

Wizard 809

Chapter 809: Crimson Dragon Slays the Heavens! (2)

Otacílio analyzed the pros and cons and slowly said, "It's not impossible, but your Wizard Tool is only of the lowest quality. It's still a little difficult to exchange for my fifth-circle Wizard Tool... You also know that after the third-circle, Wizard Tool is getting rarer and rarer. Most Fourth-Circle Wizards like you and I in the Endless Sea are still using third-circle Wizard Tools."

"Hmph, in terms of rarity, this Wizard Tool of mine is even more precious than your fifth-circle Wizard Tool. You can still buy a fifth-circle Wizard Tool with money. However, if you miss out on this Wizard Tool, you won't be able to get it anymore. If not for the fact that I can't use it, why would I let you have it? Instead, you despise my Wizard Tool," Modi said with a cold smile.

Otacílio thought for a moment.

Indeed, in terms of the long-term impact on cultivation, the Wizard Tool was still better. There was still a chance of obtaining a fifth-circle Wizard Tool when he advanced to the fifth-circle.

However, that might not be the case for the Truth Oddity. Most importantly, he did not have the confidence to advance to the fifth-circle without it.

Thinking of this, he said, "Alright, it's a deal. Let's sign a contract. Don't play any tricks and don't mention our deal to anyone."

Fire Ouroboros Modi smiled and nodded in agreement.

After that, the two of them signed a contract. Modi obtained the Fire Ouroboros, while Otacilio obtained the Truth Oddity Water Dragon's Song.

"In that case, both of us can be considered to have won. Happy cooperation, my friend." Modi smiled.

"Then I'll take my leave." After getting the Water Dragon's Song, Otacilio left in a hurry, obviously worried that Modi would do something bad.

Modi stood at the top of the wizard tower, holding the Fire Ouroboros in his hand. He looked into the distance with a mocking expression.

"I spent so much effort to obtain this Wizard Tool. How can I let you take it away for real? The fifth-circle Wizard Tool is mine, and the Wizard Tool... is also mine!"

Realm of Ice.

In a stronghold of the Frost Giant Resistance.

Elsa was using medicine to heal Emperor Mu's wounds.

"With my physique, these are just superficial wounds. You don't have to worry so much." Emperor Mu coughed and said in embarrassment. This scene reminded him of the scene when his wife applied medicine to him in the Tuva Empire.

"It's always good to be careful," Elsa said softly as she glanced at Emperor Mu.

"Thank you. When the war is over, I will bring you to find the organization and meet our commander." Emperor Mu smiled and revealed his white teeth.

Elsa nodded. After meeting Emperor Mu, she suddenly felt that she finally had a companion in this vast snowfield.

This feeling was really good.

Moreover, after interacting with Emperor Mu for so many years, Elsa felt that she seemed to have some special feelings or dependence on the man in front of her.

However, Emperor Mu didn't seem to have noticed it until now, or rather, he pretended not to know...

He kept talking about the commander. It was obvious how important this commander was to Emperor Mu.

"What kind of man can make Emperor Mu so obsessed with him?"

At the Endless Sea.

After picking up Dinos, Levi quickly rushed in the direction of the Hundred-Eyed Demon Territory.

The flying ship continued to move forward at a constant speed.

"Commander, where are we going now?"

"To the human world."

"The human world... I haven't been there yet. I also want to go back to the human world and see the place where the lionheart knight lived."

"Compared to the Wizard World, the elemental power in the human world is very thin. However, it doesn't have much of an impact on cultivating the path of knights. As long as you have secret medicine, you can cultivate anywhere."

Levi and Dinos chatted.

Suddenly, his Intuition sensed that a wizard was rapidly approaching his airship.

At the same time, Danger Perception was also reminding him.

"There's a dark wizard here. Dinos, prepare for battle."

Dinos immediately stood up, looking eager to try. He had just broken through to the second step of knighthood and also wanted to test his current strength.

Before long, Levi's Flying Shark was surrounded by a group of red-robed wizards.

"It's the Red Robe Association... Be careful, commander! This is a relatively famous dark wizard organization in recent years. It's said that their president is a Fourth-Circle Wizard and is ranked 23rd on the Dark List," Dinos reminded with a solemn expression.

He was too unlucky. Not long after he left home, he encountered dark wizards in the outer ring of the sea. The Wizard World was indeed in chaos now.

Levi did not panic. He used Perception.

There was no aura of a Fourth-Circle Wizard in this group of people.

Two Third-Circle Wizards were not difficult for him to deal with.

"Buddy in the airship, come out. Take out your things obediently and sign a slave contract with the Red Robe Association. We won't make things difficult for you," said a short third-circle red-robed wizard. He was protected by a protective force field and was very vigilant.

"That's right. We red-robed wizards don't like killing either. It's better for everyone if we know what's good for us." Another Third-Circle Wizard advised. In fact, he was already secretly preparing spells.

There was no response from the airship.

This made the two Third-Circle Wizards' expressions turn cold.

"Everyone, attack together. It seems that the enemy is planning to resist until the end."

As soon as he finished speaking, a ghostly figure appeared from the void behind these two Third-Circle Wizards.
