

Wizard 876

Chapter 876: Dark Ancient Tower! (3)

Levi hid his aura at the bottom of the sea and watched as a few more Third-Circle Wizards chased after the light.

"What is it? Could it be a Soul Artifact?"

He watched as those wizards began to fight over the small pagoda. Not long after, the green-robed wizard was surrounded and beaten to death by a group of people.

Another Third-Circle Wizard snatched the small pagoda from the green-robed wizard's hand. The wizard immediately tried to put it in his storage space. After discovering that it had failed, his expression was ugly.

He finally knew why the green-robed wizard ran away with the small pagoda foolishly. It was because this thing could not be stored.

He wrapped his clothes around the small pagoda, but it still couldn't block the light it emitted.

He could not use a Wizard Tool similar to the Bug House either.

In the next moment, he decisively threw out the little pagoda and quickly left this place.

More and more wizards were attracted by the light. This scene looked very strange to Levi.

In the night, these wizards were like insects attracted by the candlelight.

"Let's go. This thing is a little strange. I don't want it." Levi finally suppressed his curiosity and quickly left this place.

In the night sky, he looked back.

Those wizards were still fighting for the small pagoda. There were even Fourth-Circle Wizards who joined in and fought.

He suspected that many of these wizards might not know what this small pagoda was. They simply saw that others were snatching it and thought that it was some kind of treasure. Driven by greed, they joined it.

"My life is more important."

Not long after Levi left, a Fourth-Circle Wizard finally snatched the small pagoda. His mouth suddenly split open and swallowed the small pagoda.

"Hahaha, get lost!"

The Fourth-Circle Wizard sneered. The storage space in his belly could hold a small pagoda. It was not bad.

The next moment, his belly began to glow, making him look like a bright light bulb. This light was especially eye-catching in the darkness.

"This won't do?" His expression was gloomy.

The spells he cultivated could use his stomach to store things. He did not expect that they could not hide the light of the small pagoda.

"Little guy, hand over the treasure. This is not something you have the right to take. Hehe." Suddenly, a sharp and hoarse strange voice appeared in the sky.

Black clouds that covered a radius of several kilometers gathered. At the top of the dark clouds, a wizard in a black robe was sitting on a white bone throne in the clouds, exuding an aura that suppressed the entire scene.

"Wildbone Wizard is here too. Let's go!" Some wizards decisively left this place.

Clearly, the reputation of Wildbone Wizard was well known.

Although he was not a dark wizard, he was not much different. He had committed many murders and arsons behind the scenes. However, the officials could not find any evidence to convict him. In addition, in this war era, due to the collapse of order, Wildbone Wizard had always been at large.

The Fourth-Circle Wizard knew that it was impossible for him to be a match for an old monster like the Wildbone Wizard, who had been famous for a long time. He immediately used a flying spell and fled into the distance.

He directly took out his only Fourth-Circle Wizard Tool. A compass-shaped Wizard Tool shone with light and suppressed the Wildbone Wizard above.

"Hmph, overestimating yourself."

The Wildbone Wizard casually grabbed from the dark clouds beside him, and a ferocious and terrifying Skeleton Wyvern that emitted a death aura crawled out, emitting the aura of a fourth-circle.

Not only that, but he also pointed at the Fourth-Circle Wizard in the air. A gray ray emerged from his withered finger and sent the compass flying.

He easily neutralized the Fourth-Circle Wizard's attack.

Powerful skeletal creatures flew out of the dark clouds and charged at the Fourth-Circle Wizard.

Not long after, the Fourth-Circle Wizard was captured. His stomach was cut open, and the small pagoda was grabbed by a skeleton creature and appeared in the hands of the Wildbone Wizard.

He hid the small pagoda in the dark clouds around him. The light was finally blocked.

"Tsk, tsk, tsk. I've obtained the key to the Dark Ancient Tower. My efforts to find this Demon Soul Bag were not in vain."

Wildbone looked at the wizards who were fleeing in all directions. They were all third-circle and low-level wizards.

"Since you saw me attack, you have to die..."

Not long after.

Screams sounded on the surface of the sea.

In the end, none of the wizards who participated in the fight for the small pagoda were spared... except Levi.

Satisfied, the Wildbone Wizard put away all the storage bags. The white Aether Stones were all put into his bag. As for the ordinary Wizard Tools, he threw them all into the dark clouds he was sitting on.

A crack appeared in the dark clouds, like the abyssal mouth of ferocious beasts.

Crack!

With the sound of the Wizard Tool shattering,

The dark cloud burped in satisfaction and said, "Give me more. In the future, when I return to the Soul Artifact Realm, you can follow me and soar. You have a chance to see the primordial soul wizard realm."

The Wildbone Wizard remained silent.

When he passed by Xavier's island, he sensed that there seemed to be a wizard intercourse inside.

"This place isn't far from where it happened. I might as well kill them all."

He was a little hesitant. After all, this seemed to be the Starfire Island's teacher's island. If he killed there, he would offend Garcia, the primordial soul.

Suddenly, he felt a powerful aura approaching from afar.

"Forget it, the primordial soul can't be humiliated. It's not advisable to offend a primordial soul expert... Moreover, he is busy with matters concerning a man and woman. It's obvious that he didn't notice me."

Wildbone sped away, disappearing over the sea.
