

## Wizard 827

Chapter 827: Sauron's Legacy, Knights of the Round Table! (1)

Levi's sword aura was only a foot away from the magic mirror.

"I thought you didn't know how to talk." The aura of destruction slowly disappeared, and Levi retracted the Crimson Dragon Slash.

"Why do you think that a mirror can speak? We don't seem to have any grudges. I'm just an ordinary mirror. Why are you targeting me like this?" the magic mirror said speechlessly.

"You call a talking mirror an ordinary mirror? You should be the artifact spirit of a Wizard Tool... Don't compare me to those ordinary Lizardmen. I'm not so easy to fool."

Levi also had a similar Wizard Tool on him, which was the Pot of Equal Value. There was also a low-level artifact spirit, Tuten.

However, as his realm increased, this Wizard Tool was no longer useful. The creator of this Wizard Tool had already been surpassed by Levi in terms of cultivation and knowledge.

The magic mirror seemed to fall silent the moment it encountered a question it didn't want to answer.

When it noticed Levi's unfriendly expression, it said, "I'm not a Wizard Tool. I'm just a mirror. I don't even know what I am. How can I answer you?"

"Aren't you the god that the Golden Feathers King mentioned? Didn't you give him those spells?" Levi sneered.

"He was the one who thought I was a god. I didn't say that..." the magic mirror muttered.

"If you don't want to say anything, then go into my storage space and eat dust." Levi threw the magic mirror into his storage space and sealed it.

Holy Brilliance Calendar Year 1102, Month of Harvest.

In half a year, the Ancient Saint Empire and the Wind God Empire had undergone earth-shattering changes.

The remnants of the Wind God Empire that were unwilling to submit were wiped out by the Ancient Saint Empire's army with irresistible force.

The entire Intis Mountain Range had also been incorporated into the territory of the Ancient Saint Empire, becoming the Intis Province. The Ancient Saint of the Ancient Saint Empire presided over it.

As for the Golden Feathers King, he was temporarily enslaved by the Scarlet Contract and came to Levi's side to become Levi's follower.

Levi had also obtained some usage methods of the magic mirror from the Golden Feathers King.

Just as he had imagined, the magic mirror also had a nomological program similar to the Principle of Equal Exchange. It required sacrificing the souls of some powerful existences to obtain its gift.

Meanwhile, what Golden Feathers King had obtained were some Meditation Arts and spells. He had decent talent as a wizard and was a double affinity wind and fire wizard. Therefore, after hundreds of years of exploration, he had really learned some things and stepped into the realm of a Second-Circle Wizard.

Coupled with his Feathered People's innate ability, his strength increased greatly.

Levi had just come out of seclusion.

Ancient Saint Skybreaking's voice sounded. "Master, the Mosasaurus Empire is the only one left. When are we going to attack?"

"Did the Vast Sea King say anything?" Levi asked.

"He might still be hoping for a fluke and plan to resist stubbornly," Ancient Saint Skybreaking said. "However, it will indeed be a little troublesome if we want to take down the Mosasaurus Empire. They all live in the Deep Sea. If they hide, we can't do anything to them. If we go into the sea, our strength will be greatly reduced."

"Don't worry about the Mosasaurus Empire for now. I'll go meet the Vast Sea King when I have time," Levi said.

Ancient Saint Skybreaking was overjoyed. "Lord, if you personally make a move, it will definitely be foolproof."

After Ancient Saint Skybreaking left, Levi brought the Golden Feathers King and flew towards the Intis Mountain Range.

He wanted to see what the ancient ruins that the Golden Feathers King had discovered looked like.

Since the Golden Feathers King could leave safely, with his strength, he should be able to protect himself.

"The three empires are about to be unified. After that, I'll go and see if there are any borders in this world."

For a long time, Levi had been curious whether Nora and these small planes had a planetary worldview like in his previous life or a crypt-like worldview like in the legends.

On the way, Levi took out the magic mirror.

By hunting ferocious beasts or enemies, he sent some souls to the magic mirror as sacrifices.

Then, he obtained some low-level Meditation Arts and spells. These Meditation Arts were all extremely ancient techniques. From the perspective of the current wizards, they were already behind the times.

This magic mirror was most likely a treasure from ancient times. It had been hundreds of thousands of years.

The civilization of wizards was constantly changing and innovating. The theory and technology were all iterating. Traditional Meditation Arts were indeed not very good.

It was the same for those spells. However, no matter what, it could enrich his spell library and make it easier for him to create his second innate spell.

Levi originally had hope for the magic mirror, but from the looks of it, the effect of this mirror on him was only average.

Of course, it might also be because the quality of the soul he sacrificed was not high enough.

"Where are you going?" the Mirror asked suddenly.

"To the place where you were found."

When the magic mirror heard this, it remained silent.

In the Intis Mountain Range.

The wind howled angrily in a snowy valley.

The figures of the Golden Feathers King and Levi descended.

"Master, this is the valley where the ancient ruins were discovered," said Golden Feathers King.

Levi nodded. With his knowledge as an array master, he carefully observed this valley.

"Do you have anything to say?" Levi asked the magic mirror.

"No, I seem to have lost a lot of memories. As you said, I'm only an artifact spirit now. I don't even know why I was born. It seems that the meaning of my existence is to be picked up by others and then let them use sacrifices to exchange for knowledge from me." The magic mirror's tone didn't sound fake.
