

Wizard 872

Chapter 872: Primordial Soul Ceremony (4)

"Die!"

Levi was already on his way.

His level 2 Flame Dragon's true form had peerless strength.

The Crimson Dragon Slash divine weapon, which had been nurtured to level 3 by Levi, slashed the Destruction Sword Qi on this invisible force field.

Crack, crack, crack!

The force field began to crack like glass that was about to shatter.

"Mind Control!"

The Mind Flayer saw that the enemy could not break through his defense for a while.

He directly activated a mind spell.

In an instant, a powerful spiritual force attack entered Levi's mind.

Ripples appeared in his mind.

The Divine Ring Tower slowly rotated, suppressing this fluctuation.

The terrifying mind attack also disappeared.

"These Mind Flayers are terrifying. They're all mind attacks that can't be defended against. Fortunately, I have the Divine Ring Tower... Other wizards, even if they're at the fourth-circle, might also be affected. Those below the fourth-circle definitely won't be spared!"

Levi rejoiced.

He revealed the true form of the Giant Dragon Warrior and the Nine Swords Asura Bloodline Dharma Body. His body expanded, and his strength exploded again.

Boom!

Nine Swords shot out at the same time, and the crimson dragon roared. Under the Destruction Sword Qi, the turtle shell formed by the powerful spiritual force of the Mind Flayer finally shattered and disintegrated after Levi slashed again and again.

Suddenly, a sharp whistle sounded.

"Mind Howl!"

"You call your mother!"

Levi slapped the Mind Flayer.

Under the terrifying force, the spiritual barrier temporarily supported by the Mind Flayer shattered, and his body was slapped to where Tyrant II and the Metal Voodoo Poison Body were.

"Lock him up!"

The Metal Voodoo Poison Body turned into a golden water drop-shaped cage, locking the Mind Flayer inside.

"Spirit Spike!"

The Mind Flayer's attack broke through the seal of the Metal Voodoo.

Tyrant II's chainsword directly attacked his face.

Clang!

There was a loud clanging of chainswords.

Tyrant II, who was overjoyed, almost split the Mind Flayer's head open.

Levi pounced.

He grabbed the Mind Flayer's body tightly and twisted it like he was rubbing a sponge. Purple blood flowed out.

"Ahhh!"

The Mind Flayer screamed but did not beg for mercy.

"Scarlet Contract!"

Levi still had a contract slot left.

As the Scarlet Power surged into the Mind Flayer's body, a ferocious and majestic Scarlet Dragon pattern appeared on the Mind Flayer's forehead and quietly disappeared.

Levi was not in a hurry to let go of the Mind Flayer. This guy was the most dangerous enemy he had encountered so far. Compared to body-refining wizards like Barzan, he was much more difficult to deal with. His true strength was probably comparable to a fourth-circle senior wizard who had mastered two fourth-circle innate spells.

In the end, after confirming that he had subdued the Mind Flayer and that there were no tracking marks in its body, Levi hurriedly took some potions and rested for a moment under the shelter of the Metal Voodoo and Tyrant II.

"Mind Flayer, right?" Levi asked.

"Yes, Master." The Mind Flayer's gaze was completely different from before.

"Why do you want to harm me... Forget it, you're a chaotic and evil demon. It's normal for you to harm me. Why did you choose me?"

"I've taken a fancy to Master's body and want to be my body," the Mind Flayer said.

Levi did not expect that a powerful body could sometimes bring trouble.

He suddenly remembered that in the Black Pearl Wizard Market, he was also targeted by that Level 4 demon for no reason. It seemed that it was also coveting his body.

"An undeserved calamity."

Levi could only sigh.

"How many demons like you are there in the Endless Sea?" Levi asked.

"Not many, but I know quite a few. They were all gathered by the Black Feather Demon King, Victor."

"Who is Victor? An Abyss Demon Lord?"

"Yes, he was once the lord of the 233rd level of the Abyss. Now, he's living in the body of a wizard in the human world."

Levi pondered upon hearing this. Demon lords were existences on the level of primordial soul wizards, so he wasn't interested in Victor. He also didn't want to eliminate demons.

"Do you know the succubus in the Endless Sea?"

"I do."

"Where is it?" Levi's heart skipped a beat. He didn't expect the Mind Flayer to know a succubus. Now, he would have the succubus breastmilk.

"In Area 7 of the inner sea region, a Fifth-Circle Wizard, Sorrett, secretly raised a level 4 succubus. Her name is Miraya..."

"Is it Sorrett from the Thunder Dragon Family?" Levi frowned and his face darkened.

"Yes, he is."

"I understand. You can enter the ring first. I'll find you a suitable body in the future," Levi said.

The Mind Flayer was the most powerful slave he had subdued so far. He was also one of the few that could help him fight. However, Levi did not dare to let the Mind Flayer appear without a shell to hide.

After all, rearing demons was a capital offense!

"I didn't expect Sorrett to raise a succubus. This old fart is really good at enjoying himself... Now, I'll have to spend some effort and effort to obtain the succubus breastmilk. After all, this succubus is considered Sorrett's exclusive property. I'm sure he's keeping a close eye on her."

Levi could not think of a good solution for the time being. The only solution he could think of was to get the Mind Flayer to find a way to ask Miraya out and Levi would take the opportunity to retrieve her milk!

Of course, it would be even better if he could directly subdue Miraya... In the future, as long as there were enough other resources, he could refine more breakthrough potions to sell for money.

After all, the breastmilk of a succubus should be a renewable resource. Of course, this was only Levi's guess.

While thinking of a way to deal with it, Levi rode on the griffin.

The Flying Shark was lost in the battle and suffered some losses.
