

## Wizard 866

### Chapter 866: Sauron and His Fellows (4)

Generally speaking, the body-refining of a wizard was still inseparable from the support of spiritual force and spell power. Body-refining wizards and ordinary wizards were just different on the outside. Ordinary wizards used powerful spells to attack, while body-refining wizards used spell-enhanced bodies to attack. One was good at long-range combat, and the other was good at close combat. Both had their advantages and disadvantages. However, the mainstream was still ordinary wizards. Body-refining could only be said to be an unorthodox method.

Levi came out of the crucible.

The luminant gold molten iron in the crucible was one layer less than when he entered.

The molten iron had already turned into the power of luminant gold runes and fused into Levi's body.

"By the time I finish absorbing this pot of molten iron, I should have mastered the Luminant Gold Body Tempering Technique."

"Speaking of which, the Luminant Gold Body Tempering Technique and the Mixed Venom True Form are both Wizard Body Tempering Techniques. I wonder if they can be fused. If they can, my Mixed Venom True Form might be able to break through."

In the beginning, Levi only practiced the Mixed Venom True Form for fun.

However, after reaching Maximum, Levi realized that this thing was really useful and far exceeded his expectations.

To a certain extent, the Mixed Venom True Form could be used as Levi's puppet clone.

It could be used both to fight and to mark enemies. Moreover, it was almost immortal. As long as the Toxic Swarm was not wiped out, it could always rely on its powerful splitting and regeneration ability to recover. It was a standard demonic big boss cultivation technique.

There was still some time before Garcia's primordial soul ceremony. Levi came out of seclusion this time mainly to participate in the annual large-scale auction in Nether Capital, the Nether King's Night.

He returned to the Wizard World so that he could purchase more knowledge, resources, materials, and so on.

According to the information he had heard from the Witch's Family, there would be many really good things appearing on this Nether King's Night.

It was said that they even sold breakthrough potions to advance to the fourth circle.

Levi had been refining breakthrough potions all along.

However, he had no choice but to submit to the cruel reality now. It would take a lot of time to refine the potion himself and collect the materials alone. At the same time, there was a possibility of failure.

As the quality of the potion became higher and higher, the rarity of the ingredients soared. Most of the time, it was already not bad to be able to collect a set of pharmacy ingredients. If he failed, who knew how long it would take to collect them all again.

Therefore, if he encountered it in the future, he would still have to buy it.

As long as it was bought through formal channels, the probability of fake medicine was not high.

"It's mainly the succubus breastmilk. I don't have any connections."

Levi felt helpless.

It had been six years since he had obtained the formula for the Succubus Potion, but he had not encountered a single succubus. He did not know where the demons that had escaped from the Abyss Well were hiding.

Some time ago, he even went to the wizard brothel that was often advertised in the Nether Capital to take a look and see if there were any succubus prostitutes there.

If there was, he would book himself a succubus and bring some fresh milk back to alchemy.

It turned out that he was thinking too much. There were fur clans, low-level elves, Sea Clan, and all kinds of strange human-like women in the brothel, but there were no demons...

Nether King's Auction House.

Levi had already booked a private room. The private room could block detection and prevent others from coveting. However, the price was a little expensive and he had to pay an additional 1,000 Aether Stones.

"I have 700,000 Aether Stones on me now. If I have a fourth-circle breakthrough potion that doesn't exceed 400,000, I'll take it! I have to save 300,000 for backup.

"After all, I still have to buy the materials for the Purgatory Ghost Killing Array here and leave some money for the meditation supplementary potion materials... There are places to spend money everywhere. Recently, there haven't been any weak dark wizards robbing me. What a pity..."

Dark wizards were very interesting. When he took the initiative to look for them, he could not see a single one.

Soon, the auction house was filled with wizards.

Levi was participating in a high-level auction. Only wizards above the middle level were qualified to participate.

He looked around. Judging from the seats, about a hundred Intermediate Wizards in Nether Capital came to participate in the auction.

"So this is the Star Sea."

Of course, most of these people were Third-Circle Wizards. Fourth-Circle Wizards were rare, and Fifth-Circle Wizards were even rarer.

Not long after, the auction witch came to the front of the stage.

The first item was a Third-Circle Wizard Tool. Levi was not interested at all.

He could destroy a Third-Circle Wizard Tool with a single strike.

"The next item is a Fourth-Circle Wizard Tool, Minnie Miaomiao House. This Wizard Tool was obtained by a friend from a dark wizard. It's a Spatial Wizard Tool that can be used to raise Zergs and transcendent creatures. It has a lot of living space, and the elemental power is relatively rich. Transcendent creatures can also grow inside.

"The starting price of this Wizard Tool is 100,000 Aether Stones. Every increment must not be less than 100 Aether Stones."

Levi's expression changed.

"Minnie Miaomiao House? Forget it, I don't need it just now... I'll save the money to buy potions." Levi sighed in his heart.

He recalled the time when he was in Riptide City and fought hard for Minnie Miaomiao House. In the end, he found out that it had been snatched away by a dark wizard.

In short, Spatial Wizard Tools were not very valuable. Although they could store living creatures, they could not directly increase the strength of wizards.

However, Minnie Miaomiao House was still bought by a wizard for 150,000 Aether Stones.

"Goodbye, Minnie Miaomiao House. Goodbye, my youth."

After waiting for a while, the auctioneer brought over a potion in a transparent bottle.
