

Wizard 871

Chapter 871: Primordial Soul Ceremony (3)

The Gray-Robed Wizard was expressionless. Vaguely, transparent tentacles extended from his face and waved in the air.

These Tentacles were shining with purple light spots.

"Mind spell, Deep Purple Dream!"

As a powerful Mind Flayer, mind spells were all his innate abilities, so there was no need to chant or cast spells.

In the next moment, those purple spots of light flew out and silently disappeared into the sky.

A purple light instantly flickered between heaven and earth, and the clouds turned purple.

The purple light lasted for a moment before disappearing.

"I've been hit."

After careful consideration, the Mind Flayer did not rush over. Instead, he waited for a moment.

As he cast the spell, the creatures within the spell range were forced into the illusion created by the Mind Flayer.

In front of an ordinary fish in the sea, a terrifying sea beast suddenly attacked. It swam with all its might.

In fact, it was only pacing back and forth on the seabed. There were no sea beasts around.

Inside the Flying Shark, Coulomb stared blankly ahead.

In front of him, the Extreme Fire Ancestral Wizard stood.

"Coulomb, you betrayed me. Die!"

"Teacher, I didn't, I didn't..." Coulomb shouted, wanting to escape the terrifying spell attack of the Ancestral Wizard, but he was rolling on the spot.

In the cabin, Levi also fell to the ground, as if he had fallen into a nightmare and could not extricate himself.

"I don't want to take this job anymore!"

He kept pounding the ground.

Unknowingly, a figure had already passed through the array restriction of the Flying Shark and landed on the deck, looking at the struggling Levi and Coulomb.

"What does 'work' mean? It doesn't sound like a good thing. It made this wizard in front of me so afraid... Come, let me free you."

At this moment, the Gray-Robed Wizard's robe had completely shattered. A purple-green humanoid monster crawled out of the decayed and dried corpse. It was dripping with blood, like a baby bird that had just hatched from an eggshell.

Its purple tentacles waved around its head, containing powerful mental energy.

"Come, let me suck your brain dry." It used a spell to imprison Levi. Its tentacles extended and surged towards Levi's head.

Bang!

At the next moment, blood fog filled the cabin of Flying Shark.

The Mind Flayer realized that he seemed to have missed.

"Tsk, tsk, tsk. It's the famous Mind Flayer."

Levi's laughter came from the blood fog.

At the next moment, the blood fog condensed, and a golden flash flew out.

There was a thud.

The weak body of the Mind Flayer was pounced on by the golden light and crashed into the cabin of the Flying Shark.

"You... You didn't fall into an illusion? How is that possible? With your spiritual force, my illusion is 100% accurate!"

The Mind Flayer was quite confident in his illusions. The illusions of the School of Dreams of the same level were nothing compared to his.

He was a master in this aspect.

"Mind Shock!"

Boom!

As the Mind Flayer retreated, he unleashed powerful mind attack spells that could directly affect consciousness and spiritual force.

In the end, the Metal Voodoo Poison Body that was flying towards him was completely fine after experiencing it.

It was only the lowest level of collective consciousness. Such a high-level attack on the mind and consciousness was useless against it. It was equivalent to scolding the enemy in Chinese. The enemy was illiterate and could not understand at all...

Boom!

Although it was only a clone at the peak of the third-circle, the Mind Flayer was still in a sorry state when he was caught off guard.

"Oh no, I've been tricked. He deliberately pretended to be under an illusion to attract me to get close to him because he's a body-refining wizard and is only good at close combat. He's not good at..."

Before the Mind Flayer could finish analyzing, a fire dragon pounced over, and a heat wave swept over.

"Spiritual barrier!"

An invisible force field barrier lit up around the Mind Flayer.

Boom!

The barrier trembled and cracks spread, but it blocked the terrifying fire dragon attack.

"This power is not inferior to an ordinary Fourth-Circle Wizard..." The Mind Flayer was shocked.

Damn it, this kid was pretending to be a pig to eat a tiger. The problem was that he had fallen for it!

Coming to the Wizard World had been too smooth sailing and he had been a little careless.

"Let's retreat first. I'm not good at fighting head-on. The enemy has already discovered me. There's no need to continue." The Mind Flayer thought.

In the next moment, a flame sword qi formed by grayish-white airflow arrived in an instant.

Crack!

The spiritual barrier of the Mind Flayer had completely shattered!

"It can actually break through my spiritual barrier!" The Mind Flayer became even more determined to escape.

The Chariot Runes on Levi's body flickered as he activated Scarlet Power.

The Mind Flayer was determined to escape.

Suddenly, another golden figure appeared in front of him. It appeared in the path of the Mind Flayer. It held a chainsword, and there was a large-caliber Fire Divine Cannon on its chest.

Fire Divine Cannon! Maximum power!

One shot cost 1,000 Aether Stones!

"Damn it, he knew that I was going to deal with him, so he got the alchemical creature to ambush me!" The Mind Flayer was terrified. "I can't die here!"

Boom!

The light of the Fire Divine Cannon tore through the sky and tore through the world.

The spiritual barrier condensed by the Mind Flayer trembled and cracks appeared.

"Do you really think I'm afraid of you?"

"Inner Demon Domain!"

The Mind Flayer's tentacles danced crazily and extended. His entire body floated high up like a god.

A powerful spiritual force field formed around him.

Boom, boom!

There were two muffled sounds.

The Metal Voodoo and Tyrant III collided with the air wall and were sent flying.
