

## Wizard 844

Chapter 844: Nightmare Dragon! (6)

These were all old things hidden in the human world.

"This is Wizard Levi, a wild wizard in the human world with a third-circle cultivation level. He's in charge of completing the mission to lure the Flame Divine Bird," the Rosa Witch said. "Levi, this armored wizard is Barzan. Even in the Wizard World, he's a rather rare fourth-circle body-refining wizard... The other one is Master Orlov, an array wizard that I admire. He's very knowledgeable."

"Senior Rosa, you flatter me. I only have a superficial understanding of arrays," Master Orlov explained with a bitter smile.

Although Rosa Witch was a Fifth-Circle Wizard, she had lived in the human world for a long time and interacted with some mortals all day long, so she did not put on airs.

"Greetings, seniors."

Since his realm was inferior, Levi naturally had to be polite.

"Senior Rosa, third-circle cultivation level... is a little low," the wizard Barzan said in a low voice.

"It can't be helped. Time is limited. This is the human world, not the Wizard World. Third-circle cultivators are already rare," said the Rosa Witch.

"I don't think it's a big deal. Anyway, this little guy only needs to lure the Flame Divine Bird," Wizard Orlov said.

"Alright, I'm just being kind. After all, we have to face a fifth-circle... I feel that Madam Ghost is more suitable," Barzan said.

"Madam Ghost... She has a strange personality. I don't like to deal with her. It's said that the force behind her is a high-level wizard organization in the Realm of Hell... I'm afraid she came prepared this time," said the Rosa Witch.

Levi listened to the conversation about these old things. It seemed that they had known each other for a long time. He could not help but be even more vigilant and pay attention to the changes in his sense of danger.

"After completing the luring mission, there will be nothing for me to do, right..." Levi asked.

"Well, you can just find a safe place when the time comes. The three of us have to preside over a fourth-circle array," Wizard Orlov said.

After talking about some things to take note of, the four of them left the tavern and found a deserted place. Everyone used their flying skills and headed towards their destination.

"The Flame Divine Bird is overseas. I found it in an underwater volcano," said the Rosa Witch.

Levi wondered if the spatial passageway to the Wizard World had been discovered.

After all, other than him, the Fire Elemental Spirit also knew about this entrance.

However, after the fire element left, Levi used an array to hide the island. If it was not a wizard, Levi felt that it might not be able to find the entrance.

Five days later, they arrived at an outer sea region that was extremely far away from the Seven Kingdoms Continent. This was not the sub-dimensional portal node. This made him heave a sigh of relief. It seemed that the array had worked.

He could sense that the elemental power here seemed to be much richer than on the continent. It was almost half of the Wizard World's outer sea region.

This meant that the level of the Dark Wave Revival had deepened.

Then, they landed on a small island. On the island, there was a natural cave with a complicated hidden array outside.

"This is also an overseas stronghold of Shining Tavern. However, the ones guarding this place are some apprentices I took in from the human world. A month ago, they saw a Flame Divine Bird descend from the sky and land in the sea in front of them. It never came out again," said the Rosa Witch.

Not long after, a few wizards who were only apprentices hurriedly came out.

"Is the Flame Divine Bird still around?"

"Yes, two days ago, I saw white pillars of smoke rising from the distant sea, and the wails of the divine birds..."

Rosa Witch nodded.

"Leave this island first. We need to set up an array here to trap the Flame Divine Bird," said the Rosa Witch.

"Will do."

After these people left, Orlov flew into the sky and observed the island's terrain, magnetic field, elemental power, and so on.

This was also Levi's first time seeing a fourth-circle array wizard cast a spell, so he watched attentively from the side.

"I'll need three days to set up the array. Please help me, Senior Rosa and Sir Barzan," Orlov said.

"I'll listen to you, Master." The Rosa Witch smiled.

A Fifth-Circle Wizard and two Fourth-Circle Wizards began to get busy. Levi saw some longsword-like array items flying out in front of Orlov. He chanted, and the longswords shone with white light and entered the island.

Two days later, Orlov's face was a little pale. He quickly took a potion to recover his spiritual force and spell power.

"Damn it, we're almost there," Orlov said as he looked at Rosa Witch and Barzan, who had already set up arrays in their respective directions.

"Orlov? What's wrong?" the Rosa Witch asked anxiously.

"The magnetic field here is a little difficult to control. It's different from the place where we practiced previously. I still need a wizard to help me complete the array..."

"Orlov, why didn't you say something so important earlier!" Barzan's expression turned cold. He wondered why this old thing had dropped the ball at such a critical moment.

Other than the three of them, Levi was the only one present...

Hence, they all turned to look at Levi.

"Seniors, I'm weak. Please don't blame me if anything goes wrong because of me." Levi's expression changed and he hurriedly said.

"Stop talking and come quickly!" Barzan urged.
