Chapter 879: Dark Ancient Tower! (6)

In the ice cave, there was a small black tower lying there.

"It's really here."

He got the Ice Elemental Spirit to put it away and swaggered away.

As one of the top experts in the Realm of Ice, he was not worried that others would snatch from him.

In the Nether Capital.

Levi, who had been holding a meeting for a few days, specially asked Emperor Mu to come online.

"Is everything okay?" Levi asked.

"Commander, I'm fine. But you're right. The ice cave where the small pagoda was has been razed to the ground... I think a primordial soul wizard appeared there," Emperor Mu said with lingering fear.

"You still have to be careful in the future," Levi said.

After confirming that Emperor Mu was fine, he was relieved.

"What exactly is this small pagoda? I keep feeling that it's not simple... Even the elusive primordial soul wizard of the Divine Dragon was alarmed," Levi muttered to himself.

"Master, I kept feeling a familiar aura from the small pagoda you encountered that day, but I couldn't remember it. It seems to have been forgotten..." Mobius' voice suddenly sounded from the round table.

"It's indeed familiar. It feels familiar," said the magic mirror, Otharos.

"Why don't I feel anything?" Excalibur Erlnis was confused.

Levi pondered upon hearing this.

He immediately thought of the Holy Grail of Immortality to make the round table and magic mirror familiar to him.

However, the Holy Grail of Immortality was clearly not in the shape of a tower.

Could it be the Chaos Ancient Serpent?

Levi was shocked.

Because Otharos and the others had been refined into artifact spirits, many of their memories seemed to be missing. It was also possible that Sauron had done it on purpose.

In short, Levi now suspected that the small pagoda was related to the Chaos Ancient Serpent.

According to Sauron's habits, the Chaos Ancient Serpent might have been refined into an even more heaven-defying treasure!

"Forget it, let's not think about it anymore. With my current strength, it's useless even if I obtain that treasure."

Levi did not want to worry about these things that were beyond his ability.

In the Nether Capital, he cultivated peacefully.

Just like that, a year passed.

Holy Brilliance Calendar Year 1118, Month of Vitality.

Year 87 of the Great Expedition.

The Deep Blue Sage of Sky City had been out of contact for many years.

The war in the Wizard World was still ongoing.

Ever since the primordial soul ceremony, the Starfire Wizard Academy's development had been on the fast track. It had begun to become a force to be reckoned with in the Star Sea.

The Twelve Wizard Cities stood in the Star Sea and surrounded the Star Tower.

Occasionally, they would encounter some attacks from dark wizards, but they passed smoothly.

In the Nether Capital, Levi came out of his cultivation state.

Celia had just left him a message saying that Madam Triss had returned from the Central Realm and was looking for Levi.

Levi willed the earth elemental power to gather around him. The spell runes were densely packed and finally formed a barrier around Levi.

This barrier was like a rotating earth-yellow Divine Dragon, emitting thick earth elemental power, giving people a heavy and steady sense of security!

"Second innate spell, Earth Dragon Barrier, succeeded!"

After so many years of research and fusion of a large number of basic spells of the Earth Faction, Levi's strongest defensive spell was finally formed.

Levi—

Fire Dragon Tribulation (First Talent): Level 9 (Maximum)

Earth Dragon Barrier (Second Talent): Level 7 (1/50,000)

Levi tested it. It was only a level 7 Earth Dragon Barrier, but its defense was enough to withstand an attack of 30 Cas.

If he cultivated to the maximum of level 9, it would not be a problem for him to withstand the attacks of ordinary fourth-circle spells above 40,50 Cas.

The Earth Dragon Barrier's defense was much stronger than Levi's Heavy Water Barrier.

"This is because the earth elemental power in the Endless Sea is relatively thin. If it was in the Earth Realm, the defense of this Earth Dragon Barrier would be even more terrifying with the enhancement of my Aether Dominance Special Effect... However, this effect is not much. When casting spells, I can make up for this difference by consuming some Aether Stones."

Levi was overjoyed.

Now, he could finally be called a third-circle senior wizard.

His attack was the maximum level of Fire Dragon Tribulation, which was enough to shatter the force field of an ordinary Fourth-Circle Wizard.

His defense was the Earth Dragon Barrier, and his strength had increased significantly.

"I wonder if my Fire Dragon Tribulation can break through the max-level Earth Dragon Barrier? I can give it a try in the future.

"Now, my spiritual force has also reached 185 points. I'm about ten years away from 200 points. In other words, my spiritual force can reach Perfection before I'm 140 years old. I have to start preparing the liquefaction method for my spiritual force in advance.

"There's one in the Witch's Family. I'm going to see Madam Triss this time to buy a method and ask her about liquefaction."

This was the benefit of joining an old organization. As long as one had money, one could buy even the core mental energy gasification, liquefaction, and even crystallization techniques. Moreover, there were many types.

Levi placed his hand on the witch badge and chanted an incantation.

In the next moment, he had already disappeared from the wizard tower.

When he appeared again, he was already in the square of the Witch's Family.

Lady Idrasala, the Immortal Banyan Dragon, was still sleeping on the towering Magic Tree.

Levi was envious.

He could only hate himself for not being born a pure-blooded Dragon Clan and not being able to lie flat!

While he was bitterly cultivating the Bloodline Breathing Technique and advancing towards the pure-blooded Dragon Clan, these pure-blooded Dragon Clan members could become stronger while sleeping, although it would take a long time.

"Some Dragons were born in Rome, but some Dragons are bulls and horses..." Levi sighed.

"Every time I see this Immortal Banyan Dragon, I will think of our good brother, Diuxis. The Immortal Banyan Dragon race is rare to begin with. I even suspect that this female dragon might be the last Immortal Banyan Dragon... Master, when you have the strength in the future, you must take this female dragon in to prevent my good brother's race from having no descendants."

Excalibur's voice sounded in his mind.

"I want to, too."

Levi was speechless.

The problem was that this was the Guardian of the Witch's Family. Even if he advanced to a primordial soul, she might not take a fancy to him.

Magic Potion Cabin.

Levi smelled the unique fragrance of the potion on Madam Triss's body. It was refreshing.

"You've become stronger again." Triss smiled.

"It's just a small breakthrough. Madam, why are you looking for me?" Levi asked.

"You're not even 150 years old, are you?"

Levi nodded. "Almost a hundred and fifty."

"That's right. According to my information, you don't seem to have outstanding talent. To be able to have such cultivation at such a young age, you must have something extraordinary about you. Do you know what kind of talent Garcia, who was in the limelight a while ago, has?"

"I don't know."

"As far as I know, he's a Child of Chaos. He cultivated the Meditation Art since he was young and cultivated diligently. He only became an official wizard at the age of 60... He was more than 900 years old and only broke through to the primordial soul at the end of his lifespan."

"This is indeed a miracle." Levi was also surprised.

Garcia was the Child of Destiny's panel. According to Madam Triss, he had basically only broken through when he was close to the end of his lifespan. Every time, he was safe and sound.

"Cultivate well. Although you're a wizard, I think highly of you. I called you here this time mainly because I have a mission for you."

"Go ahead, ma'am."

"I've received news that a pharmacist branch in the outer sea region is currently surrounded by a few third-circle dark wizards in the secret realm. Recently, there have been some undercurrents in the Star Sea, causing the members of the organization to not have enough manpower.

"I know that you like to hide your strength and your true strength is not bad. I want you to bring a team to rescue the pharmacists in the pharmacist branch and bring them back to the Witch's Family. The president of that branch was a good friend of mine when I was young... I'll be more at ease if I hand this over to you."

Levi did not reject her immediately. Instead, his heart skipped a beat as he asked in a low voice, "May I ask which area of the outer sea region is it?"

"Area 7, president... Lush Forest Witch."
