Chapter 843: Nightmare Dragon! (5)

"I don't have a legendary title...Compared to being praised by others, I prefer a quiet life."

"Then you have quite a personality...I thought that knights were a bunch of people who liked to be in the limelight and wanted to make a name for themselves..."

"However, a great era is about to arrive, and everyone will be forced to make changes."

"I'm looking for you today to find some allies. I don't think you're old, but you already are in the third-circle realm and are a legendary knight. Your future achievements might not be any less than Hundred Blossoms. It's good to get to know you in advance."

"Hahaha... You are quite direct." Levi smiled.

"Also, there's something else I'm looking for you for."

"Senior, please speak."

"I wonder if you've heard of the Flame Divine Bird attacking the Church of Eternity?"

"I've heard of it." Levi's heart skipped a beat. That Flame Divine Bird was obviously the Fire Elemental Spirit, and Levi had accidentally brought it here...

"The Church of Eternity is currently searching for traces of the Flame Divine Bird. I've relied on the information from the Shining Tavern to roughly know where it went, but we're still short of manpower. It's too difficult to find a wild wizard with good cultivation in the human world. A third-circle wizard like you is rare, so I've invited a few wizards to meet the Flame Divine Bird together."

"Senior, I am only a Third-Circle Wizard. My strength is low. That Flame Divine Bird can defeat a saint. Its strength is probably far greater than ours..."

"Don't worry. According to my estimation, the Flame Divine Bird should only be at the fifth-circle, about the same as me. The elemental power in the human world is thin, so neither it nor I can unleash 100% of our strength.

"Therefore, I found a fourth-circle body-refining wizard who is less affected by elemental power and is cultivating in seclusion in the human world. There is also an array wizard. The three of us can trap it for a moment..."

"As for you and your cultivation... It's relatively low, so it's difficult to fight the Flame Divine Bird head-on. Therefore, your mission is to lure it into the array that we've set up. I'll give you a one-time spell scroll so that you won't be caught by the Flame Divine Bird and will be safe.

"Moreover, my goal is not the Flame Divine Bird, but the Sealing Sacred Object that it stole. After the matter is done, I can give you a corresponding reward according to your contribution. I have been in the Wizard World and the human world for hundreds of years, and I have accumulated some good things. As a Third-Circle Wizard, you should not have prepared the breakthrough potion to advance to the fourth-circle, right?"

"I have a potion formula here. If you help me, I don't mind giving you this formula. When the time comes, whether you sell it for money or find someone to help you refine it, it will be very good.

"If you don't need the formula, I have some idle third-circle magic tools here. These should be a rare treasure for wild wizards who cultivate in the human world."

After Rosa Witch finished speaking, she waved her hand, and streaks of light appeared in front of Levi. There were five Wizard Tools of different shapes and sizes, and it was obvious that they were extraordinary. It seemed that there were defensive and offensive ones, and there were all kinds of them.

Levi glanced at these Wizard Tools and felt that they were all average, not even comparable to the Great Black Sky Curtain.

"I want to ask, what's the name of the formula?" he asked after some thought.

His current spiritual force was 160 points. He was only 40 points away from reaching the upper limit of a Third-Circle Wizard. He indeed needed to prepare a breakthrough potion.

"Succubus Blush Murmur," said Rosa Witch.

Levi nodded. He had indeed heard of this potion in a book, but it was a pity that the recipe and refining method were not recorded in it.

Judging from the name, there was a high chance that the main ingredient was a succubus. He did not know anything else.

It seemed that Rosa Witch was not lying to him.

In fact, there were some breakthrough potion formulas in the Truth Magic Mirror. Unfortunately, they were all outdated knowledge. Many of the ancient herbs recorded in it had long gone extinct after hundreds of thousands of consumption. They were quite useless.

If he wanted to find the corresponding substitute through experiments and research, the difficulty would be similar to the Purification Elixir.

Therefore, modern potions like the Succubus Potion were what Levi needed.

"Senior, let me think about it," Levi said.

"Yes, it's best if you give me an answer within seven days. If you delay, things will change. If the Flame Divine Bird is found by the Saint of the Church of Eternity, our plan will be ruined." said Rosa Witch.

Before Rosa Witch left, she gave Levi a keepsake made of rose petals.

Levi could use this to communicate with the Rose Witch.

"As expected of a Fifth-Circle Wizard. Their methods are indeed different. Most low-level wizards still have to rely on traditional messengers to contact them." Levi sighed.

"The formula for the Succubus Potion is indeed what I need. Rosa Witch has already known I would give in. No one can resist such a temptation."

Seven days later, in the Shining Tavern in Storm City.

Rosa Witch smiled when she saw Levi's figure.

"You came after all," she said.

Levi nodded. He noticed that there were two wizards beside Rosa Witch.

One of them looked old and had white hair. He looked like an ordinary mortal old man with a kind expression.

The other was standing straight and wearing knight armor. He must be the four-circle body-refining wizard. He looked at Levi with a cold expression.
