

Wizard 848

Chapter 848: Emperor's Wrath! (3)

Boom!

Golden light spread out from Barzan's body as golden runes flickered.

In the next moment, a golden palm that was shining with runic light grabbed at Levi at an extremely terrifying speed.

The Heavy Water Barrier around Levi lit up. Below the barrier were layers of golden scales that were also shining with golden light.

"Senior, what do you mean by this? Do you think that you can bully me just because no one is around?" Levi's expression was ugly as he barely dodged the attack. In the next moment, Barzan shot towards Levi like a cannonball and slammed his palm onto Levi's barrier.

The barrier lasted for a moment before it was shattered by a terrifying force.

The golden scales clashed with the golden palm.

As the scales shattered, Levi grunted and was thrown into the sea.

The golden palm didn't lose its momentum. It slapped on the surface of the sea and caused huge waves.

"As a body-refining wizard, I can tell at a glance that you must have cultivated some kind of powerful technique to strengthen your body. I have no ill intentions. Hand over the technique, and I will naturally leave. I can even sign an agreement with you." Barzan said with a cold smile.

In his heart, he was thinking that this kid was actually a dual cultivator of body tempering and spells. It seemed that he had many secrets. In addition to that precious array inheritance, he could not help but be tempted.

Naturally, he would not sign an agreement with Levi. That was just a tactic to make him lower his guard. Since he was going to make a move, he would definitely kill Levi to silence him. How could he give the enemy a chance to take revenge in the future?

Barzan had been cultivating in seclusion in the mortal world for a long time and had long since perfected the "Luminant Gold Body-Refining Technique" he cultivated. With the enhancement of the body refining runes, his body seemed to be made of pure Luminant gold and was extremely powerful.

However, this technique had already reached its maximum. He needed more body tempering techniques to reference and comprehend by analogy.

Therefore, even if he was bullying the weak, he would not let Levi off.

"Barzan, what are you doing?" Orlov, who had caught up, frowned and asked.

"Orlov, mind your own business. You should know about my relationship with Madam Ghost, right?" Barzan completely ignored Orlov's question. With a sneer, he sent another palm strike toward Levi, who was hiding under the sea.

Orlov's expression flickered, but he finally sighed and left.

"Do you think you'll be safe hiding in the sea?" When Barzan saw that there was no one around, his ferocity was completely unleashed.

A dense barrage of attacks flew toward Levi.

Under the sea.

Levi's Nightmare Perception noticed that Orlov was gradually getting further and further away. Not only was he not disappointed, but he was also delighted.

"I know what you're thinking. You want to wait for Orlov or Rosa Witch to come and save you. Unfortunately, your idea is destined to fail... No one will meddle in other people's business." Barzan rushed into the sea and chased after Levi.

"There's no one else, right? If there's no one, I won't pretend anymore..." Levi's expression was ferocious.

"Fire Dragon True Form!"

Boom!

It was as if a volcano had erupted beneath the surface of the sea. In an instant, the seawater around Levi boiled, and smoke pillars soared into the sky and filled the sky.

Crimson flames burned under the sea, and the dark golden scales emitted the sound of metal clashing. Behind Levi, the Bloodline Dharma Body, which had all six arms on the Crimson Dragon Slash, broke through the surface of the sea and rose like the sun!

When Levi had displayed his knowledge array, Barzan had already started to feel hostility towards him.

After all, even if it was a low-level array inheritance, it could still be exchanged for a good price on the market. Therefore, Levi had always revealed his identity as a pharmacist and rarely revealed his identity as an array wizard. He was worried that he would be targeted.

Levi would never allow anyone hostile to him to exist, even if it was just a trace of hostility. Thus, Levi decided to bait him. As expected, Barzan took the bait and directly attacked Levi.

If the other party was a normal fourth-circle wizard, Levi might have thought twice. After all, he was strong in close combat, so he would naturally feel a little guilty when facing a high-level wizard.

However, Barzan was only a body-refining wizard. In front of Levi's current path of knights, he was still not afraid.

As the Flame Dragon Levi and the Luminant Gold Barzan collided.

The sea was swept up by the shock wave, and the waves surged in all directions.

"You... What kind of body tempering technique is this? You can actually fight against me?" Barzan's figure retreated into the sea before finally stopping and standing on the waves.

Levi did not say a word. The Bloodline Dharma Body wielded the Crimson Dragon Slash and swung it out. The gray-white airflow was unstoppable and cut through the thorns!

Barzan smiled instead and said, "Very good. I'm getting more and more interested in your technique. With it, there's hope for me to become a fifth-circle body-refining wizard!"

Boom!

He clashed with Levi again.

The two wizards who were good at body refinement exchanged blows on the surface of the sea.

The wind caused by the fists destroyed the reefs, and the sword qi swept across the surface of the sea.

'A fourth-circle body-refining wizard isn't that big of a deal. I didn't even use my special form... I only used my Bloodline Dharma Body.' Levi murmured inwardly.

"D*mn it, this kid is so strong. If I hadn't been injured by the explosion of the divine bird, I wouldn't have been at a disadvantage!" The more Barzan fought, the more shocked he became. However, at this moment, he was still harboring illusions. He felt that Levi was definitely using some kind of secret technique that would explode his seed. It would definitely have a duration and powerful side effects. As long as he relied on his endurance and stamina to endure this peak state, he should be able to easily deal with it.

After that.

Half an hour passed.

Barzan panted. The Luminant gold body refining runes on his body dimmed. It was obvious that he had suffered serious injuries.
