

## Wizard 845

Chapter 845: Nightmare Dragon! (7)

"Levi, give it a try. If it really doesn't work... we'll try again another day." The Rosa Witch was worried, apparently worried that the Flame Divine Bird would fly away.

Levi seemed to have braced himself to go on stage. Orlov explained the key points and precautions to him.

"Do you understand me?" he asked.

"Understood... I guess," Levi said without much confidence.

"Sigh, go ahead. Just do your best," Orlov said helplessly. It was obvious that he did not have high expectations for Levi.

"Thank you, senior. I'll do my best."

Levi joined in. Although his cultivation level was low, he was a second-circle array wizard after all. Therefore, during these few days of observation, he had already discovered some problems. However, he did not want to be too high-profile, so he did not take the initiative to mention it.

He frowned and sweat seeped out. He looked nervous as he carefully set up his array module.

Orlov and the Rosa Witch's hearts were in their throats.

Three days later, Orlov wiped the cold sweat off his forehead and looked at Levi with an approving smile after the array was set up.

"This little fellow seems to know some knowledge about arrays, right?"

"I only know a little. I can't say that I understand anything in front of you." Levi drank some potions and smiled.

"I'm impressed..." The Rosa Witch was also sweating profusely. She looked at Levi. This little guy had given her too many surprises.

"Let's take a break and start quickly. Things might change if we delay," Barzan said.

Half a day later, everyone's condition reached its peak.

The Rosa Witch handed a one-time spell scroll with flowers engraved on it to Levi.

"This is the Flower Withering scroll. There is a fifth-circle spell that is solidified. After tearing it open, you will temporarily obtain the speed of a Fifth-Circle Wizard. At that time, you can just fly over here. With your vigilance, you will definitely be fine," said the Rosa Witch.

"Will do."

After obtaining the scroll, Levi did not waste any time and immediately flew towards the distant sea.

Even without this scroll, he could still rely on Scarlet Escape to save his life. However, there was no need to expose his trump card.

After a while, Levi arrived at a boiling sea. White gas formed a thick layer of clouds in the sky.

He noticed that below the sea, there was a huge flaming bird. At this moment, it was crawling among the volcanoes below. It seemed to be in pain. In its translucent body, there was an ancient oil lamp. At the wick of the lamp, there was a wisp of golden flames burning.

"It's trying to refine the flames in the Sealing Sacred Object. It seems to have reached a critical moment... so much so that it ignored me when I approached it." Levi was shocked.

"I can finally take revenge. You've harmed me!"

He hurriedly activated his spells and attacked the flaming bird. The huge bird that usually chased after him ignored him.

"Hmm? Looks like it wasn't hurt enough. My third-circle spells are just tickling in front of it..."

Levi's most powerful spell was Fire Dragon Tribulation. Unfortunately, the fire element resistance of this big bird was stronger than Levi's.

Levi took out the Crimson Dragon Slash and slashed.

Wrapped in flames, the grayish-white sword energy that could annihilate everything swept over.

The flaming bird let out a wail.

The sword finally made the flaming bird move.

At the critical moment of refining, it originally didn't want to care about this ant in front of it, but this guy refused to let it go. It was furious...

The next moment, the seawater exploded, and terrifying flames rushed into the sky. The fire element looked at Levi angrily and let out a clear cry like a young phoenix.

"Good boy, let's go!"

Levi sensed this terrifying aura and immediately tore open the scroll. Countless flower petals appeared around his body. They were colorful and competing with each other. The fragrance assaulted his nose.

In the next moment, he flew towards the island in front of him under the protection of the petals.

Before long, he arrived at the island at the speed of a fifth-circle cultivator. The flaming bird behind him also caught up.

After the huge bird entered the sky above the array range, countless longswords connected heaven and earth around the island, forming a prison that emitted a dense sword aura!

The fourth-circle array—Sword Prison!

"Take your formula. You have nothing to do from now on. I have to focus on dealing with the Flame Divine Bird and have no time to care about you."

The Rosa Witch came and a slate fell into Levi's hands.

"Thank you, Senior." Levi took a look and saw that it was indeed the Succubus Potion formula.

He was overjoyed and quickly left. He found a place to hide and watched the battle from afar.

Once he got the formula, he would make a profit. After that, everything would have nothing to do with him.

However, he still wanted to take this opportunity to witness the battle of the fifth-circle and see what happened to the Flame Divine Bird. If the other party escaped with serious injuries, he could still take advantage of it and subdue it with the Scarlet Contract. Wouldn't it be wonderful to have a level 5 Fire Elemental Spirit?

The contract slot that was previously used on the Golden Feathers King had been removed by Levi and replaced by Excalibur.

The terrifying battle and the power of the fourth-circle array were displayed without reservation.

There was no need to mention the Rosa Witch. Every move she made was a powerful Ocean Faction spell that countered the fire element.

"That's because the elemental power is so thin that it can't exert its full power... Thunder Spear of the Thunder Dragon family is only stronger than the Rosa Witch."

As for Barzan, his entire body was flickering with golden runes, as if his body was made of metal. He was invulnerable to fire and water, invulnerable to swords and spears, and was equally extraordinary.

"It feels like a rare body-refining wizard from the Bronze School, emitting rich metal elemental power... Barzan is not simple either."

Wizard Orlov, on the other hand, was working on the array with all his might. His longsword kept piercing through the body of the fire element, making it wail.

"Everyone, do your best. This guy is about to die," said the Rosa Witch.

However, in the next moment, her expression changed drastically.

Under all kinds of attacks, the Fire Elemental Spirit turned into an egg-shaped ball. The surface of the ball was filled with cracks, and terrifying flames emerged.

Bang!

The sphere exploded.

Shockwaves swept out.

The fourth-circle array was destroyed on the spot.

Orlov spat out a mouthful of blood. He looked dispirited.

"Self-destruct?"

Barzan's golden body was also shattered. Blood flowed out, and his spells dimmed.

Only the Rosa Witch was slightly better, but she looked terrible.

The moment the array shattered, a smaller mini Flame Divine Bird turned into a streak of light and fled with the Sealing Sacred Object!

"What's going on? We can't beat them three against one... Why is this fire element so strong?" Levi muttered, ready to retreat at any time.

He saw Rosa Witch and the others quickly chasing in the direction of the fire element, obviously not wanting to give up so easily.

"Forget it, I won't watch the show. I just need to get the formula. I can't be too greedy." Levi immediately chose to leave.

At the same time, on the distant sea surface, a pillar of flames suddenly rushed up. The golden flames seemed to have ignited the sky.

Levi turned around and saw a shocking scene.

The golden flames seemed to cling to an invisible curtain, burning continuously. They grew larger and larger, and a huge gap began to appear in the curtain.

Through this pitch-black gap, Levi saw a deep and dark world. The sky there was in tatters and the ground there was devastated like scorched earth.

Levi hurriedly turned around and flew in the direction of the continent. Although he did not know what was going on, Danger Perception told him that it might be dangerous to continue staying here.

In the distant Seven Kingdoms Continent.

Tuva Empire.

On the peak of a divine mountain that stood tall in the sea, surrounded by lightning and hurricanes.

This was the holy land of the Church of Storms, Storm Mountain.

A middle-aged man wearing a purple royal robe and a storm crown stood at the top of the Storm Church, looking into the depths of the outer sea region.

"The Mortal Barrier broke. It's much faster than I expected."
