

## Wizard 856

Chapter 856: How to Transcend the Bloodline Path? (5)

This speed was even faster than ordinary Children of the Elements.

Although there was still some time before the fourth-circle, Levi was already preparing the Succubus Blush Murmur potion in advance.

With the resources of a small plane and the Witch's Family, gathering the materials was not a problem as long as he had money and time.

The only thing relatively difficult to find was the succubus breastmilk.

This thing didn't have any ingredients at the Witch's Family because the milk had to be fresh and couldn't last for more than 24 hours. It was useless to preserve it in a special container...

Levi did not know which pervert had come up with this formula, but he had broadened his horizons.

Succubus were basically all middle-rank demons at level 3, and they were relatively rare in the Abyss. Levi could only hope that there was a succubus among the demons that escaped from the Abyss Well a few years ago.

In addition to the path of wizards, in terms of the Rune Language, the strength rune was cultivating steadily. The Horned Bull Constellation Power had already broken through to level 6, and the increase in strength had reached 50%!

The Chariot Rune had also reached level 5, and its speed had increased by 40%!

He felt that the Rune Language would become more and more terrifying as he progressed. This was a really advanced skill.

This was because up until now, whether it was the Chariot Rune or the Strength Rune, there seemed to be no maximum...

He suspected that with the proficiency panel in hand, he might be able to evolve the Rune Language into the Language of Stars like the big shots of the Starforger civilization!

He could draw the power of stars from the sky to fight the enemy with just a raise of his hand. Perhaps this was already the realm of a Legendary Wizard?

"After I reach the fourth-circle, I should be able to learn the Lovers Rune. I wonder if that mysterious luck will work..." Levi muttered.

Over the years, the changes in the path of knights had also been huge. The Crimson Emperor Dragon breathing technique had reached level 14. The Flame Dragon's true form Special Effect had advanced to level 2, and his strength had increased significantly. Although it was not a qualitative change to break through a major realm, with Levi's various enhancements, he believed that it would be easier to deal with Barzan if he encountered him again.

The Dead Ember breathing technique had advanced to level 13, and the Ember Feathers Special Effect had advanced to level 1 Inextinguishable Ember Body. Naturally, there was no need to mention his physique and self-healing ability.

His Bloodline Dharma Body had also entered level 7, and the Asura phantom was even more condensed. Moreover, even if Levi did not move, this Bloodline Dharma Body could attack and protect its master within a kilometer.

He naturally made up the seventh level of the Introduction to Bloodline Dharma Body, Dharma Body Separation.

In the hall, an owl flew in and transformed into the witch Eve.

With Levi's help, Eve had also advanced to the second-circle. She had the third-circle Defensive Wizard Tool that Levi had bestowed upon her, so she could barely enter and exit the Wizard World. Hence, Levi let Eve continue her job as a Messenger.

He wanted her to deliver first-hand information about the Wizard World to him.

"You've worked hard."

"It's what I should do. Without your help, I wouldn't be where I am today." Eve smiled and transformed into an owl before leaving.

Levi looked at the news with a solemn expression.

"Deep Blue Sage betrayed us?" Levi found it hard to understand. "It's said that the source of the news came from a big shot at the level of a Grand Wizard. The news is reliable, but we still don't know who this big shot is... Is someone trying to create internal strife? Has the Legendary Wizards started to split? The congress is really in a mess now."

Levi was disappointed.

A united wizard civilization was the strongest. Why didn't these people understand this simple principle?

If the wizards were not united, and there was no Sauron, how could they fight against the gods? How could they fight against the Abyss? Although the gods and the Abyss were not united.

However, this was equivalent to giving up the greatest advantage of a wizard.

"I didn't expect the Black Pearl kid, Garcia, to advance to a primordial soul. This is unexpected. It seems that Garcia's talent is only triple affinity... and he's a nomadic wizard. He seems to be the son of providence. Then I'm more confident in breaking through to a primordial soul wizard."

Levi and Garcia did not know each other. After all, he was just a nobody. However, he had some impression of Sparrow and Varil.

"Forget it. Let's have a meeting first."

To facilitate the meeting, during the sixth round table meeting of the Twilight Knights, Levi and the other official members unanimously agreed that the next meeting date would be the first day of the Month of Beginning in the Holy Brilliance Calendar, which was January 1st.

After the round table was set up, Levi sat in his seat and sent his consciousness into the castle that was surrounded by the Black Snake.

He closed his eyes to rest and waited for the other members to arrive.

Not long after, a member pushed open the door and entered.

"Good evening, commander."

The first to enter was the youngest and weakest Silver Dragon Knight, Kelvin.

"Good evening, Silver Dragon Knight," Levi said with a smile. He did not look arrogant at all. He was easygoing and exuded an oppressive aura.

Kelvin had only participated in the round table meeting a few times, so he was rather reserved. He sat upright like a good child and looked at Levi.

Not long after, the Blood Knight, Black Knight, Divine Light Knight, Gray Destruction Knight Hogg, Saint Ape Knight, and Golden Lion Knight all came to the round table and sat there, waiting for Levi to speak.

"The ninth round table meeting of the Twilight Knights will begin. There will still be free interaction before the meeting. Everyone, you can tell me about your recent situation. If you have any questions, you can ask me," Levi said.
