needed a long time to recover, so she could only provide ten portions a year.

Levi only had 100,000 Aether Stones on him now. He could only buy one bloodline essence.

"The essence of the Immortal Banyan Dragon's bloodline must have been taken by those primordial soul wizards. Ordinary wizards can't buy it even if they have money. Sigh..."

He did not dwell on it anymore. He settled for the next best thing and exchanged for some potion materials and some low-level spells.

He left 50,000 Aether Stones for emergencies.

"Sigh, I don't have any money after all."

Compared to Levi's meager income, his consumption was too terrifying.

"It's time to sell a Lake Fairy Potion."

Two years passed in a flash.

Holy Brilliance Calendar Year 1100, Month of Flowers.

Levi was now 110 years old.

After all these years of cultivating potions, his cultivation speed of the Aether Meditation Art was much faster.

Levi's Spiritual Power had reached 150 points.

His spell power had also reached the upper limit of 6,000 points.

He was already halfway through his mental power cultivation as a Third-Circle Wizard.

"I advanced to the third-circle at the age of 80. Now that 30 years have passed, I'm only halfway through the third-circle. Cultivation after the middle-level is indeed difficult.

"However, to be able to have 150 points of spiritual force at the age of 110 was rare even in large wizards families.

"From the looks of it, it is not a problem for my spiritual force to reach 200 points before I am 150 years old. If he was lucky, he could advance to the fourth-circle.

"Compared to Lehger Leo, who was nurtured by a top-notch wizard family since young, I'm not bad either. After all, my path as a wizard started a little late and I missed the best time.

"Of course, before that, I still have to master three innate spells. Otherwise, I'll be at a disadvantage in the future."

Levi opened the proficiency panel.

Levi—

Meditation Art: Aether Meditation Art (third-circle): Level 9 (1/150,000), Special Effect: Aether Dominance.

Spell: Fire Dragon Tribulation (First Talent): Level 8 (1/100,000)

Breathing technique: Crimson Emperor Dragon breathing technique (First Transformation of the Blood Source): Level 13 (220,001/500,000), Special Effect: Flame Dragon's true form (Level 1); Exclusive Weapon: Crimson Dragon Slash (Level 2: 1/5000).

"The name editing and tidying function of this panel interface is quite good. I can clearly see the corresponding realm of the skill."

Ever since Levi discovered that he could name himself, he had tidied his panel.

This way, he would be more comfortable looking at the proficiency panel in the future.

However, his greatest gain from these two years of seclusion was still that “Fire Dragon Tribulation” spell.

Using the third-circle spell “Fire Dragon Guide” that he had bought from Jacob as the foundation, he fused it with the low-level Burning Faction spell that he already had and created this top-grade spell.
