Chapter 865: Sauron and His Fellows (3)

The sky returned to normal, as if the invasion of the abyss had never happened.

"What is this move called? Lord Sauron." The bearman elder asked.

"Sauron's Great Disintegration Technique is usually prepared for high and mighty figures. It's a little overkill to use it here."

"The strength of this world is declining..." The bearman elder suddenly sighed.

"Don't worry, everything will be fine."

Holy Brilliance Calendar Year 1113, the first day of the Month of Beginning.

The 82nd year of the Great Expedition.

In the wizard tower of Nether Capital.

Levi had just finished the 11th round table meeting of the Twilight Knights.

When the meeting adjourned, Levi sat alone in his seat, staring at the empty tabletop.

Suddenly, Mobius sighed. "Sigh... Time flies."

"Why do you lament, Sir Mobius?" Levi asked.

"Back then, Sauron and his 18 fellows were the ones who held the meeting here. Now, seeing your hopeful faces, I can't help but feel a little emotional..."

"His fellows?" Levi asked.

"That's right. The 18 of them came from different planes and had different strengths and paths. However, those who were recognized by Lord Sauron were called Fellows by him."

"Who are the fellows? Would you mind telling me? I'm quite interested."

"Of course. Let me think, there's the Machine Sage, the Arcane Emperor, and the Origin Holy Emperor..."

Levi listened quietly. The Arcane Emperor. He seemed to have heard of him.

In the ancient book "The Tomb of Fireflies", the Bug Luminist's Othar plane had once given birth to a prosperous Spell Caster civilization. Later on, it died under the terror bugs and evolved into a Bug Luminist civilization.

As for existences like the Origin Holy Emperor and the Machine Sage, they involved Levi's knowledge blind spot.

"The Machine Sage should be an existence similar to an alchemy wizard. He sounds quite powerful... As for the Origin Holy Emperor? I can't guess anything from his name."

Levi shook his head. These big shots were too far away from him. Moreover, after such a long time, there was a high chance that they had died.

"Master, the Rose Witch is here." Algerta's voice sounded.

"Let her in."

"Will do."

Not long after, the Rose Witch brought a skinny male wizard to Levi's living room.

"Sir Newt, long time no see." Levi smiled.

"Sir Levi, forgive me for being too busy with my classes. I know that you've settled down in Nether Capital, but I haven't had the time to visit you," Newt said.

"How do you feel at the Starfire Wizard Academy?" Levi asked.

He got Algerta to serve tea to the two guests.

"It's quite good. The atmosphere in the academy is different from the organization I've been in before. I wasn't used to it at first, but I got used to it. By the way, I chatted with Sir Xavier before and mentioned you by chance. I was surprised to find that Sir Xavier knows you too?"

"Haha, I do know him. He's also a good friend of mine." Levi smiled.

"Sir Newt, why are you here this time?" Levi asked.

Newt nodded and said, "The first thing is to invite you to Principal Garcia's primordial soul ceremony. Xavier asked me to do this. He misses you very much... The second thing is to ask if Alice's ring is okay?"

"No problem. I'll definitely participate when the time comes. I also want to see a true primordial soul powerhouse... Alice's ring is very good at the moment. I'll repair it in the future. Don't worry, Sir Newt," Levi said.

Newt nodded.

"Actually... there's one more thing. It's about the Rose incident. Sir Levi, do you have a solution?" Newt asked in embarrassment.

Levi shook his head and said helplessly, "There's no solution to that. The Nightmare World is too unknown and terrifying for us. Let's wait for the arrival of the Flower Witch."

"Alright." Newt held the Rose Witch's hand, feeling a little uncomfortable.

Levi watched the couple leave. There was nothing he could do.

He could use the "nightmare" of the Rose Witch as an entrance to enter the Nightmare World.

There was a high chance that he could also see the culprit who had given her a nightmare, the Man-Faced Spider.

The problem was, how could he defeat the Man-Faced Spider?

He was only a Third-Circle Wizard. He could only pretend in a novice village like the human world. Going directly to a difficult dungeon like the Nightmare World was courting death.

Holy Brilliance Calendar Year 1113, Month of Winter.

In Levi's wizard tower, there was a huge crucible.

Inside the crucible was boiling luminant gold.

Levi was happily soaking in the pot of luminant gold molten iron as he chanted a complicated incantation.

Golden runes began to appear on Levi's bronze body, shining brightly.

"After six years, the Luminant Gold Wizard Body is completed. This Luminant Gold Body-Refining Technique is really expensive. However, the person who created this technique is also very powerful. He directly turned the power of Luminant gold into runes and imprinted them on the wizard's body, allowing the wizard to have a body of steel comparable to luminant gold. After Perfection, it's even harder than luminant gold itself."

Levi—

Luminant Gold Body Tempering Technique: Level 5 (126/30,000). Special Effect: Luminant Gold Wizard Body (Level 5).

Levi felt the changes in his body. The body tempering technique of a wizard was similar to passive defensive spells like the “King Kong Rock Body”, but it was more complicated and systematic.
