Chapter 810: Crimson Dragon Slays the Heavens! (3)

The Hermit Rune dimmed and was replaced by the Strength Rune and the Chariot rune.

Levi did not even reveal his Fire Dragon True Form. He only held the Crimson Dragon Slash and slashed down.

The Destruction Sword Qi was like a grayish-white line that cut through the world.

When the two Third-Circle Wizards who were shouting sensed that the enemy had appeared behind them, their protective force fields flashed, and their respective Third-Circle innate spells also blasted towards Levi.

The Red Robe Association was mainly made up of a group of black wizards from the Burning School of Thought wandering in the Endless Sea. Therefore, their spells were all from the Burning Faction.

On the left and right, two Sun Flame Explosions accompanied the other first-circle spells. The second-ring spells drowned Levi.

Rumble!

Flames soared into the sky, burning everything!

"Hmph, overestimating yourself." The short wizard sneered.

"That's right. He wants to ambush us by relying on his invisibility technique. He wants to fight two people alone. Little does he know that we've long been prepared," another wizard said.

They had no intention of persuading Levi to surrender in the first place. It was all to confuse Levi.

In the core area of the Sun Flame Explosion.

Levi exhaled a breath of hot air, his expression unchanged.

To his current fire element resistance, the high temperature of the Sun Flame Explosion was already very difficult to harm him.

Moreover, the Sun Flame Explosion of these two people had not been cultivated to perfection at all. Its power was less than 20 Cas. It was incomparable to his 33 Cas power.

What could really do damage to Levi was the shockwave from the explosion of the fireball.

However, with the Golden Snake Scales, the shockwaves were also blocked.

"Die!"

As the sword qi tore through the flames,

Slash!

The two Third-Circle Wizards were cut in half by Levi's sword.

The third-circle protective force field was like a decoration.

They looked at everything in disbelief. Although they had been cut in half, they were not dead yet.

Before they died, what they saw in their eyes was a Flame Divine Dragon with antlers and eagle eyes!

"Fire Dragon Tribulation!"

Boom!

After easily dealing with the two Third-Circle Wizards, Levi casually took away the lives of the low-level wizards.

The other wizards of the Red Robe Association were all dumbfounded. This was the outer sea region, and Fourth-Circle Wizards were basically famous.

Therefore, the Red Robe Association would try its best to avoid the Fourth-Circle Wizards.

Under the lead of the two Third-Circle Wizards, they chose Levi as their target.

He thought that it would be a piece of cake, but he did not expect the two Third-Circle Wizards on his side to be instantly killed by the enemy.

Even a Fourth-Circle Wizard wouldn't be so exaggerated, right?

The low-level wizards scattered like birds and beasts. Unfortunately, they had no chance at all in front of Levi.

Not long after, the entire place fell silent.

"The power of the Destruction Sword Qi and the Fire Dragon Tribulation has increased by more than 40 Cas. They've reached the level of fourth-circle spells." Levi was in a good mood as he analyzed the battle process.

From the looks of it, the Crimson Dragon Slash was extremely hard and was many levels harder than luminant gold. On the other hand, it could increase the attack power of sword aura and Burning Faction spells.

After Levi cleaned up the battlefield, he brought a red-robed wizard with the strength of a second-circle to the airship.

At this moment, this Second-Circle Wizard was pierced by the Blood Imprisonment Awl one after another. He was better off dead. Levi held him in his palm as if he was holding a little bird.

"Tell me, who sent you?" Levi asked calmly. He was worried that he had been targeted by someone, so he had to ask about the situation first.

"You're in big trouble. Our boss is the Blood Flame Demon Wizard ranked 23rd on the Dark List." This Second-Circle Wizard was still stubborn. After being slapped by Levi, he recognized the reality.

If Levi hadn't deliberately controlled his strength, the slap would have taken his head off like a top.

His fingertips turned black as Mixed Venom was injected into his wounds. The Toxic Swarm began to spread and devour his body, making him wish he was dead.

"How strong is the Blood Flame Demon Wizard? Where is he? What Wizard Tool does he have? Which wizard organization is he from? Spill the beans, then I can let you die painlessly," Levi said.

Without much effort, this wizard, who only knew how to rely on others, confessed everything.

However, he did not know much about the boss of the Blood Flame Demon Wizard, so Levi still did not know much key information.

This made Levi frown. From the rankings and the information from the outside world, the Blood Flame Demon Wizard should be an ordinary fourth-circle wizard who had mastered two third-circle innate spells and one fourth-circle innate spell. He could also confirm that the other party was from the Burning Faction.

If that was the case, Levi felt that he might be able to meet the other party.

"To prevent him from taking revenge, I might as well strike first."

Levi made a decision in his heart.

In any case, with his strength, even if the other party was the number one on the blacklist, as long as he was not a Fifth-Circle Wizard, he would definitely have no problem escaping if he could not win. He had escaped under the nose of a level 5 Fire Elemental Spirit.

Most importantly, he also wanted to test the true power of the Divine Weapon, Crimson Dragon Slash. The battle just now could not even be considered a warm-up. It was really not satisfying.

Of course, there was another reason.

Levi was out of money.

In the past few years, he had bought all kinds of potion materials, cultivation resources, Wizard Tool, and so on. He had already emptied the huge sum of money he had saved previously.

Later on, he had to sell a Lake Fairy Potion for 100,000 Aether Stones to resolve his urgent need.
