Chapter 855: How to Transcend the Bloodline Path? (4)

"Why does it feel like a Black Pearl Shell?" Sparrow asked with a strange expression.

The Black Pearl Shell was a specialty of the Black Pearl Island. The Black Pearl Wizard Market was also formed because of this development.

"Interesting. Someone's primordial soul wizard form is actually... the Black Pearl Shell." At some point in time, an ordinary-looking middle-aged man in a wizard robe had arrived above the wizard academy. "Congratulations, Sir Garcia, for breaking through the shackles of crystallization and advancing to a primordial soul wizard. From now on, you will enjoy 2,000 years of lifespan and become famous in the Endless Sea."

The moment they saw the middle-aged man, Sparrow and Varil's expressions changed.

"Jacob..."

This middle-aged man was the solitary wizard Jacob, who used to live in the Black Pearl Wizard Market.

If Levi was here, he would realize that this was the wizard who sold him the Soul Artifact fragment.

His aura was as deep as the sea, and his spiritual force was so vast that it was enough to drown Sparrow and the others. This gap was far greater than the gap between any level of wizard before the high level. This was the greatest qualitative change before the path of legendary wizards!

There was no other!

Jacob was a primordial soul wizard?

Seeing the extremely nervous Sparrow and Varil, Jacob chuckled and said, "Don't worry, I don't have any ill intentions. I was just passing by and realized that an acquaintance had formed a primordial soul, so I came to observe and recall the past."

At this moment, the phantom of the Black Pearl in the sky suddenly disappeared. Accompanied by the surging elemental power, it converged into the body of a kind-looking white-haired old man. His appearance instantly became young, and the aura of death dissipated. He was full of vitality.

"Thank you for your help, Wizard Jacob. Some people really don't like to see others doing better." Wizard Garcia snorted coldly. His gaze instantly became sharp, and he casually clenched his fist in the air.

In the next moment, a huge Black Pearl Shell appeared on the surface of the sea 50 kilometers away from Starfire Island.

A muffled groan came from the void. A figure was sealed by the Black Pearl Shell in the next moment. Golden lightning spread on the surface of the pearl shell, but it could not be broken.

"I'm a wizard from the Letney Family... How dare you seal me?" A voice came from the Black Pearl Shell.

"Heh, according to the law, everything within 10,000 miles of Starfire Island belongs to the wizard academy. So what if it's the Letney Family?" Garcia asked.

"Law? Do you know that the ancestor of my Letney family was one of the authors of the law? We created this law. I didn't do anything. You have no right to attack me." A fearless voice came from the shell.

Garcia looked conflicted. He sighed in his heart and said coldly, "Get lost!"

In the next moment, the Black Pearl Shell rushed into the distance and exploded. A disheveled figure quickly escaped.

"I've embarrassed myself in front of you," Garcia said.

"Some big shots are looking down on the congress more and more... Sigh, how disappointed would Lord Sauron be if he saw this scene today?" Jacob said helplessly.

Not long after, a major event spread throughout the Star Sea.

The Black Pearl Garcia, who was about to die, miraculously broke through and became a sixth-circle wizard.

With a primordial soul wizard in charge, the Starfire Wizard Academy's development was even better than before.

More and more life strength converged into it. The apprentices of the Starfire Wizard Academy were almost everywhere in the Endless Sea. They had developed into a force that could not be ignored.

Some of the more optimistic ones sent their blessings and congratulatory gifts. Some of the wizard families and organizations that had once looked down on and even suppressed the Starfire Wizard Academy fell silent.

An ordinary wizard started by harvesting the Black Pearl Shells and walked step by step. Time passed and things changed. He finally entered the primordial soul like a spark... He could set a prairie ablaze!

Holy Brilliance Calendar Year 1111, the first day of the Month of Beginning.

The 80th year of the Great Expedition!

Levi celebrated his 121st birthday.

After years of accumulation, Levi's cultivation of the Great Dao yielded significant results during this period of time.

In terms of spells, the first innate spell, Fire Dragon Tribulation, was completely Perfected! Its power was not inferior to a fourth-circle spell at all. It could easily exceed 40 Cas.

The most terrifying thing was that as an innate spell, the power of the Fire Dragon Tribulation would increase as Levi's wizard realm increased in the future. It would not be eliminated.

This was equivalent to the innate ability of a wizard. It was an instinct that could be compared to the spell abilities of powerful transcendent creatures.

Levi's second original spell was already in the process of being fused.

Levi planned to use the Earth Faction to forge the strongest innate defensive spell.

His idea was to fuse the spells of the earth, fire, wind, water, thunder, ice, bronze, and other major factions into one with the most unique characteristics as his future innate spells. This way, there would be no elemental restraint.

Regardless of which faction the enemy belonged to, Levi naturally had a way to deal with them.

At the same time, Levi's spiritual power had reached 170 points. He was only 30 points away from the maximum of 200 points.

If everything went smoothly, his spiritual force would reach Perfection within 15 to 20 years.

After learning all three innate spells, he planned to advance to the fourth-circle and turn the Gas spiritual force magic ring into a liquid spiritual water droplet.

This way, it wouldn't be a problem to advance to the fourth-circle before the age of 150.
