

Wizard 857

Chapter 857: How to Transcend the Bloodline Path? (6)

"I'll go first. The Black Knight and I have been at the Dusk Holy Temple recently. commander, I heard that after the Mortal Barrier is broken, a terrifying existence might come to the Forsaken Land of the God. How should we deal with it?" The Blood Knight asked.

"Just follow the previous plan. There's no need to panic. Although the Forsaken Land of the God is terrifying and unknown, there might not be many experts. Otherwise, how can the Mortal Barrier stop them? Our Dusk Island is protected by an array. Unless a fifth-circle expert takes action, generally speaking, it's enough to be safe and sound. Moreover, the Church should be the one who's most worried, not us. This turmoil is also an opportunity for the members of the Dusk Holy Temple to sharpen themselves. If there's a critical moment, we can just move all the holy temples into the Ancient Dragon Empire... Times are changing, and we can't be completely cowards. Hiding in the Ancient Dragon Empire isn't a long-term plan. Sooner or later, we'll have to fight with the forces outside. The holy temple is our bridgehead in the human world."

"Understood. Those little guys do need some real training. Otherwise, even if they reach the threshold of legendary smoothly, they won't be able to open the door to legendary..." The Black Knight sighed.

He was referring to the knight who didn't have the chance to become a legendary knight and felt sorry for him.

"Commander, I've also broken through the legendary barrier and advanced to Bloodthirst. I've also mastered Blood Qi Wings." The Divine Light Knight clenched her fists and said excitedly.

"Congratulations, Divine Light Knight. The strength of our Knights has advanced further. Next, we will continue to temper our bloodline power and strive to step into the Blood Source realm as soon as possible to forge our own Bloodline Divine Weapon." Levi began to flatter his team members.

They had seen the power of the Bloodline Divine Weapon with their own eyes. They were extremely envious.

"Commander, I have a body tempering technique here. The Goddess Knight gave it to me. She heard that you were collecting things in this area, so she asked me to project it for you... If you can't remember it, I'll give it to you when we meet in the future." In Emperor Mu's hand was a slate that was like ice. There were some complicated body tempering spell runes carved on it.

After killing Barzan, other than obtaining 200,000 Aether Stones, the most precious thing was Barzan's fundamental technique.

Luminant Gold Body-Refining Technique.

After mastering it, he could be comparable to a Fourth-Circle Wizard and cultivate the Luminant Gold Wizard Body.

In addition, Levi's previous Mixed Venom True Form was also very useful, so he began to consciously collect high-quality body tempering techniques.

He would accept anything that could help him understand the path of knights.

"Ice Body Tempering Technique, not bad... It's a pity that the projection is useless. This is a special inheritance slate. I can't cultivate it just by memorizing the runes on the surface. Let's talk about it in the future," Levi said calmly.

"Alright, it's indeed not that simple." Emperor Mu felt regretful.

Levi said, "But then again, there are a few low-level body tempering techniques for wizards in the Holy Hall. It's enough for you to cultivate to the second-circle body-refining wizard realm. If you have wizard talent and are interested, you can also try to cultivate it. Perhaps it can also help you understand the path of knights by analogy."

"I'll pass. Cultivating the Knight Breathing Technique has already exhausted all my energy. With my limited lifespan, I should devote myself to more important matters," the silent Knight Hogg said. "By the way, commander, there's one more thing. During this period of time, I learned from the Church of the Dragon God that the Dragon and Estella of the Church of Stars have joined forces. I reckon it's also to resist the Holy Brilliance and Earth Alliance formed by Ye Lin and Teresa."

"Oh? Estella..." Levi's thoughts returned to the past, to the saint of the Church of the Stars whom he feared.

Now, he was no longer the same as before. He had enough confidence and was not as afraid as before.

Of course, if he could avoid conflict, he would not take the initiative to cause trouble.

The Church spread their faith, and there was no conflict or competition with their knight path.

From the information that Hogg had sent from the frontlines, it seemed that this saint was similar to Estella and was also more Buddhist. He was not like the kind father and the saint who would do anything to worship. Levi guessed that this might be related to the identity of the King of Ten Thousand Dragons as a Dragon Clan.

"Let's not take sides and not get involved in the Church's disputes. However, if the situation changes and we need to join forces with a portion of the saints, we can be flexible," Levi said.

Perhaps it was because Levi grew up under the oppressive rule of the Church of Holy Light, that he had the least favorable impression of the Church of Holy Light.

"Speaking of which, the Van Helsing family's seals inheritance... seems to still be on Heavenly Mountain."

Although the seals were useless to Levi now, he had already collected two large clans. If he could not gather the rest, Levi would feel a little awkward.

He did not want to think about all this nonsense. The ten-year plan for the next stage of the construction of the Twilight Knights and their development was gradually discussed and formulated at the round table meeting.

At the end of the meeting, the commander, Levi, gave a speech. Everyone ended the meeting perfectly. The ninth round table meeting ended smoothly.

Levi quietly left his hall. There was no need for him to worry too much about the Ancient Dragon Empire now. The three kings and the Sages of the Senior State Assembly were enough to deal with most situations.

All the Lizardmen of the Ancient Dragon Empire were tightly united beside the Crimson Dragon Emperor, who was fighting against the evil god from beyond the heavens on the Blazing Throne.

"Unfortunately, there has been no news of the Holy Grail of Immortality. Could it be that it's no longer on this Ancient Saint plane?"

All these years, Levi had never forgotten to search for the Holy Grail of Immortality.

This might be the most powerful of the four treasures. After all, it involved the ageless level. It was inevitable that people would daydream.

He arrived at the small island where the teleportation point was located in the human world.

"Master, some time ago, a strange wizard tried to enter the array but was killed by it," Bo Gang suddenly said.

"Huh? Why is it strange?" Levi asked.

"It's just that their skin is very thin, and their blood vessels seem to be exposed. Their eyes are tiny, as if they don't have any. Although there are many strange wizards, there is not only one, but three of them. However, they were killed in a moment inside the array. Their strength might only be at the level of a second-circle," Bo Gang said.

"It seems that the existence of the Forsaken Land of the God has begun to gradually explore the Seven Kingdoms Continent..." Levi pondered.

These three unlucky fellows must have accidentally discovered this island.

However, this was not a good sign. Levi knew that unless he had a higher-level concealment array to erase the entire island from the map, he would eventually be exposed.

Of course, the outer sea was so big that the probability of this island being discovered was not high.

As long as it was not a Fifth-Circle Wizard or many wizards who came, the others would only die in the array.

Even if they were lucky enough to pass through the array, if they dared to invade the Ancient Dragon Empire, they would be killed by the Ancient Saint of the Senior State Assembly.

"Hurry up and refine the Purgatory Ghost Killing Array. At that time, it could even go against Fifth-Circle Wizards and Ancient Saints. This can also become my trump card."

Levi's heart was calm, but he did not panic.

After five years of hibernation, his strength had changed in all aspects, giving him enough confidence to deal with the upheavals of the future era.
