Chapter 824: Legacy! (5)

"Hundred Flowers Explosive Slash!"

The sword Qi attack formed by the Hundred Flower Petals tore through the sky and rushed into the black and white tornado, tearing it apart. It did not lose its momentum and stopped in front of Master Beifeng.

Master Beifeng's expression changed slightly before he stopped.

"I'm impressed, but if you use that magical sorcery, I might not be able to last a single move," he said.

Hundred Flowers smiled. The citizens of this empire seemed to know something about wizards, so they were not surprised.

In fact, it was not that Hundred Flowers was unwilling to use spells. Instead, this world clearly had elemental power but the use of spells was limited.

She suspected that all of this was related to Sauron, who had been here before and was an ancient celebrity.

She was getting more and more interested in this place.

At this moment, her expression changed. With a flip of her hand, a black token appeared in her palm.

There was a beautiful white daffodil carved on it.

At this moment, the daffodil sign cracked.

"White Narcissus... is dead?"

It had been a year since Levi came to the Ancient Saint Empire.

In this year, Ancient Saint Skybreaking and the other Ancient Saints gathered all the forces that the Ancient Saint Empire could gather and prepared to advance towards the Intis Mountain Range.

However, before setting off, the First Lord had initially asked the few Ancient Saints to make a trip to the mountain peak that he often went to.

At the peak of the mountain, the Initial Ancient Saint Lord had already left when Ancient Saint Skybreaking flew over.

On the cliff in the mountains, Skybreaking saw Lizardmen patterns and some words.

Ancient Saint Flight Technique.

Ancient Saint Skybreaking looked at this technique and comprehended it word by word. Unknowingly, half a day had passed.

"So that's how it is. No wonder the First Lord initially asked us to come here. It turns out that he has already created a peerless flying technique for Ancient Saints... If Snake Demon and the others have also grasped the flying technique, wouldn't my advantage be gone... If I were to destroy it silently, Lord Ancient Saint wouldn't know, right?" Ancient Saint Skybreaking hesitated.

Snake Demon and company were about to arrive. He was in a dilemma.

In the end, Skybreaking gave up.

He knew that this was definitely the First Lord's intentional test.

It was a test of his loyalty. How could he, Skybreaking, be the kind of person who would comply on the surface but go against the rules on the inside?

How could he not want to restore the glory of the Ancient Saint?

Not long after, Snake Demon and company had also arrived at the mountain peak.

They immediately saw the technique on the cliff and went over to take a look curiously.

At first glance, they were immersed in it.

"This is a Dharmic formulation that the Initial Ancient Saint created for us Ancient Saints who can't fly... At this moment, it's very similar to the Ancient Saint Dharmic Formulation that he imparted back then." Snake Demon was shocked.

Only the Initial Ancient Saint could create such a technique.

Clearly, they believed that Levi was the Initial Ancient Saint now...

"Engrave the Dharmic formulation. Then, we'll learn the Dharmic formulation first. If we can fly, I'll let those feathered monsters know how powerful these crawlers are. Hahaha," Ancient Saint Snake Demon said with a sinister smile.

For a moment, the Ancient Saints sat together and comprehended the Ancient Saint Flight Technique in an orderly manner.

Levi sat high in the clouds like a god. He hid in it and quietly watched the Ancient Saints below cultivate the Dharmic formulation he had created.

The so-called “Ancient Saint Flight Technique” was the Ancient Saint version of the Blood Qi Wings technique that he had created for the Twilight Knights.

“I’ll experiment with the Lizardmen first. If there’s no problem, I can let the Bloodthirst Knights of the Twilight Knights cultivate this Blood Qi Wings technique.”

It was not that Levi did not want Knights below Bloodthirst to cultivate. To have the most basic blood qi to condense the Blood Wings, Knights like the Black Knight and Dinos were required.

Ordinary legendary knights like the Divine Light Knight could not cultivate yet.

Even the Black Knight and the others could only condense blood wings that could fly short distances, similar to a wizard’s first-circle flying spell.

If he wanted to fly for a long distance, the quality and quantity of blood qi were relatively high. He had to be in the Blood Source realm like Levi.

This Blood Qi Wings was only Levi’s first creation, so it was not perfect. It could not be compared to the wizard spells that had been developed for so long.

A few days later, the first to comprehend the Ancient Saint Flight Technique was actually Ancient Saint Skybreaking.

In order to prevent himself from being unable to fly after breaking his wings, he had also learned this technique.

"Condense my Skybreaking power into Skybreaking Wings and I can fly."

Skybreaking didn't use his wings. He wasn't very familiar with the power of Skybreaking. According to the structure and operation of the Ancient Saint Flight Technique, the green power of Skybreaking quickly turned into a large green wing with a wingspan of five meters.

"Amazing, the power of Skybreaking can actually be used like this!" Skybreaking was overjoyed. He leaped for life and flew up.

Levi observed quietly from the clouds.

"Looks like Ancient Saint Skybreaking's comprehension ability is indeed the best. He's much stronger than the others. Moreover, I originally thought that he would destroy the stone wall. I didn't expect him to actually resist the temptation. Perhaps, I don't have to waste my Scarlet Contract on Skybreaking for the time being. This young man's awareness is still very high," Levi muttered to himself.

Half a month after Skybreaking comprehended.

Ancient Saint Snake Demon was the second to master the Ancient Saint Flight Technique.

To be able to cultivate the Ancient Saint realm, its comprehension abilities was definitely not low.

It was not much inferior to the legendary knights in the human world.

Hence, Levi was not worried that they would not be able to learn it.
